

to 13.64 ac of sand skink-occupied habitat within the Lake Livingston Conservation Bank or another Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any construction phase of the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's proposed project—including the construction of multiple housing products, associated infrastructure, stormwater facilities, and amenities—would individually and cumulatively have a minor effect on sand skinks and the environment and may qualify for application of a categorical exclusion pursuant to the Council on Environmental Quality's NEPA regulations, DOI's NEPA regulations, and the DOI Departmental Manual. A low-effect incidental take permit is one that would result in (1) minor or nonsignificant effects on species covered in the HCP; (2) nonsignificant effects on the human environment; and (3) impacts that, when added together with the impacts of other past, present, and reasonably foreseeable actions, would not result in significant cumulative effects to the human environment.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested ITP. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER1368039 to Park Square Commercial.

Authority

The Service provides this notice under section 10(c) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and the National Environmental

Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1500–1508 and 43 CFR 46).

Robert L. Carey,

*Manager, Division of Environmental Review,
Florida Ecological Services Office.*

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX23RB00TU7SE00]

Agency Information Collection Activities; Science Communication Strategies Related to Mining Activities

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before August 14, 2023.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference the Office of Management and Budget (OMB) Control Number 1028–NEW Mining Communications in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Rudy Schuster by email at schusterr@usgs.gov, or by telephone at 970–226–9165. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval from OMB. We may not conduct or sponsor, nor are you required to respond to, a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS has a history of conducting research on uranium-bearing breccia pipe deposits to address data gaps related to the potential effects of uranium exploration and mining activities in the Grand Canyon watershed on people, wildlife, and water resources. The USGS also recognizes a need to use the latest and most effective methods for communicating science to partners and non-scientists. The project proposed herein seeks to identify a path toward efficiently and effectively providing data and results to decision makers, stakeholders, partners, and the public to maximize the utility of science products. This research will advance

USGS capability by documenting the efficacy of existing mining-related science communication efforts to partners and advance USGS knowledge and use of communication methods to deliver actionable science to non-science audiences in the future. Information will be collected via semi-structured interviews conducted in-person with USGS partners and members of the general public in the Grand Canyon watershed.

Title of Collection: Science communication strategies related to mining activities.

OMB Control Number: 1028–NEW Mining Communications.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: General Public.

Total Estimated Number of Annual Respondents: 20.

Total Estimated Number of Annual Responses: 20.

Estimated Completion Time per Response: 45 minutes.

Total Estimated Number of Annual Burden Hours: 15 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: One Time.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).

Rudolph Schuster,

Branch Chief, Social & Economic Analysis, USGS.

BILLING CODE P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[L13100000.PP0000.LLHQ310000.234; OMB Control No. 1004–0196]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Oil and Gas Leasing: National Petroleum Reserve—Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Land Management (BLM) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before July 17, 2023.

ADDRESSES: Written comments and recommendations for this information collection request (ICR) should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Jennifer Spencer by email at j35spenc@blm.gov, or by telephone at (307) 775–6261.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we invite the public and other Federal agencies to comment on new, proposed, revised and continuing collections of information. This helps the BLM assess impacts of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on February 28, 2023 (88 FR 12697). No comments were received in response to this notice.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on the proposed ICR described below. The BLM is especially interested in public comment addressing the following:

(1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: This OMB Control Number covers paperwork requirements for operators and operating rights owners in the National Petroleum Reserve—Alaska (NPR). In accordance with the National Petroleum Reserves Production Act (42 U.S.C. 6501–6508) and regulations at 43 CFR part 3130 (subparts 3130, 3133, 3135, 3137, and 3138), a respondent may apply to the Bureau of Land Management (BLM) for a competitive oil and gas lease and may propose a unit agreement that meets the requirements for unitized exploration and development of oil and gas resources of the NPR. This OMB Control Number is currently scheduled to expire on August 31, 2023. The BLM request that OMB renew this OMB Control Number for an additional three years.

Title of Collection: Oil and Gas Leasing: National Petroleum Reserve—Alaska (43 CFR part 3130).

OMB Control Number: 1004–0196.

Form Numbers: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Participants in the oil and gas leasing program within National Petroleum Reserve—Alaska.

Total Estimated Number of Annual Respondents: 21.

Total Estimated Number of Annual Responses: 21.

Estimated Completion Time per Response: Varies from 15 minutes to 80 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 220.

Respondent's Obligation: Required to obtain or retain a benefit.
