#### SUPPLEMENTARY INFORMATION:

##### Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the route structure as to improve the efficient flow of air traffic within the NAS while lessening the dependency on ground-based navigation.

##### Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental,

and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

*Privacy:* In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to [www.regulations.gov](http://www.regulations.gov), as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at [www.dot.gov/privacy](http://www.dot.gov/privacy).

## Incorporation by Reference

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

## The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend VOR Federal airway V-469; and to revoke VOR Federal airways V-164, V-423, and V-576 in support of the FAA's VOR MON Program. The proposed changes facilitate the scheduled decommissioning of the following navigation aids: Williamsport, PA (FQM), VOR/Distance Measuring Equipment (DME); Stonyfork, PA (SFK), VOR/DME; Danville, VA (DAN), VOR; Hancock, NY (HNK), VOR/DME; and Delancey, NY (DNY), VOR/DME. The proposed changes are described below.

**V-164:** V-164 extends from the Stonyfork, PA (SFK), VOR/DME to the East Texas, PA (ETX), VOR/DME. The route is dependent upon the Stonyfork, PA (SFK), VOR/DME and the Williamsport, PA (FQM), VOR/DME which are scheduled to be decommissioned. Without this navigation facility, V-164 is no longer viable, so the FAA proposes to remove the entire route.

**V-423:** V-423 extends from the Williamsport, PA (FQM), VOR/DME to the Binghamton, NY (CFB), VOR/DME. The route is dependent upon the Williamsport, PA (FQM), VOR/DME which is scheduled to be decommissioned. Without this navigation facility, V-423 is no longer viable, so the FAA proposes to remove the route.

**V-469:** V-469 extends from the Danville, VA (DAN), VOR to the Woodstown, NJ (OOD), VOR/Tactical Air Navigation System (VORTAC). The Danville, VA (DAN), VOR is scheduled to be decommissioned. The FAA proposes to remove the route segment between the Danville, VA (DAN), VOR to the Lynchburg, VA (LYH), VOR/DME.

**V-576:** V-576 extends from the Philipsburg, PA (PSB), VORTAC to the DeLancey, NY (DNY), VOR/DME. The

route is dependent upon the Williamsport, PA (FQM), VOR/DME, the Hancock, NY (HNK), VOR/DME, and the DeLancey, NY (DNY), VOR/DME which are scheduled to be decommissioned. Without these navigation facilities, V-576 is no longer viable, so the FAA proposes to remove the entire route.

## Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F: "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
