

## II. Methods of Collection

NASA will collect this information by electronic means when possible, as well as by mail, fax, telephone, technical discussions, and in-person interviews.

## III. Data

*Title:* Improving Customer Experience (OMB Circular A-11, Section 280 Implementation).

*OMB Number:* 2700-0181.

*Type of review:* Extension.

*Affected Public:* Collections will be targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future. For the purposes of this request, "customers" are individuals, businesses, and organizations that interact with a Federal Government agency or program, either directly or via a Federal contractor. This could include individuals or households; businesses or other for-profit organizations; not-for-profit institutions; State, local or Tribal governments; Federal Government; and universities.

*Estimated Number of Respondents:* 2,001,550.

*Estimated Time per Response:* Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire or survey may be 3 minutes or up to 2 hours to participate in an interview.

*Estimated Total Annual Burden Hours:* 101,125.

*Estimated Total Annual Cost to Public:* \$0.

## IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

#### I. Abstract

A Federal grant is an award of financial assistance from a Federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. The NASA Procurement Office supports NASA research, science, and education communities through the award of research/education/and training grants in the science, technology, engineering, and math (STEM) fields. NASA has a continuing commitment to identify and address inequities associated with its grant review and awards processes. To support that commitment, NASA implemented a process to collect demographic data from grant applicants for the purpose of analyzing demographic differences associated with its award processes. Information collected includes the name, gender, race, ethnicity, disability status,

citizenship status, education, and career data of the respondents. Submission of the information is voluntary and is not a precondition of award. However, if the information is not submitted, it will undermine the usefulness of information received from other respondents.
