## DEPARTMENT OF JUSTICE

### Notice of Lodging of Proposed Consent Judgment Under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA")

On June 5, 2023, the Department of  
Justice lodged a proposed Consent  
Judgment with the United States District  
Court for the Eastern District of New  
York in the lawsuit entitled *United  
States of America v. City of New York*,  
Civil Action No. 1:23-CV-4129.

The United States filed this lawsuit  
under sections 106(a) and 107(a) of the  
Comprehensive Environmental  
Response, Compensation, and Liability  
Act ("CERCLA"), 42 U.S.C. 9606(a) and  
9607(a) in connection with the Wolff-  
Alport Chemical Company Superfund  
Site (the "Site") in Ridgewood, Queens  
County, New York. The complaint seeks  
injunctive relief to remediate  
radioactive materials on New York City-  
owned property located near the former  
Wolff-Alport Chemical Company facility  
and cost recovery. The Wolff-Alport  
Chemical Company's operations  
resulted in the release of residues  
containing radioactive materials,  
including thorium and uranium along  
with their decay products, such as  
radium. On September 26, 2017, EPA  
selected a remedy for the Site.

The Consent Judgment requires the  
City of New York to pay the United  
States approximately \$1.6 million for  
past costs incurred by the U.S.  
Environmental Protection Agency  
related to addressing conditions at the  
New York City-owned property. The  
Consent Judgment also requires the City  
of New York to fund and perform  
remedial work on New York City-owned  
property, including the removal of soil  
and sediments exhibiting levels  
exceeding the remediation goals in the  
impacted sewers and beneath the  
roadway and sidewalks.

The publication of this notice opens

proposed Consent Judgment. Comments

**SUPPLEMENTARY INFORMATION:**

#### **I. Background**

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The Standard specifies several paperwork requirements. The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of each of these requirements is to prevent workers from using unsafe cranes and ropes, thereby reducing their risk of death or serious injury caused by a crane or rope failure during material handling.
