Type of Request: Revision of currently approved collection.

Description of the need for the information and proposed use: This collection of information consists of the primary sales contract and addenda that support the HUD Real Estate Owned (REO) program. The forms in this collection are used as part of the collection effort. The collection also supports the requirements of the Lead Disclosure Rule relative to the disclosure of known lead-based paint and lead-based paint hazards in the sale of properties built before 1978. With each form, the Public Burden Statement is updated. A revision was made to Model Document, Exclusive Listing Period Purchase Addendum for Governmental Entities and HUD-Approved Nonprofits to form HUD–9548 Sales Contract, eliminating 12 months occupy requirement. And revisions were made to Form HUD–9548, Sales Contract Property Disposition Program, to clarify language and where the paper/manual information collection process is replaced with electronic and digital signature processes.

On May 17, 2022, we published in the **Federal Register** (87 FR 29872) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on July 18, 2022. In a continued effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests,

the Service also published the **Federal Register** notice on [Regulations.gov](https://www.regulations.gov) (Docket No. FWS-HQ-MB-2022-0056) to provide the public with an additional method to submit comments (in addition to the typical Info_Coll@fws.gov email and U.S. mail submission methods). We received the following comments in response to that notice:

Comment 1: Electronic comment received May 17, 2022, via [Regulations.gov](https://www.regulations.gov) (FWS-HQ-MB-2022-0056-0002) from Jean Publiee.

Agency Response to Comment 1: The commenter did not address the information collection requirements. No response is required.

Comment 2: Anonymous electronic comment received July 18, 2022, via [Regulations.gov](https://www.regulations.gov) (FWS-HQ-MB-2022-0056-0003).

Agency Response to Comment 2: The commenter did not address the information collection requirements. No response is required.

Comment 3: Electronic comment received July 18, 2022 via [Regulations.gov](https://www.regulations.gov) (FWS-HQ-MB-2022-0056-0004) from Laura Bies, on behalf of the Ornithological Council. The commenter explained that their organization works with many individuals that must secure Migratory Bird Treaty Act (MBTA) permits from the U.S. Fish and Wildlife Service. Given this, ensuring that the process of applying for, renewing, and amending MBTA permits is efficient and predictable is of the utmost concern to the commenter. They commented about slow response times on permit processing and helpdesk inquiries and encouraged the agency to continue working to reduce processing times, including hiring and training additional permit staff, as needed. In addition, they urged the agency to move forward quickly with digitization of section E in the ePermits system. They also expressed that while the official policy allows permittees to continue their work without their renewal in hand if they submit a renewal request 30 days or more before permit expiration, they will feel more confident if they have written evidence of this from the agency. Another concern of the commenter was regarding internal USFWS guidance that resulted in regional permit offices requiring that MBTA permits for import/export list each individual shipment in detail.

Agency Response to Comment 3: We shared these comments with the permits and ePermits teams who are already working to address many of the commenter's concerns. Between a recent influx of funding to improve the ePermits system and a push to hire more
