New Mailing Standards for Domestic Mailing Services Products

SUPPLEMENTARY INFORMATION: Proposed prices will be available under Docket No. R2023–2 on the Postal Regulatory Commission's website at www.prc.gov.

The Postal Service's proposed rule includes changes to prices, mail classification updates, product simplification efforts, and minor revisions to the DMM.

Marketing Mail Flat-Shaped—New Pricing Structure

Currently, the pricing structure for USPS Marketing Mail flat-shaped pieces uses a two-tier pricing approach. For pieces weighing 4 oz or less, only a per-piece price is charged. For pieces weighing over 4 oz but less than 16 oz, both a per-piece and per-pound rate is charged.

The Postal Service is proposing to change the way USPS Marketing Mail flats are priced. For each presort level, all pieces regardless of their weight will pay a piece price which will differ only by the entry level, *i.e.*, Origin, DNDC, DSCF, and DDU. The pound price would be applicable only to the weight above 4 ounces. For example, if the piece weighs 6 ounces, the pound price will be charged only for the 2 ounces that are above 4 ounces.

Discount for USPS Marketing Mail Letter-Shaped Pieces on SCF Pallets

Currently, the Postal Service offers discounts for USPS Marketing Mail flat-shaped pieces on SCF pallets. This discount would now be extended to letter-shaped USPS Marketing Mail pieces on SCF Pallets. This proposed discount will be applicable to Automation and Nonautomation (AADC, 3-Digit and 5-Digit Presort) Letters, Carrier Route Letters, High Density Letters, High Density Plus Letter and Saturation Letters on SCF Pallets regardless of the entry (None, DNDC, and DSCF).

Registered Mail Service Fees

The Postal Service is revising the fee structure for Registered Mail® service. Currently, the fee structure includes the combined cost of handling and insurance, which incrementally increases in accordance with an item's declared value, up to \$50,000.00—the maximum available amount of insurance reimbursement. For items with declared value over \$50,000, there are incrementally increasing handling fees, although the maximum amount of insurance reimbursement remains capped at \$50,000. The Postal Service is revising the fee structure to eliminate the additional handling fees for items with declared value over \$50,000, and instead have a flat fee that will cover the cost of insurance (which remains capped at a maximum of \$50,000, regardless of the declared value) and handling on all items with declared values over \$50,000.00.

USPS Ground Advantage Insurance

Currently, the Postal Service does not include insurance coverage with USPS Ground Advantage—Retail and USPS

Ground Advantage—Commercial (formerly First-Class Package Service—Retail and First-Class Package Service—Commercial) pieces against loss, damage, or missing contents. Additionally, the Postal Service does not include insurance with USPS Ground Advantage Return service (formerly First-Class Package Return Service) pieces.

The Postal Service is proposing to include insurance, limited to a maximum liability of \$100.00, with USPS Ground Advantage—Retail and USPS Ground Advantage—Commercial pieces.

In addition, the Postal Service is proposing to include the \$100.00 of insurance with USPS Ground Advantage Return service pieces. This proposal to include the \$100.00 of insurance with USPS Ground Advantage Return service pieces, along with Priority Mail Return service which already has insurance included, will eliminate the senders' option to purchase insurance.

Elimination of Service Type Code Combinations

The Postal Service is proposing to eliminate certain, service type code (STC)/extra service code (ESC) combinations. The decision was based on those product and extra service code combinations with low use or low demand, and those that do not follow Postal Service compliance with Intelligent Mail package barcode rules. Mailers can speak with a USPS representative for details.

Marriage Mail 2 oz Incentive Price

Marriage Mail is a form of marketing mail in which marketing service companies combine advertisements from multiple businesses into a single mailpiece to reduce the cost of the mailing for individual customers.

The Postal Service is proposing to provide marriage mailers an incentive price on Saturation USPS Marketing Mail letters and flats including EDDM (not EDDM Retail) that weigh 2 ounces or less, if they meet certain requirements.

Among the requirements to be eligible to claim the incentive price are that qualifying Marriage Mail pieces must include at least 4 advertisers and must be mailed at minimum 10 times every 12 months (starting with the month of first claiming the incentive price).

Information on the requirements to claim the Marriage Mail Incentive price will be posted on PostalPro at postalpro.usps.com.

2024 Mailing Promotions

The Postal Service has been incenting mailers to integrate mobile technology and use innovative print techniques in commercial mail since 2012. These promotions have become an integral way for industry to try new things and innovate their mail campaigns. A 2024 Promotions Calendar is planned with opportunities for mailers to receive a postage discount by applying treatments or integrating technology in their mail campaigns.

These proposed revisions will provide consistency within postal products and add value for customers.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comments on the following proposed revisions to *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)*, incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes if our proposal is adopted.
