Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the proposed action and all analyzed reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the proposed plan amendment or alternatives. Mitigation may include avoidance, minimization, rectification, reduction, elimination over time, and compensation, and may be considered at multiple scales, including the landscape scale.

The BLM will continue to consult with Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM Manual 1780, and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Tribal Nations and stakeholders that may be interested in or affected by the BLM's proposed action are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the EIS as a cooperating agency. The BLM intends to hold a series of government-to-government consultation meetings. The BLM will send invitations to potentially affected Tribal Nations prior to the meetings. The BLM will provide additional opportunities for government-to-government consultation during the NEPA process.

The BLM will also utilize and coordinate the NEPA process to help support compliance with applicable procedural requirements under Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.8(c). The identification of historic properties and the assessment of effects of the undertaking on these properties will be carried out in a manner consistent with the standards and criteria outlined in 36 CFR 800.4 through 800.5. BLM will consult on the effects of the undertaking on historic properties with the Nevada State Historic Preservation Office, Indian Tribes that might attach religious and cultural significance to affected historic properties, other consulting

parties, and the Advisory Council on Historic Preservation. BLM will develop, in consultation with identified consulting parties, alternatives and proposed measures that might avoid, minimize, or mitigate any adverse effects of the undertaking on historic properties and describe them in the Draft EIS. The agency official will provide the Draft EIS to the Nevada State Historic Preservation Office, Tribal Nations that might attach religious and cultural significance to affected historic properties, the Advisory Council on Historic Preservation, and other consulting parties in accordance with 36 CFR 800.8(c) and the BLM's established NEPA Procedures.
