Pure Magnesium From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2021-2022

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) continues to find that Tianjin Magnesium International Co., Ltd. (TMI) and Tianjin Magnesium Metal Co., Ltd. (TMM) (collectively, TMI/TMM) had no shipments of subject merchandise covered by the antidumping duty order on pure magnesium from the People's Republic of China (China) for the period of review (POR) May 1, 2021, through April 30, 2022.

DATES: Applicable April 21, 2023.

FOR FURTHER INFORMATION CONTACT: John Conniff, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-1009.

SUPPLEMENTARY INFORMATION:

Background

On February 3, 2023, Commerce published the *Preliminary Results* in the **Federal Register**.¹ No interested party submitted comments concerning the *Preliminary Results* or requested a hearing in this administrative review.

¹ See *Pure Magnesium from the People's Republic of China: Preliminary Results of Antidumping Administrative Review; 2021-2022*, 88 FR 7402 (February 3, 2023) (*Preliminary Results*).

Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order²

The product covered by the *Order* is pure magnesium from China, regardless of chemistry, form or size, unless expressly excluded from the scope of the *Order*. Pure magnesium is a metal or alloy containing by weight primarily the element magnesium and produced by decomposing raw materials into magnesium metal. Pure primary magnesium is used primarily as a chemical in the aluminum alloying, desulfurization, and chemical reduction industries. In addition, pure magnesium is used as an input in producing magnesium alloy. Pure magnesium encompasses products (including, but not limited to, butt ends, stubs, crowns and crystals) with the following primary magnesium contents:

(1) Products that contain at least 99.95% primary magnesium, by weight (generally referred to as "ultra pure" magnesium) Magnesium Alloy"³ and are thus outside the scope of the existing antidumping orders on magnesium from China (generally referred to as "alloy" magnesium).

(2) Products that contain less than 99.95%, but not less than 99.8%, primary magnesium, by weight (generally referred to as "pure" magnesium); and

(3) Products that contain 50% or greater, but less than 99.8% primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium (generally referred to as "off-specification pure" magnesium).

"Off-specification pure" magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8% by weight. It generally does not contain, individually or in combination, 1.5% or more, by weight, of the following alloying elements: Aluminum, manganese, zinc, silicon, thorium, zirconium and rare earths.

² See *Notice of Antidumping Duty Orders: Pure Magnesium from the People's Republic of China, the Russian Federation and Ukraine; Notice of Amended Final Determination of Sales at Less Than Fair Value: Antidumping Duty Investigation of Pure Magnesium from the Russian Federation*, 60 FR 25691 (May 12, 1995) (*Order*).

³ The meaning of this term is the same as that used by the American Society for Testing and Materials (ASTM) in its Annual Book for ASTM Standards: Volume 01.02 Aluminum and Magnesium Alloys.

Excluded from the scope of the *Order* are alloy primary magnesium (that meets specifications for alloy magnesium), primary magnesium anodes, granular primary magnesium (including turnings, chips and powder) having a maximum physical dimension (*i.e.*, length or diameter) of one inch or less, secondary magnesium (which has pure primary magnesium content of less than 50% by weight), and remelted magnesium whose pure primary magnesium content is less than 50% by weight.

Pure magnesium products covered by the *Order* are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 8104.11.00, 8104.19.00, 8104.20.00, 8104.30.00, 8104.90.00, 3824.90.11, 3824.90.19 and 9817.00.90. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

Final Determination of No Shipments

In the *Preliminary Results*, Commerce determined TMI/TMM had no shipments of subject merchandise to the United States during the POR.⁴ As noted in the *Preliminary Results*, we received no-shipment statements from TMI/TMM, and the statements were consistent with the information we received from U.S. Customs and Border Protection (CBP).⁵ Because Commerce did not receive any comments on its preliminary finding, Commerce continues to find that TMI/TMM did not have any shipments of subject merchandise during the POR.

Assessment Rates

Based on record evidence, we have determined that TMI/TMM had no shipments of subject merchandise during the POR, and, therefore, pursuant to Commerce's assessment practice, any suspended entries entered under their case number will be liquidated at the China-wide entity rate.⁶

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a
