

- Mitigation measures will be implemented to minimize disturbance of marine mammals in the action area; and,

- The project will not result in significant changes to availability of subsistence resources.

Based on the description of the specified activity, the measures described to minimize adverse effects on the availability of marine mammals for subsistence purposes, and the proposed mitigation and monitoring measures, NMFS has preliminarily determined that there will not be an unmitigable adverse impact on subsistence uses from MOS's proposed activities.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species, in this case with the Alaska Regional Office.

NMFS is proposing to authorize take of the Central North Pacific stock of humpback whale and the Western US stock of Steller sea lion, which are listed or include individuals that are listed under the ESA.

The Permits and Conservation Division has requested initiation of section 7 consultation with the Alaska Region for the issuance of this IHA. NMFS will conclude the ESA consultation prior to reaching a determination regarding the proposed issuance of the authorization.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to issue an IHA to MOS for conducting construction in Skagway, Alaska provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed IHA can be found at: <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities>.

Request for Public Comments

We request comment on our analyses, the proposed authorization, and any other aspect of this notice of proposed

IHA for the proposed terminal redevelopment project. We also request comment on the potential renewal of this proposed IHA as described in the paragraph below. Please include with your comments any supporting data or literature citations to help inform decisions on the request for this IHA or a subsequent renewal IHA.

On a case-by-case basis, NMFS may issue a one-time, 1-year renewal IHA following notice to the public providing an additional 15 days for public comments when (1) up to another year of identical or nearly identical activities as described in the Description of Proposed Activity section of this notice is planned or (2) the activities as described in the Description of Proposed Activity section of this notice would not be completed by the time the IHA expires and a renewal would allow for completion of the activities beyond that described in the *Dates and Duration* section of this notice, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to the needed renewal IHA effective date (recognizing that the renewal IHA expiration date cannot extend beyond 1 year from expiration of the initial IHA).

- The request for renewal must include the following:

(1) An explanation that the activities to be conducted under the requested renewal IHA are identical to the activities analyzed under the initial IHA, are a subset of the activities, or include changes so minor (*e.g.*, reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take).

(2) A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized.

Upon review of the request for renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

Dated: April 13, 2023.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC926]

Marine Mammals; File No. 26623

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Erin Ashe, Ph.D., Oceans Initiative, 117 E Louisa St. #135, Seattle, Washington 98102, has applied in due form for a permit to conduct research on marine mammals.

DATES: Written, telefaxed, or email comments must be received on or before May 18, 2023.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 26623 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 26623 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Courtney Smith, Ph.D. or Sara Young, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant requests to take pinnipeds and cetaceans in the coastal and inland waters of Washington State during vessel and aerial (unmanned

aircraft system) based surveys for behavioral observations and monitoring, photo-identification, photography/video, prey sampling, fecal sampling, breath sampling, passive acoustic recording, and active acoustic playback/broadcasts (Targeted Acoustic Startle Technology in air and water; commercial pingers in-water). The species that may be targeted for some or all of the listed procedures include: Dall's (*Phocoenoides dalli*) and Harbor (*Phocoena phocoena*) porpoise; Dwarf sperm (*Kogia sima*); Baird's beaked whale (*Berardius bairdii*); Cuvier's beaked (*Ziphius cavirostris*); Gray (*Eschrichtius robustus*); Eastern North Pacific Stock only), Humpback (Mexico and Hawaii Distinct Population Segments [DPS]), Killer (*Orcinus orca*); Eastern North Pacific Offshore, West Coast Transient stocks, and Southern Resident DPS), Minke (*Balaenoptera acutorostrata*), and Short-finned pilot (*Globicephala macrorhynchus*) whales; Common short-beaked (*Delphinus delphis*); Northern right whale (*Lissodelphis peronii*), Pacific white-sided (*Lagenorhynchus obliquidens*); Risso's (*Grampus griseus*), and Striped (*Stenella coeruleoalba*) dolphins; California (*Zalophus californianus*) and Steller (*Eumetopias jubatus*); U.S. Eastern stock) sea lions; and Harbor (*Phoca vitulina*), Northern elephant (*Mirounga angustirostris*), and Northern fur (*Callorhinus ursinus*) seals. Up to 1,376 cetaceans and 1,380 pinnipeds may be taken annually (see Take Tables in application for details). The purpose of the research is to assess marine mammal conservation status, identify threats to survival and recovery, and implement effective mitigation measures to reduce anthropogenic stressors. Objectives will be met through: population status assessment using line transect and capture-recapture; evaluating consequences of sublethal stressors; assessment of marine mammal health; bycatch mitigation and other hazing techniques by testing the efficacy of low-amplitude noises that could reduce mortality in fishing gear and identify effective hazing techniques to mitigate marine mammal-fishery conflicts. The permit is requested for 5 years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the

application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: April 12, 2023.

Julia M. Harrison,

*Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.*

BILLING CODE 3510-22-P

CONSUMER FINANCIAL PROTECTION BUREAU

[Docket No. CFPB-2023-0026]

Agency Information Collection Activities: Comment Request

AGENCY: Consumer Financial Protection Bureau.

ACTION: Notice and request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Consumer Financial Protection Bureau (CFPB or Bureau) is publishing this notice seeking comment on a Generic Information Collection titled "Junk Fees Timing Study" prior to requesting the Office of Management and Budget's (OMB's) approval of this collection under the Generic Information Collection "Generic Information Collection Plan for Studies of Consumers Using Controlled Trials in Field and Economic Laboratory Settings" under OMB Control Number 3170-0048.

DATES: Written comments are encouraged and must be received on or before May 18, 2023 to be assured of consideration.

ADDRESSES: You may submit comments, identified by the title of the information collection, OMB Control Number (see below), and docket number (see above), by any of the following methods:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments.

- **Email:** PRA_Comments@cfpb.gov. Include Docket No. CFPB-2023-0026 in the subject line of the email.

- **Mail/Hand Delivery/Courier:** Comment Intake, Consumer Financial Protection Bureau (Attention: PRA Office), 1700 G Street NW, Washington, DC 20552. Because paper mail in the Washington, DC area and at the Bureau is subject to delay, commenters are encouraged to submit comments electronically.

Please note that comments submitted after the comment period will not be accepted. In general, all comments received will become public records,

including any personal information provided. Sensitive personal information, such as account numbers or Social Security numbers, should not be included.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Anthony May, PRA Officer, at (202-435-7278), or email: CFPB_PRA@cfpb.gov. If you require this document in an alternative electronic format, please contact CFPB_Accessibility@cfpb.gov. Please do not submit comments to these email boxes.

SUPPLEMENTARY INFORMATION:

Title of Collection: Junk Fees Timing Study.

OMB Control Number: 3170-0048.

Type of Review: Request for approval of a generic information collection under an existing Generic Information Collection Plan.

Affected Public: Individuals or households.

Estimated Number of Respondents: 5,000.

Estimated Total Annual Burden Hours: 3,750.

Abstract: The Bureau will investigate whether product information provided at the beginning of a product search leads to better choices than information that is revealed gradually during the search process and why. This will be a part of a series of online lab experiments testing differences in consumer choices across different information presentations.

Request for Comments: The Bureau is publishing this notice and soliciting comments on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be submitted to OMB as part of its review of this request. All comments will become a matter of public record.

Anthony May,

*Paperwork Reduction Act Officer, Consumer
Financial Protection Bureau.*
