

(2) The end of the applicable license term. In the construction notification, licensees must certify and demonstrate that they are providing such service over at least 75 percent of the population of the areas.

47 CFR 27.14(j). 47 CFR 27.14(j) provides that, in the event that a licensee's authority to operate in an area terminates automatically for failure to comply with the applicable construction requirements identified in 47 CFR 27.14(g), (h), or (i), the unserved area will become available for relicensing to third parties. A 700 MHz licensee holding an authorization granted pursuant to the unserved area licensing procedures set forth in 47 CFR 27.14(j) must file a construction notification with the Commission within 15 days after the one-year anniversary of initial license grant. In the construction notification, a licensee must certify and demonstrate that it is providing signal coverage and offering service over 100 percent of the geographic area of the new license area.

700 MHz Interoperability Order. Pursuant to the 700 MHz Interoperability Order, the interim construction deadline for Block A and Block B licensees was extended to December 13, 2016. The 700 MHz Interoperability Order waived the interim construction requirement for certain Block A licensees due to technical issues arising from their proximity to Television Channel 51 stations. Further, the interim construction deadline for Block E was extended to March 7, 2017, and the final Block E construction deadline was moved to March 7, 2021.

b. 700 MHz Interim Reporting Requirement—47 CFR 27.14(l). Pursuant to 47 CFR 27.14(l), 700 MHz licensees with authorizations in the spectrum blocks identified above (Blocks A, B, E, C, C1 and C2), excluding any licensee that obtained its license pursuant to the procedures set forth in 47 CFR 27.14(j), must file interim reports with the Commission that provide the Commission, at a minimum, with information concerning the status of their efforts to meet the performance requirements applicable to their authorizations in such spectrum blocks and the manner in which that spectrum is being utilized.

Required Information. Licensees must identify the date the license term commenced, and provide a description of the steps the licensee has taken toward meeting its construction obligations in a timely manner, including the technology or technologies and service(s) being provided, as well as the areas within

their license areas in which those services are available.

Deadlines. Pursuant to 47 CFR 27.14(l), licensees were required to file their first interim report with the Commission no later than June 12, 2011 and no sooner than 30 days prior to this date. Licensees that meet their interim construction benchmarks must file a second interim report with the Commission no later than June 12, 2016, and no sooner than 30 days prior to this date. Licensees that do not meet their interim construction benchmarks must file their second interim report no later than on June 12, 2015, and no sooner than 30 days prior to this date.

However, the 700 MHz Interoperability Order waived the second interim report requirement for Lower 700 MHz band A and B Block licensees subject to the extended interim construction benchmark deadline. The 700 MHz Interoperability Order did not waive the reporting requirement for Lower 700 MHz band A Block licensees subject to a waiver of the interim construction benchmark deadline because of Channel 51 interference protection requirements. That order also extended the deadline until March 7, 2019, for Lower 700 MHz band E Block licensees to file a second status report regarding the licensees' efforts to meet their performance requirements.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0346; FR ID 138253]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of

information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before June 30, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0346.

Title: Section 78.27, License Conditions.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; not-for-profit institutions.

Frequency of Response: Annual reporting requirement; on occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 Section 154(i) of the Communications Act of 1934, as amended.

Number of Respondents and Responses: 4 respondents; 4 responses.

Estimated Time per Response: 10 mins. (0.166 hrs.).

Total Annual Burden: 1 hour.

Total Annual Cost: None.

Needs and Uses: The information collection requirements contained in 47 CFR 78.27(b)(1) require the licensee of a Cable Television Relay Service (CARS)

station to notify the Commission in writing when the station commences operation. Such notification shall be submitted on or before the last day of the authorized one year construction period; otherwise, the station license shall be automatically forfeited. The information collection requirements contained in 47 CFR 78.27(b)(2) require CARS licensees needing additional time to complete construction of the station and commence operation shall request an extension of time 30 days before the expiration of the one year construction period. Exceptions to the 30-day advance filing requirement may be granted where unanticipated delays occur.

Federal Communications Commission.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.

Title: Section 90.175(g)(2), Amendment of Part 90 of the Commission's Rules.

Form Number: N/A.

Type of Review: New information collection.

Respondents: State, Local or Tribal Government.

Number of Respondents and Responses: 213 respondents, 213 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to retain or retain benefits. Statutory authority for this collection is contained in 47 U.S.C. 154(i), 161, 303(g), 303(r), 332(c)(7), and 1401-1473 of the Communications Act of 1934.

Total Annual Burden: 213 hours.

Total Annual Cost: \$234,300.

Needs and Uses: This collection will be submitted as a new collection after this 60-day comment period to the Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

Section 90.175(g)(2) adopted in the Commission's Report and Order FCC 23-3 requires public safety applicants seeking to license new or modify existing facilities in the 4.9 GHz band to obtain a frequency recommendation from the nationwide Band Manager before the application is filed with the Commission.

The purpose of requiring each public safety applicant to obtain a frequency recommendation from the nationwide Band Manager is to ensure that public safety entities seeking to license new or modify existing facilities in the 4.9 GHz band cause no interference to

incumbent licensees or previously filed applicants.

OMB Control Number: 3060-XXXX.

Title: Sections 90.1207(e)-(f), Amendment of Part 90 of the Commission's Rules.

Form Number: N/A.

Type of Review: New information collection.

Respondents: State, Local or Tribal Government.

Number of Respondents and Responses: 3,871 respondents, 3,871 responses.

Estimated Time per Response: 16-160 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection is contained in 47 U.S.C. 154(i), 161, 303(g), 303(r), 332(c)(7), and 1401-1473 of the Communications Act of 1934.

Total Annual Burden: 592,288 hours.

Total Annual Cost: \$14,882,400.

Needs and Uses: This collection will be submitted as a new collection after this 60-day comment period to the Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

Section 90.1207(e) adopted in the Commission's Report and Order FCC 23-3 requires public safety applicants seeking to license new or modify existing facilities in the 4.9 GHz band to submit granular technical data on their proposed operations into ULS. Section 90.1207(f), also adopted in the Commission's Report and Order FCC 23-3, requires incumbent public safety licensees to perform a one-time submission into ULS of the granular data specified in paragraph (e) for their existing operations and gives incumbent licensees at least a one-year period to complete this one-time collection.

The purpose of requiring incumbent public safety licensees and public safety applicants in the 4.9 GHz band to submit granular technical data into ULS is to enable the Band Manager at 4.9 GHz to use the granular technical data on public safety deployments to perform its frequency coordination duties and facilitate non-public safety access to the band.
