Federal agencies with an opportunity to  
comment on new, proposed, revised,

information. This helps us assess the  
impact of our information collection  
requirements and minimize the public's  
reporting burden. It also helps the  
public understand our information  
collection requirements and provide the  
requested data in the desired format.

We are soliciting comments on the  
proposed ICR that is described below.  
We are especially interested in public  
comment addressing the following  
issues: (1) is the collection necessary to  
the proper functions of the NPS; (2) will  
this information be processed and used  
in a timely manner; (3) is the estimate  
of burden accurate; (4) how might the  
NPS enhance the quality, utility, and  
clarity of the information to be  
collected; and (5) how might the NPS  
minimize the burden of this collection  
on the respondents, including through  
the use of information technology.

Comments that you submit in  
response to this notice are a matter of  
public record. We will include or  
summarize each comment in our request  
to OMB to approve this ICR. Before  
including your address, phone number,  
email address, or other personal  
identifying information in your  
comment, you should be aware that  
your entire comment—including your  
personal identifying information—may  
be made publicly available at any time.  
While you can ask us in your comment  
to withhold your personal identifying  
information from public review, we  
cannot guarantee that we will be able to  
do so.

**Abstract:** Authorized by the Organic  
Act of 1916 (54 U.S.C. 100101), the NPS  
is charged with protecting cultural and  
natural resources for the enjoyment and  
education of current and future  
generations. The NPS Education  
Program Office administers education  
programs to fulfill the educational  
mission of the NPS. This new  
information collection request is for an  
online survey of elementary school  
educators in support of that mission.  
Results from this study will support the  
Education Program Office in its work to  
provide inspiring and informative  
educational programs to students across  
the country.

This study will include 3rd–5th grade  
educators who have or have not  
participated in NPS education  
programs. Collecting data from both  
groups will allow the NPS to  
understand program effectiveness, as  
well as identify barriers to participation  
and factors that may inspire future  
participation. This information  
collection will seek to understand

educators' attitudes toward NPS  
Education Programs, management  
questions regarding program  
participation, and considerations for  
investing in and improving future  
program offerings.
