DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Bankruptcy Settlement Under the Comprehensive Environmental Response, Compensation, and Liability Act

On June 12, 2023, the Department of Justice lodged a proposed settlement Stipulation with Remington Arms Distribution Company, LLC ("Remington Arms"), with the United States Bankruptcy Court for the

Northern District of Alabama in the Chapter 11 bankruptcy case captioned *In re Remington Outdoor Company, Inc., et al.*, Case No. 20–81688–CRJ11.

In January 2021, the United States filed a Proof of Claim in this bankruptcy case alleging that Remington Arms is liable, along with others, for reimbursement of past and future costs of responses actions addressing environmental contamination at the Chemetco Superfund Site in Madison County, Illinois (the “Chemetco Site”) under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9607. The Proof of Claim seeks reimbursement of: (i) more than \$3.7 million in unreimbursed past response costs that the U.S. Environmental Protection Agency (“EPA”) has incurred in connection with the Chemetco Site; and (ii) an estimated \$18 million to \$45 million in costs of necessary future response work at the Chemetco Site.

The proposed settlement Stipulation that the United States has lodged in the bankruptcy case would resolve the EPA Proof of Claim on agreed terms and conditions. If approved by the bankruptcy court, it would grant EPA a \$1.275 million allowed general unsecured claim against Remington Arms that would be paid in accordance with the Court-approved Joint Chapter 11 Plan of the Debtors. As specified by the Stipulation, EPA will deposit any cash distributions it receives on account of the allowed claim into a special account established by EPA for the Chemetco Site within the Hazardous Substance Superfund, to be retained and used to conduct or finance response actions at or in connection with the Chemetco Site, or to be transferred to the Hazardous Substance Superfund.

SUPPLEMENTARY INFORMATION:

I. Background

DOL is developing a new public facing data service consistent with the requirements of title II of the Foundations for Evidence-Based Policymaking Act of 2018, the goals described in DOL’s Enterprise Data Strategy, and feedback from a prior public request for information on how DOL can optimally structure its public data offerings available through Docket No. DOL–2021–0005 at www.regulations.gov.

To best ensure that this service will optimally meet current, evolving, and long range needs among public, private, and Federal data users, specifically with respect to the kinds of data offered, the formats of machine readable data made accessible, the software and services that can connect to the Application programming Interface (API), and the kinds of documentation provided, DOL anticipates collecting a limited number of characteristic data elements from prospective users. These data elements will guide DOL efforts to provide questions about familiarity with APIs usage, preferred software, questions about topics of analysis to ensure that our creation of tutorials, code examples, documentation, and data schema best reflect the collective needs of our users. The information will also be used to identify patterns and trends among users to inform proper administration of the service. DOL will not disclose any
