SUPPLEMENTARY INFORMATION:

Title of Collection: Grantee Reporting Requirements for the NSF Accelerating Research through International Network-to-Network Collaboration (AccelNet) Program.

OMB Control No.: 3145-New.

Expiration Date of Approval: Not applicable.

Abstract: We are proposing a modified annual/final report template specific to the Accelerating Research through International Network-to-Network Collaborations program (AccelNet, NSF 21-511). Briefly, the program funds planning and implementation awards to investigators forming international networks of networks that will work collaboratively to create a research agenda that will advance science in a way not possible with a concerted international cooperative effort. More information on the current solicitation can be found on the program website: <https://new.nsf.gov/funding/opportunities/accelerating-research-through-international>. While NSF requires awardees to submit annual reports each year of the award and a final report at the end of the award period, the template is focused on research outcomes at the national scale whereas our program is focused on networking activities and workforce development at the international scale. The NSF standard report template does not include prompts that are meaningful to the scope of work awarded and does not provide program directors useful information about achievements and international activities.

Respondents: Awardees.

Estimated Number of Annual Respondents: 70.

Burden on the Public: 24 hours or 3 workdays per award.

Dated: June 2, 2023.

Reports Clearance Officer, National Science Foundation.
