

Northern District of Alabama in the Chapter 11 bankruptcy case captioned *In re Remington Outdoor Company, Inc., et al.*, Case No. 20–81688–CRJ11.

In January 2021, the United States filed a Proof of Claim in this bankruptcy case alleging that Remington Arms is liable, along with others, for reimbursement of past and future costs of responses actions addressing environmental contamination at the Chemetco Superfund Site in Madison County, Illinois (the “Chemetco Site”) under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9607. The Proof of Claim seeks reimbursement of: (i) more than \$3.7 million in unreimbursed past response costs that the U.S. Environmental Protection Agency (“EPA”) has incurred in connection with the Chemetco Site; and (ii) an estimated \$18 million to \$45 million in costs of necessary future response work at the Chemetco Site.

The proposed settlement Stipulation that the United States has lodged in the bankruptcy case would resolve the EPA Proof of Claim on agreed terms and conditions. If approved by the bankruptcy court, it would grant EPA a \$1.275 million allowed general unsecured claim against Remington Arms that would be paid in accordance with the Court-approved Joint Chapter 11 Plan of the Debtors. As specified by the Stipulation, EPA will deposit any cash distributions it receives on account of the allowed claim into a special account established by EPA for the Chemetco Site within the Hazardous Substance Superfund, to be retained and used to conduct or finance response actions at or in connection with the Chemetco Site, or to be transferred to the Hazardous Substance Superfund.

AGENCY: Office of Data Governance, Office of the Assistant Secretary for Policy, Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor (DOL), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance request for comment to provide the public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This request helps to ensure that: requested data can be provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood; and the impact of collection requirements on respondents can be properly assessed. Currently, the Office of the Assistant Secretary for Policy (OASP) is soliciting comments on an information collection of user registrations to access a public Application Programming Interface providing machine readable subsets of public data generated by DOL programs and activities.

DATES: All comments must be received on or before August 21, 2023.

ADDRESSES: Electronic submission: You may submit comments and attachments electronically at <http://www.regulations.gov>. Follow the online instructions for submitting comments. A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free by contacting Scott Gibbons by email at gibbons.scott.m@dol.gov. SUPPLEMENTARY INFORMATION:

I. Background

DOL is developing a new public facing data service consistent with the requirements of title II of the Foundations for Evidence-Based Policymaking Act of 2018, the goals described in DOL’s Enterprise Data Strategy, and feedback from a prior public request for information on how DOL can optimally structure its public data offerings available through Docket No. DOL–2021–0005 at www.regulations.gov.

To best ensure that this service will optimally meet current, evolving, and long range needs among public, private, and Federal data users, specifically with respect to the kinds of data offered, the formats of machine readable data made accessible, the software and services that can connect to the Application programming Interface (API), and the kinds of documentation provided, DOL anticipates collecting a limited number of characteristic data elements from prospective users. These data elements will guide DOL efforts to provide questions about familiarity with APIs usage, preferred software, questions about topics of analysis to ensure that our creation of tutorials, code examples, documentation, and data schema best reflect the collective needs of our users. The information will also be used to identify patterns and trends among users to inform proper administration of the service. DOL will not disclose any

of the information being collected to the public.

DOL experience shows that the number of applicants to our public data services will vary considerably but will almost certainly exceed 10 or more persons (ref: 5 CFR 1320.3(c)(4)(ii)), so DOL seeks to obtain and maintain PRA clearance to conduct this information collection.

II. Desired Focus of Comments

OASP is soliciting comments concerning an information collection of user registrations to access a public Application Programming Interface providing machine readable subsets of public data generated by DOL programs and activities. OASP is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OASP's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Background documents related to this information collection request are available at <https://regulations.gov> and at DOL–OASP, located at Office of the Assistant Secretary for Policy, Room S2312, 200 Constitution Avenue NW, Washington, DC 20210. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

This information collection request concerns user registrations to access a public Application Programming Interface providing machine readable subsets of public data generated by DOL programs and activities. OASP has estimated the potential impact of this collection data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request from the previous information collection request.
