SUPPLEMENTARY INFORMATION:

OMB Control Number: 2120-0659.

Title: Noise Certification Standards for Subsonic Jet Airplanes and Subsonic Transport Category Large Airplanes.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The aircraft noise information collected are the results of noise certification tests that demonstrate compliance with 14 CFR part 36. The original information collection was implemented to show compliance in accordance with the Aircraft Noise Abatement Act of 1968; that statute is now part of the overall codification of the FAA's regulatory authority over aircraft noise in 49 U.S.C. 44715. For this renewal, the FAA proposes to maintain this PRA collection at 14 total noise certification projects per year. Each applicant's collected information is incorporated into a noise compliance report that is provided to and approved by the FAA. The noise compliance report is used by the FAA in making a finding that the airplane is in noise compliance with the regulations. These compliance reports are required only once when an applicant wants to certificate an aircraft type. Without this data collection, the FAA would be unable to make the required noise certification compliance finding.

Respondents: Aircraft manufacturer/ applicant seeking type certification.

Frequency: Estimated 15 total applicants per year.

Estimated Average Burden per Response: Estimated 200 hours per applicant for the compliance report.

Estimated Total Annual Burden: \$20,160 per applicant or cumulative total \$302,400 per year for 15 applicants.

Issued in Washington, DC, on May 2, 2023.

Sandy Liu,

Engineer, Office of Environment and Energy, Noise Division (AEE-100).

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2023-0030]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on March 24, 2023, the Belt Railway Company of Chicago, in conjunction with the labor unions that represent its schedule employees (SMART-TD, BLET, ATDA, TCU, BRC Division of TCU-IAM, BMWED, BRS, IBEW, SMART-M, ARASA, IAM, and NCFO) (collectively, Petitioners), petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers) and part 242 (Qualification and Certification of Conductors). FRA assigned the petition Docket Number FRA-2023-0030.

Specifically, Petitioners request relief required to participate in FRA's Confidential Close Call Reporting System (C³RS) Program. Petitioners seek to shield reporting employees and the railroad from mandatory punitive sanctions that would otherwise arise as provided in §§ 240.117(e)(1)-(4); 240.305(a)(1)-(4) and (a)(6); 240.307; 242.403(b), (c), (e)(1)-(4), (e)(6)-(11), (f)(1)-(2); and 242.407. The C³RS Program encourages certified operating crew members to report close calls and protects the employees and the railroad from discipline or sanctions arising from the incidents reported per the C³RS Implementing Memorandum of Understanding.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Communications received by July 7, 2023 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2023-0029]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on March 21, 2023, Indiana Northeastern Railroad Company, in partnership with Little River Railroad, Inc. (Petitioners), petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers). FRA assigned the petition Docket Number FRA-2023-0029.

Specifically, Petitioners request relief from § 240.201(d), which requires that only certified persons operate locomotives and trains. The relief would allow noncertified persons to pay a fee and operate a locomotive as part of a "throttle time" program. In support of its petition, Petitioners note that the relief would only apply to persons participating in the program, and that participants would be 18 years of age or older and under the direct supervision of a certified and qualified locomotive

engineer. Further, all movements would take place during daylight hours and at restricted speed.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. [Docket Number FRA-2023-0018]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this

document provides the public notice that on February 13, 2023, the Little River Railroad (LRR) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 (Railroad Freight Car Safety Standards) and 224 (Reflectorization of Rail Freight Rolling Stock). FRA assigned the petition Docket Number FRA-2023-0018.

Specifically, LRR requested a special approval pursuant to 49 CFR 215.203, *Restricted cars*, for a total of 5 cars, comprised of 2 stock cars (LRR 82990 and LRR 83022) and 3 cabooses (LRR 2630, LRR 2623, and LRR 1976) that are more than 50 years from the date of original construction. LRR also requests relief from § 224.101, *General requirements*, to operate the cars in tourist/excursion service. In support of its request, LRR states that the cars will not be interchanged and will be operated at restricted speed/yard limits.
