1. Missing and Discrepant Wage Reports Letter and Questionnaire—26

CFR 31.6051-2—0960-0432. Each year employers report the wage amounts they paid their employees to the Internal Revenue Service (IRS) for tax purposes, and separately to SSA for retirement and disability coverage purposes. Employers should report the same figures to SSA and the IRS; however, each year some of the employer wage reports SSA receives show wage amounts lower than those employers report to the IRS. SSA uses Forms SSA-L93-SM, SSA-L94-SM, SSA-95-SM, and SSA-97-SM to request revised amounts to ensure employees receive full credit for their wages. SSA is also creating the online IRS/SSA Reconciliation portal which is a streamlined version of the SSA-95-SM and the SSA-97-SM. The IRS/SSA Reconciliation portal will guide employers to the appropriate solutions and will link the users to online tools to correct issues. The respondents are employers who reported lower wage amounts to SSA than they reported to the IRS.

Type of Request: Revision of an OMB-approved information collection.

2. Authorization for the Social Security Administration to Obtain Wage and Employment Information from Payroll Data Providers—0960-0807. Section 824 of the Bipartisan Budget Act (BBA) of 2015, Public Law 114-74, authorizes the Social Security Administration (SSA) to enter into information exchanges with payroll data providers for the purposes of improving program administration and preventing improper payments in the Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) programs. SSA uses Form SSA-8240, "Authorization for the Social Security Administration to Obtain Wage and Employment Information from Payroll Data Providers," to secure the authorization needed from the relevant members of the public to obtain their wage and employment information from payroll data providers. Ultimately, SSA

uses this wage and employment information to help determine program eligibility and payment amounts.

The public can complete Form SSA-8240 using the following modalities: a paper form; the internet; and an in-office or telephone interview, during which an SSA employee documents the wage and employment information authorization information on one of SSA's internal systems (the Modernized Claims System (MCS); the SSI Claims System; eWork; or iMain). The individual's authorization remains effective until one of the following four events occurs:

- SSA makes a final adverse decision on the application for benefits, and the applicant has filed no other claims or appeals under the Title for which SSA obtained the authorization;
- the individual's eligibility for payments ends, and the individual has

not filed other claims or appeals under the Title for which SSA obtained the authorization;

- the individual revokes the authorization verbally or in writing; or
- the deeming relationship ends (for SSI purposes only).

SSA requests authorization on an as-needed basis as part of the following processes: (a) SSDI and SSI initial claims; (b) SSI redeterminations; and (c) SSDI Work Continuing Disability Reviews. The respondents are individuals who file for, or are currently receiving, SSDI or SSI payments, and any person whose income and resources SSA counts when determining an individual's SSI eligibility or payment amount.

Type of Request: Revision of an OMB approved information collection.

3. *Notice to Electronic Information Exchange Partners to Provide Contractor List—0960-0820.* The Federal standards of the Privacy Act of 1974; E-Government act of 2002; and the National Institute of Standard Special Publications 800-53-4, require SSA to maintain oversight of the information it provides to Electronic Information Exchange Partners (EIEPs). EIEPs obtain SSA data for the administration of federally funded and state-administered programs. SSA has a responsibility to monitor and protect the personally identifiable information SSA shares with other Federal and State agencies, and private organizations through the Computer Matching and Privacy Protection Act, and the Information

Exchange Agreements (IEA). Under the terms of the State Transmission Component IEA, and agency IEA, EIEPs agree to comply with Electronic Information Exchange security requirements and procedures for State and local Agencies exchanging electronic information with SSA. SSA's Technical Systems Security Requirements document provides all agencies using SSA data ensure SSA's information is not processed; maintained; transmitted; or stored in; or by means of data communications channel; electronic devices; computers; or computer networks located in geographic or virtual areas not subject to U.S. law. SSA conducts tri-annual compliance reviews of all State and

local agencies, and Tribes with whom we have an IEA, to verify appropriate security safeguards remain in place to protect the confidentiality of information SSA supplies. SSA requires any organization with an electronic data exchange agreement, to provide the SSA Regional Office contact a current list of contractors, or agents who have access to SSA data upon request. SSA uses Form SSA-731, Notice to Electronic Information Exchange Partners to Provide Contractor List to collect this information. The respondents are Federal agencies, as well as State, local, or tribal agencies who exchange electronic information with SSA.

Type of Request: Revision to an OMB-approved information collection.

Evidence From Excluded Medical Sources of Evidence—20 CFR 404.1503b and 416.903b—0960-0803. Section 812 of the Bipartisan Budget Act of 2015 (BBA), "Exclusion of certain medical sources of evidence," mandates that SSA exclude evidence in disability decisions from certain medical sources. BBA Section 812 amended section

223(d)(5) of the Social Security Act (Act) by adding a subsection "C." Section 223(d)(5)(C)(i) of the Act, as amended, requires SSA to exclude evidence (except for good cause) from medical sources: (1) convicted of a felony under sections 208 or 1632 of the Act; (2) excluded from participating in any Federal health care program under section 1128 of the Act; or (3) imposed with a civil monetary penalty (CMP), assessment, or both, for submitting false evidence, under section 1129 of the Act. We also implemented section 223(d)(5)(C), as amended, through regulations at 20 CFR 404.1503b and 416.903b of the Code of Federal Regulations. These regulations require excluded medical sources to self-report their excluded status, in writing, each

time they submit evidence related to a claim for benefits under Titles II or XVI of the Act. Excluded medical sources' duty to self-report their excluded status applies to evidence they submit to SSA directly, or through a representative, claimant, or other individual or entity. As needed, SSA informs the medical sources we suspect should be excluded of these requirements through a Fact Sheet we send to them via mail, or which they can find on our website where we list the regulatory requirements under BBA section 812. In addition, along with the Fact Sheet and website, we provide sample statements as templates which the affected medical sources can use to create their own written statements as required under our regulations. The respondents for

this collection are medical sources that: (1) meet one of the exclusionary categories set forth in section 223(d)(5)(C)(i) of the Act, as amended;

(2) furnish evidence related to a claim for benefits under Titles II or XVI of the Act; and (3) had failed to self-identify as

an excluded source of medical evidence as required in Section 223(d)(5)(C)(i).

Type of Request: Revision of an OMB-approved information collection.

BILLING CODE 4191-02-P

DEPARTMENT OF STATE

[Public Notice: 12033]

International Traffic in Arms Regulations: Reissuance and Update of Open General Licenses 1 and 2

ACTION: Publication of updated general licenses.

SUMMARY: The Department of State, Directorate of Defense Trade Controls is publishing two updated open general licenses, permitting certain reexports and retransfers as provided therein, in the **Federal Register**: Open General License No. 1 and Open General License No. 2, each of which was previously issued on DDTC's website.

FOR FURTHER INFORMATION CONTACT: Dilan Wickrema, Office of Defense Trade Controls Policy, U.S. Department of State, telephone (202) 663-1282, or email *DDTCCustomerService@state.gov*. ATTN: Open General Licenses 1 and 2.

SUPPLEMENTARY INFORMATION: On July 13, 2022, pursuant to the authority of section 38(a) of the Arms Export Control Act (22 U.S.C. 2778(a)), as delegated to the Secretary of State by E.O. 13637, 78 FR 16129, and as further delegated by the Secretary of State, the Deputy Assistant Secretary of State for Defense Trade Controls issued two open general licenses as part of a pilot program pursuant to the International Traffic in Arms Regulations (ITAR), 22 CFR parts 120-130, § 120.22(b). These open general licenses were originally published with a validity date of one year, effective August 1, 2022, through July 31, 2023.

The Department of State, Directorate of Defense Trade Controls (DDTC) is

now updating both open general licenses to extend the validity period and to update citations for ITAR sections moved by rulemaking subsequent to the issuance of the open general licenses on July 13, 2022. Extending the validity period of the open general licenses by three years is necessary in order to allow DDTC to collect sufficient data to consider the usefulness of the Open General License pilot program and to provide industry with sufficient comfort to be able to rely on the open general licenses without fear that they will expire more quickly than a traditional license.

DDTC is also making certain non-substantive edits to both open general licenses to clarify that multiple defense articles need not be reexported or retransferred simultaneously and the open general licenses can be used to reexport or retransfer a single defense article.

Both updated Open General License No. 1 and Open General License No. 2 have been published on DDTC's website and are now being published in the **Federal Register**. The text of Open General License No. 1 and Open General License No. 2 are provided below.
