

BOEM will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulfur. BOEM will also use the information to ensure orderly resource development; to protect the human, marine, and coastal environments; and to conduct the requisite technical and environmental evaluations that inform BOEM's decision to approve, disapprove, or require modification of the proposed activities.

OMB Control Number: 1010–0081.

Form Number: None.

Type of Review: Extension of a currently approved information collection.

Respondents/Affected Public:

Potential respondents are OCS lessees.

Total Estimated Number of Annual Responses: 20 responses.

Total Estimated Number of Annual Burden Hours: 212 hours.

Respondent's Obligation: Mandatory.

Frequency of Collection: Monthly, quarterly, or on occasion.

Total Estimated Annual Non-Hour Burden Cost: None.

We expect the burden estimate for the renewal will be 212 hours. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

A **Federal Register** notice with a 60-day public comment period on this proposed ICR was published on March 3, 2023 (88 FR 13464). BOEM received one public comment that opposed oil drilling on the OCS. Oil drilling is outside the scope of this ICR. No change in the burden was required.

BOEM is again soliciting comments on the proposed ICR. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record and will be available for public review on www.reginfo.gov. You should be aware that your entire comment—including your address, phone number,

email address, or other personally identifiable information included in your comment—may be made publicly available. Even if BOEM withholds your information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA). If your comment is requested under FOIA, your information will only be withheld if BOEM determines that a FOIA exemption to disclosure applies. BOEM will make such a determination in accordance with the Department of the Interior's (DOI's) FOIA regulations and applicable law.

In order for BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequence of the disclosure of information, such as embarrassment, injury, or other harm.

BOEM protects proprietary information in accordance with FOIA (5 U.S.C. 552) and DOI's implementing regulations (43 CFR part 2).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.
