SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class E surface airspace and the Class E airspace extending upward from 700 feet above the surface at Quincy Regional Airport-Baldwin Field, Quincy IL, to support instrument flight rule (IFR) operations at this airport.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments

reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it received on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT post these comments, without edit, including any personal information the commenter provides, to www.regulations.gov as described in the system of records notice (DOT/ALL-14FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Incorporation by Reference

Class E airspace is published in paragraphs 6002 and 6005 of FAA Order

JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published subsequently in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the ADDRESSES section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing to amend 14 CFR part 71 by:

Modifying the Class E surface airspace to within a 4.3-mile (increased from a 4.2-mile) radius of Quincy Regional Airport-Baldwin Field, Quincy, IL; removing the Quincy VORTAC and associated extension from the airspace legal description; updating the name (previously Quincy Municipal Baldwin Field) and geographic coordinates of the airport to coincide with the FAA’s aeronautical database; and replacing the outdated terms “Notice to Airmen” with “Notice to Air Missions” and “Airport/Facility Directory” with “Chart Supplement”.

And modifying the Class E airspace extending upward from 700 feet above the surface to within a 6.8-mile (decreased from a 7.1-mile) radius of Quincy Regional Airport-Baldwin Field; amending the extension to the southwest to within 4 miles each side (previously 4.4 miles northwest and 7 miles southeast) of the 220° bearing from the Quincy RGNL-Baldwin FLD: RWY 04—Marker Beacon (previously Quincy ILS localizer southwest course) extending from the 6.8-mile (previously 7-mile) radius of the Quincy Regional Airport-Baldwin Field to 9.8 miles (previously 10.4 miles) southwest of the Quincy RGNL-Baldwin FLD: RWY 04—Marker Beacon (previously Quincy LOM/NDB); and updating name and geographic coordinates of Quincy Regional Airport-Baldwin Field (previously Quincy Municipal Baldwin Field) and the name of Quincy RGNL-Baldwin FLD: RWY 04—Marker Beacon (previously Quincy LOM/NDB) to coincide with the FAA’s aeronautical database.

This action is the result of an airspace review due to the decommissioning of the Quincy VOR, which provided navigation information to this airport, as part of the VOR MON Program, and to support IFR operations at this airport.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
