

3. Board Briefing, Federal Credit Union Loan Interest Rate Ceiling.

RECESS: 12:15 p.m.

TIME AND DATE: 12:30 p.m., Thursday, April 20, 2023.

PLACE: Board Room, 7th Floor, Room 7B, 1775 Duke Street, Alexandria, VA 22314–3428.

STATUS: Closed.

MATTER TO BE CONSIDERED:

1. Administrative Enforcement Action. Closed pursuant to Exemptions (4), (5), (6), (7), (8), and (9).

FOR FURTHER INFORMATION CONTACT:

Melane Conyers-Ausbrooks, Secretary of the Board, Telephone: 703–518–6304.

Melane Conyers-Ausbrooks,

Secretary of the Board.

BILLING CODE 7535–01–P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection

Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following request for revision of the approved collection of research and development data in accordance with the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register** and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAmain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a

day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Grantee Reporting Requirements for Prediction of and Resilience against Extreme Events (PREEVENTS).

OMB Number: 3145–0244.

Expiration Date of Approval: April 30, 2023.

Type of Request: Intent to seek approval to renew an information collection.

Proposed Project: NSF and the Directorate for Geosciences (GEO) have long supported basic research in scientific and engineering disciplines necessary to understand natural hazards and extreme events. The Prediction of and Resilience against Extreme Events (PREEVENTS) program is one element of the NSF-wide Risk and Resilience activity, which has the overarching goal of improving predictability and risk assessment, and increasing resilience, in order to reduce the impact of extreme events on our life, society, and economy. PREEVENTS provides an additional mechanism to support research and related activities that will improve our understanding of the fundamental processes underlying natural hazards and extreme events in the geosciences.

PREEVENTS is intended to encourage new scientific directions in the domains of natural hazards and extreme events. PREEVENTS will consider proposals for conferences that will foster development of interdisciplinary or multidisciplinary communities required to address complex questions surrounding natural hazards and extreme events. Such proposals are called PREEVENTS Track 1 proposals.

In addition to standard NSF annual and final report requirements, PIs for all PREEVENTS Track 1 awards will be required to submit to NSF a public report that summarizes the conference activities, attendance, and outcomes; describes scientific and/or technical challenges that remain to be overcome in the areas discussed during the conference; and identifies specific next steps to advance knowledge in the areas of natural hazards and extreme events that were considered during the conference. These reports will be made publicly available via the NSF website, and are intended to foster nascent interdisciplinary or multidisciplinary communities and to enable growth of new scientific directions.

Use of the Information: NSF will use the information to understand and evaluate the outcomes of the conference, to foster growth of new scientific

communities, and to evaluate the progress of the PREEVENTS program.

Estimate of Burden: 40 hours per award for 5–10 conference awards for a total of 200–400 hours.

Respondents: Universities and Colleges; Non-profit, non-academic organizations; For-profit organizations; NSF-funded Federally Funded Research and Development Centers (FFRDCs).

Estimated Number of Responses per Report: One from each five to ten Track 1 awardees.

Dated: April 12, 2023.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection

Activities: Comment Request; Grantee Reporting Requirements for National User Facilities Managed by the NSF Division of Materials Research

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by June 20, 2023 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Grantee Reporting Requirements for National User Facilities managed by the NSF Division of Materials Research.

OMB Number: 3145–0234.
Expiration Date of Approval: August 31, 2023.

Type of Request: Revision to and extension of approval of an information collection.

Proposed Project

The NSF Division of Materials Research (DMR) supports a number of National User Facilities that provide specialized capabilities and instrumentation to the scientific community on a competitive proposal basis. In addition to the user program, these facilities support in-house research, development of new instrumentation or techniques, education, and knowledge transfer.

The facilities integrate research and education for students and post-docs involved in experiments, and support extensive K–12 outreach to foster an interest in Science Technology Engineering and Mathematics (STEM) and STEM careers. Facilities capitalize on diversity through participation in center activities and demonstrate leadership in the involvement of groups underrepresented in science and engineering.

National User Facilities will be required to submit annual reports on progress and plans, which will be used as a basis for performance review and determining the level of continued funding. User facilities will be required to develop a set of management and performance indicators for submission annually to NSF via the Research Performance Project Reporting (RPPR) module in *Research.gov*. These indicators are both quantitative and descriptive and may include, for example, lists of successful proposal and users, the characteristics of facility personnel and students; sources of financial support and in-kind support; expenditures by operational component; research activities; education activities; knowledge transfer activities; patents, licenses; publications; degrees granted to students supported through the facility or users of the facility; descriptions of significant advances and other outcomes of this investment. Such reporting requirements are included in the cooperative agreement which is binding between the academic institution and the NSF.

Each facility's annual report will address the following categories of activities: (1) research, (2) education and training, (3) knowledge transfer, (4) partnerships, (5) diversity, (6) management, and (7) budget issues.

For each of the categories the report will describe overall objectives and metrics for the reporting period,

challenges or problems the facility has encountered in making progress towards goals, anticipated problems in the following year, and specific outputs and outcomes.

Facilities are required to file a final report through the RPPR. Final reports contain similar information and metrics as annual reports, but are retrospective and focus on the period that was not addressed in previous annual reports.

Use of the Information: NSF will use the information to continue funding of the DMR National User Facilities, and to evaluate the progress of the program.

Estimate of Burden: 200 hours per facility for three National User Facilities for a total of 600 hours.

Respondents: Non-profit institutions.

Estimated Number of Responses per Report: One (1) from each of the DMR user facilities.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: April 12, 2023.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

705th Meeting of the Advisory Committee on Reactor Safeguards (ACRS)

In accordance with the purposes of sections 29 and 182b of the Atomic Energy Act (42 U.S.C. 2039, 2232(b)), the Advisory Committee on Reactor Safeguards (ACRS) will hold meetings on May 3–5, 2023. The Committee will be conducting meetings that will include some Members being physically present at the NRC while other Members participate remotely. Interested

members of the public are encouraged to participate remotely in any open sessions via MS Teams or via phone at 301–576–2978, passcode 856662254#. A more detailed agenda including the MSTeams link may be found at the ACRS public website at <https://www.nrc.gov/reading-rm/doc-collections/acrs/agenda/index.html>. If you would like the MSTeams link forwarded to you, please contact the Designated Federal Officer as follows: Quynh.Nguyen@nrc.gov, or Lawrence.Burkhart@nrc.gov.

Wednesday, May 3, 2023

8:30 a.m.–8:35 a.m.: Opening Remarks by the ACRS Chairman (Open)—The ACRS Chairman will make opening remarks regarding the conduct of the meeting.

8:35 a.m.–5:00 p.m.: Kairos (HERMES) Construction Permit Application Review Discussions/Commission Meeting Preparation/Report Preparation/Retreat Follow-up Items (Open/Closed)—The Committee will have presentations and discussions with representatives from Kairos and the NRC staff regarding the subject topic.

[Note: Pursuant to 5 U.S.C 552b(c)(4), a portion of this session may be closed in order to discuss and protect information designated as proprietary.]

Thursday, May 4, 2023

8:30 a.m.–10:00 a.m.: Kairos Topics Discussion/Commission Meeting Preparation/Report Preparation/Retreat Follow-up items (Open/Closed)—The Committee will have presentations and discussions with representatives from Kairos and the NRC staff regarding the subject topic. The Committee will hear discussion of follow-up items, and/or proceed to preparation of reports as determined by the Chairman and preparation of upcoming Commission meeting. [Note: Pursuant to 5 U.S.C 552b(c)(4), a portion of this session may be closed to discuss and protect information designated as proprietary.]

10:00 a.m.–1:15 p.m.: Code Investment Plan (RES) (Open)—The Committee will have presentation and discussion with representatives from the NRC staff regarding the subject topic.

1:15 p.m.–6:00 p.m.: X-Energy Design Overview/Commission Meeting Preparation/Kairos Topics (Open/Closed)—The Committee will have presentation and discussion with representatives from X-Energy and the NRC staff regarding the subject topic. The Committee will continue its discussion of Kairos topics and preparation of upcoming Commission meeting. [Note: Pursuant to 5 U.S.C 552b(c)(4), a portion of this session may
