

Cash Deposit Requirements

In accordance with section 751(a)(1) of the Act, we also intend to instruct CBP to collect cash deposits of estimated countervailing duties in the amounts shown above for the above-listed companies with regard to shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of these final results of review. For all non-reviewed firms, CBP will continue to collect cash deposits of estimated countervailing duties at the all-others rate or the most recent company-specific rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

The final results are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4) and 19 CFR 351.221(b)(5).

Dated: May 22, 2023.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

Appendix I

List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Order
- IV. Rescission of Administrative Review, in Part
- V. Non-Selected Rate
- VI. Subsidies Valuation Information
- VII. Analysis of Programs
- VIII. Analysis of Comments
 - Comment 1: Whether Commerce Should Use Kaptan's Land Benchmark, Not the Petitioner's Land Benchmark
 - Comment 2: Whether Commerce Should Revise its Finding That General BITT Exemptions Are Not Countervailable
 - Comment 3: Whether Commerce Should Include Geri Donusum's Benefits and Total POR Sales in the Benefit Calculation for BITT Exemptions

- Comment 4: Whether Commerce Should Rely on Respondents' Revised and Adjusted Sales Data
- Comment 5: Whether Commerce Should Tie Benefits Received Under the Assistance To Offset Costs Related to Antidumping Duty (AD)/CVD Investigations Program to Export Sales of Subject Merchandise

IX. Recommendation

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC935]

Pacific Island Fisheries; Marine Conservation Plan for Pacific Insular Areas other Than American Samoa, Guam, and the Northern Mariana Islands; Western Pacific Sustainable Fisheries Fund

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of agency decision.

SUMMARY: NMFS announces approval of a Marine Conservation Plan (MCP) for Pacific Insular Areas other than American Samoa, Guam, and the Northern Mariana Islands.

DATES: This agency decision is effective from August 4, 2023, through August 3, 2026.

ADDRESSES: You may obtain a copy of the MCP, identified by NOAA-NMFS-2023-0056, from the Federal e-

Rulemaking Portal, <https://www.regulations.gov/docket/NOAA-NMFS-2023-0056>, or from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, 808-522-8220, <https://www.wpcouncil.org>.

FOR FURTHER INFORMATION CONTACT: Keith Kamikawa, Sustainable Fisheries, NMFS Pacific Islands Regional Office, 808-725-5177.

SUPPLEMENTARY INFORMATION: Section 204(e) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the Secretary of State, with the concurrence of the Secretary of Commerce (Secretary), and in consultation with the Council, to negotiate and enter into a Pacific Insular Area fishery agreement (PIAFA). A PIAFA would allow foreign fishing within the U.S. Exclusive Economic Zone (EEZ) adjacent to a Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands, that is, in the EEZ around the Pacific Remote Island Areas (PRIA). The PRIA are Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Palmyra Atoll, and Wake Island. Before entering into a PIAFA for the PRIA, the Council must develop and submit to the Secretary a 3-year MCP that details the uses for funds collected by the Secretary under the PIAFA. NMFS is the designee of the Secretary for MCP review and approval.

The Magnuson-Stevens Act requires payments received under a PIAFA, and any funds or contributions received in support of conservation and management objectives for the MCP, to be deposited into the Western Pacific Sustainable Fisheries Fund (Fund) for use by the Council. Additionally, in the case of violations by foreign fishing vessels in the EEZ around the PRIA, amounts received by the Secretary attributable to fines and penalties imposed under the Magnuson-Stevens Act, including sums collected from the forfeiture and disposition or sale of property seized subject to its authority, are deposited into the Fund for use by the Council, after direct costs of the enforcement action are subtracted. Section 204(e)(7)(C) of the Magnuson-Stevens Act also authorizes the Council to use the Fund to meet conservation and management objectives in the State of Hawaii, if funds remain available.

An MCP must be consistent with the Council's fishery ecosystem plans (FEPs), must identify conservation and management objectives (including criteria for determining when such objectives have been met), and must

prioritize planned marine conservation projects. Although no foreign fishing in the PRIA is being considered at this time, the Council reviewed and approved the draft MCP at its March 2023 meeting. On April 5, 2023, the Council’s Executive Director submitted the MCP to NMFS for review and approval.

The MCP contains the following five conservation and management objectives that are consistent with the FEP for the PRIA and the FEP for Pelagic Fisheries of the Western Pacific:

1. Support quality research and monitoring to obtain the most complete scientific information available to assess and manage fisheries within an ecosystem approach;
2. Conduct education and outreach to foster good stewardship principles and broad and direct public participation in the Council’s decision making process;
3. Promote regional cooperation to manage domestic and international fisheries;
4. Encourage development of technologies and methods to achieve the most effective level of monitoring, control and surveillance (MCS) and to ensure safety at sea; and
5. Western Pacific Community Development Program and Western Pacific Community Demonstration Projects Program.

In addition, the MCP contains seven conservation and management objectives that are consistent with the FEP for the Hawaii Archipelago:

1. Support quality research and monitoring to obtain the most complete scientific information available to assess and manage fisheries within an ecosystem approach;
2. Promote an ecosystem approach to fisheries management including reducing bycatch in fisheries and minimizing impacts on marine habitat and impacts on protected species and addressing climate change adaptation and mitigation;
3. Conduct education and outreach to foster good stewardship principles and broad and direct public participation in the Council’s decision making process;

4. Recognize the importance of island cultures and traditional fishing practices in managing fishery resources and foster opportunities for participation;

5. Promote responsible domestic fisheries development to provide long term economic growth and stability by reducing foreign imports and increasing local seafood production;

6. Promote regional cooperation and capacity building to manage domestic and international fisheries; and

7. Encourage development of technologies and methods to achieve the most effective level of monitoring, control and surveillance and to ensure safety at sea.

Please refer to the MCP for projects and activities designed to meet each objective, the evaluative criteria, and priority rankings.

This notice announces that NMFS has reviewed the MCP and determined that it satisfies the requirements of the Magnuson-Stevens Act. Accordingly, we have approved the MCP for the 3-year period from August 4, 2023, through August 3, 2026. This MCP supersedes the one approved previously for August 4, 2020, through August 3, 2023 (85 FR 65389, October 15, 2020).

Dated: May 22, 2023.

Ngagne Jafnar Gueye,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Atlantic Coastal Fisheries Cooperative Management Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an exempted fishing permit renewal application from the Massachusetts Division of Marine Fisheries contains all of the required information and warrants further consideration. The exempted fishing permit would allow federally permitted fishing vessels to fish outside fishery regulations in support of exempted fishing activities proposed by the applicant. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act and the Atlantic Coastal Fisheries Cooperative Management Act require publication of this notice to provide interested parties the opportunity to comment on applications for proposed exempted fishing permits.

DATES: Comments must be received on or before June 12, 2023.

ADDRESSES: You may submit written comments by any of the following methods:

- *Email: NMFS.GAR.EFP@noaa.gov.* Include in the subject line “Comments on MA DMF Ventless Trap EFP.” If you cannot submit a comment through this method, please contact Allison Murphy at (978) 281–9122, or email at *allison.murphy@noaa.gov.*

FOR FURTHER INFORMATION CONTACT: Allison Murphy, Fishery Policy Analyst, 978–281–9122, *allison.murphy@noaa.gov.*

SUPPLEMENTARY INFORMATION: The Massachusetts Division of Marine Fisheries (MA DMF) submitted a complete application for an exempted fishing permit (EFP) to conduct commercial fishing activities that the regulations would otherwise restrict. This EFP would exempt the participating vessels from the following Federal regulations:

TABLE 1—REQUESTED EXEMPTIONS

CFR Citation	Regulation	Need for exemption
50 Part 697.21(c)(1) and (2)	Gear specification requirements for Lobster Management Area 1 for Area 2.	To allow for the use of traps without escape vents.
§ 697.19(a) and (b)	Trap limit requirements for Area 1 and 2.	To allow for trap limits to be exceeded.
§ 697.19(i)	Trap tag requirements	To allow for alternatively-tagged traps.
§§ 697.20(a)(2) 697.20(b)(2), 697.20(a)(3), and 697.20(b)(3).	Minimum and maximum carapace length requirements for Areas 1 and 2.	To allow sub-legal and over-sized lobsters to be landed for research purposes.
§ 697.20(g)(1) and (3)	V-notch possession requirement for Areas 1 and 2.	To allow landing of female lobsters for research purposes.
