

will be conducted with LRP participants and alumni, 18 IDIs will be conducted with LRP nurse faculty participants and alumni, and 21 IDIs will be conducted with SP participants (both in school and completing their service obligation) and alumni. One-on-one IDIs with Nurse Corps participants and alumni will enrich the evaluation by eliciting data on the Nurse Corps experience that are more nuanced than what is feasible to collect through the survey alone. The 45-minute virtual IDIs will be conducted after the survey with a sample of current program participants and alumni. Recruitment approaches for the IDIs will include a survey question asking respondents if they would be willing to participate in an IDI as well as direct recruiting from the census of program participants and alumni via email. The IDIs will ask specifically about the process of and motivation for applying to the program, details about the Nurse Corps site experience, site-level resiliency strategies and whether they were successful, and experience working through the COVID-19 pandemic at Nurse Corps sites.

Need and Proposed Use of the Information: The information collected through the surveys and IDIs will fill gaps in the existing information available from other sources. Specific topics for data collection that are critical

for evaluating the Nurse Corps Programs are discussed below.

(1) *Impact of the Programs on longer-term decisions to remain in the nursing workforce at a Nurse Corps site or in another underserved area.*

Understanding the long-range decisions of participants is critical to understanding the success of the Nurse Corps Programs, as its goal is to affect longer-term change in the nursing workforce distribution.

(2) *Experience and satisfaction with program participation, from the application phase through the service obligation phase.* Participants and alumni are the only source of information about their experience and satisfaction with the program, which are important evaluation outcomes that will be used to inform future programming efforts.

(3) *Details of service provision and experience with COVID-19.* The COVID-19 pandemic impacted the Nurse Corps Programs and the nursing workforce in different ways. On one hand, enhanced funding for the programs resulting from the pandemic led to increases in the annual number of participants. On the other, the pandemic fundamentally reshaped the work environment for nurses, leading to increased stress, risk of illness, and changes in how care is delivered. The

survey will focus on the experiences of those serving before, during, and after the pandemic to understand how the pandemic shaped participants' decisions to remain in the nursing workforce and in critical shortage facilities.

Likely Respondents: Nurse Corps LRP clinical participants and alumni (from 2017 through 2023), LRP nurse faculty participants and alumni (from 2017 through 2023), SP participants and alumni (from 2017 through 2023).

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

Total Estimated Annualized Burden Hours:

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
In-depth Interviews (IDIs)					
LRP Clinical Nurses	18	1	18	0.75	13.50
LRP Nurse Faculty	18	1	18	0.75	13.50
SP Students	21	1	21	0.75	15.75
Total	57	57	42.75
Web-based Surveys with Telephone Nonresponse Follow-up					
Nurse Corps Loan Repayment Program—Clinical Nurse Participants and Alumni	5,082	1	5,082	0.42	2,134.44
Nurse Corps Loan Repayment Program—Nurse Faculty Participants and Alumni	804	1	804	0.42	337.68
Nurse Corps Scholarship Program—Participants and Alumni	1,416	1	1,416	0.42	594.72
Total	7,302	7,302	3,066.84

HRSA specifically requests comments on: (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques

or other forms of information technology to minimize the information collection burden.
