On June 5, 2023, the Department of

Judgment with the United States District

York in the lawsuit entitled *United
States of America v. City of New York*,

The United States filed this lawsuit
under sections 106(a) and 107(a) of the
Comprehensive Environmental

9607(a) in connection with the Wolff-
Alport Chemical Company Superfund
Site (the "Site") in Ridgewood, Queens

injunctive relief to remediate
radioactive materials on New York City-

Chemical Company's operations
resulted in the release of residues
containing radioactive materials,
including thorium and uranium along
with their decay products, such as
radium. On September 26, 2017, EPA
selected a remedy for the Site.

The Consent Judgment requires the
City of New York to pay the United
States approximately \$1.6 million for
past costs incurred by the U.S.
Environmental Protection Agency
related to addressing conditions at the
New York City-owned property. The
Consent Judgment also requires the City
of New York to fund and perform
remedial work on New York City-owned
property, including the removal of soil
and sediments exhibiting levels
exceeding the remediation goals in the
impacted sewers and beneath the
roadway and sidewalks.
