

Bureau licensees were renamed as FCC Form 314–IBFS, FCC Form 315–IBFS and FCC Form 316–IBFS. These forms will only be used by the International Broadcast stations in IBFS.

Under 47 CFR 73.3540, the filings of the FCC Forms 314–IBFS, 315–IBFS, and 316–IBFS are required when applying for consent for assignment of a broadcast station construction permit or license. In addition, the applicant must notify the Commission when an approved assignment or transfer of control of a broadcast station construction permit or license has been consummated.

The FCC Forms 314, 315, and 316 were previously shared between the Media Bureau and the International Bureau. The forms were used by the International Bureau for International Broadcast stations and by the Media Bureau for other broadcast licenses. These FCC Forms were previously approved by Office of Management and Budget (OMB) for use by Media Bureau licensees under OMB 3060–0031 and OMB 3060–0009.

Accordingly, the early forms included references to all broadcast services. The new version of the forms removes references to all services except for International Broadcast stations, since they are only used for these stations. The changes also remove references to rules that do not apply to International Broadcast stations and updates the instructions to comport with the new sections.

Specifically, the Commission modified its rules to mandate the electronic filing of, among other things, applications for International Broadcast Stations, including applications for voluntary assignments and transfers of control. These mandatory electronic filing requirements will reduce costs and administrative burdens, result in greater efficiencies, facilitate faster and more efficient communications, and improve transparency to the public. The changes to section 73.3540 (c) and (d) state that “[f]or International Broadcast Stations, the application shall be filed electronically in the International Bureau Filing System (IBFS).” There are currently fewer than 20 International Broadcast stations subject to obligations in section 73.3540, and the International Bureau receives an average of one application involving voluntary transactions per year pursuant to section 73.3540.

§ 73.3540 Application for Voluntary Assignment or Transfer of Control

(b) Application should be filed with the FCC at least 45 days prior to the contemplated effective date of assignment or transfer of control.

(d) Application for consent to the transfer of control of a corporation holding a construction permit or license must be filed on FCC Form 315 “Transfer of Control” or FCC Form 316 “Short form” (see paragraph (f) of this section).
