BILLING CODE 4163-70-P

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60Day-23-22GA; Docket No. CDC-2023-0053]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Expanding PrEP in Communities of Color (EPICC). The purpose of this study is to implement and evaluate the effectiveness of a clinic-based intervention that utilizes evidence-based education and support tools increase provider knowledge and improve PrEP adherence.

**DATES:** CDC must receive written comments on or before August 28, 2023.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC-2023-0053 by either of the following methods:

- *Federal eRulemaking Portal:* [www.regulations.gov](http://www.regulations.gov). Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

*Instructions:* All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to [www.regulations.gov](http://www.regulations.gov).

*Please note:* Submit all comments through the Federal eRulemaking portal ([www.regulations.gov](http://www.regulations.gov)) or by U.S. mail to the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the

proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7118; Email: [omb@cdc.gov](mailto:omb@cdc.gov).

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

#### Proposed Project

Expanding PrEP in Communities of Color (EPICC)—New—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

The National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention (NCHHSTP) is requesting approval for 36 months of data collection titled Expanding PrEP in Communities of

Color (EPICC). The purpose of this study is to implement and evaluate the effectiveness of a clinic-based intervention that utilizes evidence-based education and support tools to: (1) increase provider knowledge of and comfort with preexposure prophylaxis (PrEP) modalities in clinical practice; and (2) improve PrEP adherence among young men who have sex with men (YMSM).

*This study has two aims:* In Aim 1 the study team will deliver training to health providers that will focus on implementation of evidence-based tools to enhance the providers' ability to engage in PrEP screening, counseling, initiation and to provide support for adherence and persistence. For Aim 2a, the study will initiate an effectiveness-implementation trial with 400 YMSM to test the effectiveness of the EPICC+ intervention package in increasing PrEP adherence and persistence among YMSM. The intervention will also utilize a mobile app-based platform, HealthMPowerment (HMP) to support ongoing participant engagement and monitoring, as well as to provide additional adherence support. In Aim 2b, the study team will conduct focus groups with providers to gather feedback on overall perceptions of the barriers and facilitators to implementation of evidence-based tools (EBT) within their clinical site.

*The information collected in this study will be used to:* (1) describe real-world PrEP use including factors influencing selection and change of PrEP regimens; (2) understand and describe barriers and facilitators impacting the implementation of new PrEP modalities in clinical practice; (3) evaluate the feasibility and acceptability of the EPICC+ mobile app among YMSM on PrEP; and (4) evaluate the feasibility and acceptability of implementing a provider training.

This study will be carried out in 10 clinics located in Chicago, IL; New York City, NY; Philadelphia, PA; Charlotte, NC; Raleigh, NC; Tuscaloosa, AL; Montgomery, AL; Tampa, FL; Orlando, FL; and Houston, TX. Aim 1 will include 30 health care providers from the 10 clinic sites, all involved in the direct delivery of PrEP services. Providers may include but are not limited to medical doctors, nurses, adherence counselors, pharmacists, and social workers. Health providers will be recruited via staff emails.

Aim 2a participants will include 400 YMSM ages 18-39, inclusive. Participants will identify as a cisgender male; report sex with a man in the past 12 month; have an active prescription for PrEP; receive care at one of the ten

participating study sites; provide a mailing address within the 50 states where packages can be received; have daily smartphone access; and be fluent in written/spoken English or Spanish. We will use purposive sampling to ensure at least 60% patient sample is African American or Black or Hispanic/Latino/Latinx. Patient participants will be recruited to the study using a combination of approaches including social media, referral and in-person outreach.

Quantitative and qualitative assessments will be used to collect information from providers and YMSM participants. For the Aim 1 provider training, assessments will include pre, post, 3-month, and 6-month surveys to evaluate provider information retention. Providers will also be asked to complete a brief survey at baseline, 3- and 6-months to assess their new patient interaction skills. For Aim 2a, YMSM participants will be asked to complete a baseline assessment and quarterly assessments at 3, 6, 9, 12, 15, and 18 months to assess PrEP adherence; PrEP knowledge, usage and choice; sexual risk behaviors; HIV status of partners); and substance use assessment. A subset of YMSM participants from Aim 2a will be asked to complete an exit interview that will focus on understanding factors that influenced participants' selection of PrEP regimens, changes and/or

discontinuations, as well as perceptions of the counseling they received by providers at PrEP initiation and follow-up, receipt of tools or materials that influenced choice and feasibility/acceptability of the HMP app. We will also conduct focus groups with providers in Aim 2b to gather feedback on overall perceptions of the barriers and facilitators to EBT implementation within their clinical site. The study will also collect data through from electronic health records; biological specimens collected at quarterly intervals; and a clinic assessment tool delivered every six months.

For the Aim 1 provider training, we estimate the collection of contact information will take five minutes. Pre-training, baseline and follow up surveys at three and six months will take approximately 15 minutes each to complete. Patient interaction assessments delivered at baseline, three and six months will take approximately 15 minutes each to complete. For Aim 2a, the effectiveness-implementation trail, it is expected that 50% of YMSM screened will meet study eligibility. The initial screening will take five minutes to complete and the collection of contact information to take five minutes. The baseline assessment will take approximately 45 minutes to complete. The follow up assessments will take 45 minutes to complete and will be

administered quarterly for a total of six times during the 18-month follow up period. Study staff will assist participants to setup the HMP app, a process that will take 30 minutes.. The patient exit interview takes approximately 60 minutes to complete and will be delivered one time to a subset of 48 YMSM participants. For the Aim 2b provider focus groups, we estimate it will take approximately five minutes to collect contact information and another five minutes to conduct the pre-focus group survey. Providers will attend one focus group that is expected to take 120 minutes to complete.

Total study enrollment for Aim 1 is 30, over the three-year study period the estimated annual enrollment is 10. Total enrollment for Aim 2a is 400, over the three-year study period the estimated annual enrollment is 134. For the Aim 2a exit interview, 45 will participate for an annual enrollment of 15. For Aim 2b, total study enrollment is 48 and the estimated annual enrollment is 16. Additionally, a clinic staff member at each of the ten participating clinic sites will complete a clinic assessment form every six months throughout the study period. The total estimated annualized burden hours are 685. There is no cost to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hr)	Total burden (in hr)
General Public—Adults .....	Aim 1 Provider Contact Information	10	1	5/60	1
General Public—Adults .....	Aim 1 Provider Training Survey .....	10	4	15/60	10
General Public—Adults .....	Aim 1 Patient Interaction Assessment.	10	3	15/60	8
General Public—Adults .....	Aim 2a Participant Eligibility Screener.	268	1	5/60	23
General Public—Adults .....	Aim 2a Participant Contact Information.	134	1	5/60	12
General Public—Adults .....	Aim 2a Baseline Assessment .....	134	1	45/60	101
General Public—Adults .....	Aim 2a Quarterly Assessments .....	134	4	45/60	402
General Public—Adults .....	Aim 2a HMP App Setup .....	134	1	30/60	67
General Public—Adults .....	Aim 2a Exit Interview .....	15	1	1	15
General Public—Adults .....	Aim 2b Provider Focus Group Contact Information.	16	1	5/60	2

BILLING CODE 4163–18-P

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60Day–23–0881; Docket No. CDC–2023–  
0052]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and  
Prevention (CDC), Department of Health  
and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease  
Control and Prevention (CDC), as part of  
its continuing effort to reduce public  
burden and maximize the utility of  
government information, invites the  
general public and other federal  
agencies the opportunity to comment on  
a continuing information collection, as  
required by the Paperwork Reduction  
Act of 1995. This notice invites  
comment on a proposed information  
collection project titled Data Calls for  
the Laboratory Response Network  
(LRN). These Data Calls are needed to  
address issues concerning the response  
capabilities of member facilities for  
priority threat agents or to assess the  
network's ability to respond to new  
emerging threats.

**DATES:** CDC must receive written  
comments on or before August 28, 2023.

**ADDRESSES:** You may submit comments,  
identified by Docket No. CDC–2023–  
0052 by either of the following methods:

- **Federal eRulemaking Portal:**  
[www.regulations.gov](http://www.regulations.gov). Follow the  
instructions for submitting comments.
- **Mail:** Jeffrey M. Zirger, Information  
Collection Review Office, Centers for  
Disease Control and Prevention, 1600  
Clifton Road NE, MS H21–8, Atlanta,  
Georgia 30329.

**Instructions:** All submissions received  
must include the agency name and  
Docket Number. CDC will post, without  
change, all relevant comments to  
[www.regulations.gov](http://www.regulations.gov).

**Please note:** Submit all comments  
through the Federal eRulemaking portal  
([www.regulations.gov](http://www.regulations.gov)) or by U.S. mail to  
the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To  
request more information on the  
proposed project or to obtain a copy of  
the information collection plan and  
instruments, contact Jeffrey M. Zirger,  
Information Collection Review Office,  
Centers for Disease Control and  
Prevention, 1600 Clifton Road NE, MS  
H21–8, Atlanta, Georgia 30329;  
Telephone: 404–639–7570; Email: [omb@  
cdc.gov](mailto:omb@cdc.gov).

**SUPPLEMENTARY INFORMATION:** Under the  
Paperwork Reduction Act of 1995 (PRA)  
(44 U.S.C. 3501–3520), federal agencies  
must obtain approval from the Office of  
Management and Budget (OMB) for each  
collection of information they conduct  
or sponsor. In addition, the PRA also  
requires federal agencies to provide a  
60-day notice in the **Federal Register**  
concerning each proposed collection of  
information, including each new  
proposed collection, each proposed  
extension of existing collection of  
information, and each reinstatement of  
previously approved information  
collection before submitting the  
collection to the OMB for approval. To  
comply with this requirement, we are  
publishing this notice of a proposed  
data collection as described below.

The OMB is particularly interested in  
comments that will help:

1. Evaluate whether the proposed  
collection of information is necessary  
for the proper performance of the  
functions of the agency, including  
whether the information will have  
practical utility;
2. Evaluate the accuracy of the  
agency's estimate of the burden of the  
proposed collection of information,  
including the validity of the  
methodology and assumptions used;
3. Enhance the quality, utility, and  
clarity of the information to be  
collected;
4. Minimize the burden of the  
collection of information on those who  
are to respond, including through the  
use of appropriate automated,  
electronic, mechanical, or other  
technological collection techniques or  
other forms of information technology,  
*e.g.*, permitting electronic submissions  
of responses; and
5. Assess information collection costs.

#### Proposed Project

Data Calls for the Laboratory  
Response Network (LRN) (OMB Control  
No. 0920–0881)—Reinstatement  
Without Change—National Center for  
Emerging and Infectious Diseases  
(NCEZID), Centers for Disease Control  
and Prevention (CDC).

#### Background and Brief Description

The Laboratory Response Network  
(LRN) was established by the  
Department of Health and Human  
Services (HHS), Centers for Disease  
Control and Prevention (CDC) in  
accordance with Presidential Decision  
Directive 39 which outlined national  
anti-terrorism policies and assigned  
specific missions to federal departments  
and agencies. The Administration has  
stated that it is the policy of the United  
States to use all appropriate means, to  
deter, defeat, and respond to all terrorist  
attacks on our territory and resources,  
both with people and facilities. The  
LRN's mission is to maintain an  
integrated national and international  
network of laboratories that can respond  
quickly to suspected acts of biological,  
chemical, or radiological terrorism,  
emerging infectious diseases, and other  
public health threats and emergencies.

Federal, state and local public health  
laboratories join the LRN voluntarily.  
When laboratories join, they assume  
specific responsibilities and are  
required to provide facility information  
to the LRN Program Office at CDC as  
well as test results for real samples or  
proficiency tests. LRN laboratories  
participate in Proficiency Testing  
Challenges, Exercises and Validation  
Studies each year. LRN information  
collection is covered by OMB Control  
No. 0920–0850. On occasion, CDC may  
conduct a Special Data Call to obtain  
additional information from LRN  
laboratories regarding biological or  
chemical terrorism, or emerging  
infectious disease preparedness.  
Although the LRN Program Office at  
CDC has an extensive database of  
information regarding all network  
members, LRN Special Data Calls are  
sometimes needed to address issues  
concerning the response capabilities of  
member facilities for priority threat  
agents or to assess the network's ability  
to respond to new emerging threats.  
Special Data Calls may be conducted via  
broadcast email that asks respondents to  
send information via email to the LRN  
Help Desk or through online survey  
tools (*i.e.*, Survey Monkey) which  
require respondents to go to a web link  
and answer a series of questions.

This request is for a Reinstatement of  
a Generic collection instrument that is  
necessary for any impromptu data calls  
that are needed. CDC requests OMB  
approval for an estimated 94 annual  
burden hours. There is no cost to  
respondents other than their time to  
participate.
