Further, providers will use the information to ensure that roaming will work expeditiously in times of emergencies and to better understand their network capabilities related to roaming and ensure their networks roam as effectively as possible when a disaster strikes. Further, the Commission will use information as a basis for potential future improvements to the MDRI and other programs in furtherance of public safety, including by gauging providers' compliance with the MDRI's roaming provision, ensuring accountability by providers who fail to comply and for resolving disputes related to roaming agreements. Thus, the information sought in this collection is necessary and vital to ensuring that the MDRI is effective at protecting the life and property of the public.
