2279), to ensure that socially disadvantaged farmers have equal access to USDA programs. The Secretary selected a diverse group of members representing a broad spectrum of persons to recommend solutions to the challenges of minority farmers and ranchers. The members also advise the Secretary on implementation of section 2501 of the Food, Agriculture, Conservation, and Trade Act of 1990 (the 2501 Program); maximizing the participation of minority farmers and ranchers in USDA programs; and civil rights activities within the Department relative to participants in its programs.

Agenda: Following on from the public meeting held in Tucson, AZ, the ACMF will review and revisit those agency documents, accompanying transcripts, subsequent research, and public comments, on USDA programs, services, and policies. During the upcoming meeting, the ACMF will focus on overarching topics distilled from prior presentations, updated research, and planning discussions, to consider and build final recommendations in the following order: Farm Service Agency (county committees; heirs' property); Rural Development (section 504 Dilapidated Housing; Health Care Infrastructure); Agricultural Marketing Services (community-based support; funding for food and other services; outreach and dissemination of information; specific requests of AMS subject matter experts); United States Department of Agriculture around these topics relevant for all agencies: Outreach and Communications—Build and Expand—*Better and Smarter* to effectively reach and engage more people in hard-to-reach places and situations; eliminate systemic and transactional barriers (particularly those that are unique to 1890s); and manage through impediments to build or rebuild rural infrastructure (*e.g.*, hospitals, healthcare centers, power grids) and encouraging youth engagement in agriculture. And finally, the ACMF will consider recommendations for alternative means by which the USDA may more equitably manage its internal processes, incorporate efficiencies to make those processes more user-friendly for new minority farming or ranching businesses, and deliver enhanced support for those farmers and ranchers with existing operations in minority farming communities.

Abstract: The Rural Rental Housing program provides adequate, affordable, decent, safe, and sanitary rental units for very low-, low-, and moderate-income households in rural areas. The programs covered by this part are authorized by title V of the Housing Act of 1949 and are: (1) Section 515 Rural Rental Housing, which includes congregate housing, group homes, and Rural Cooperative Housing. The section 515 direct loan program provides financing to support the development of rental units in rural areas that need housing affordable to very low-, low-, and moderate-income households, and where this housing is unlikely to be provided through other means. (2) Sections 514 and 516 Farm Labor Housing loans and grants. Section 514/516 direct loan and grant programs provide funds to support the development of adequate, affordable housing for farm workers that is unlikely to be provided through other means. (3) Section 521 Rental Assistance. A project-based tenant rent subsidy which may be provided to Rural Rental Housing and Farm Labor Housing facilities.

The Rural Housing Service is revising this information collection to include a new form. The new form titled “Replacement Reserve Intercreditor Agreement” (ICA) is a supplement to the existing section 515 Subordination Agreement. The ICA form will be used between the section 515 RRH Borrower/Owner and the section 538 Lender to establish control and guidance on how the Reserve Account will be handled in a joint transaction. The ICA will add an

additional 24 responses and 4 hours to the collection’s total burden.

Information is completed by developers and potential borrowers seeking approval of rural rental housing loans with the assistance of professionals such as attorneys, architects, and contractors and the operation and management of the MFH properties in an affordable decent, safe and sanitary manner. The forms and information provide the basis for making determinations of eligibility and the need and feasibility of the proposed housing. The information provides the basis for determining that rents charged are appropriate, the housing is well-maintained, and proper priority is given to those tenants eligible for occupancy. Information is collected to assure compliance with the terms and conditions of loan, grant and/or subsidy agreements.

(c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Copies of this information collection can be obtained from Kimble Brown, Rural Development Innovation Center—Regulations Management Division, at (202) 720–6780. Email: Kimble.Brown@usda.gov.
