

the human environment resulting from three alternatives: A no-action alternative, the proposed action, and a more restrictive alternative consisting of feathering below higher wind speeds that results in lower impacts to bats.

Next Steps

The Service will evaluate the permit application and the comments received to determine whether the application meets the requirements of section 10(a) of the ESA. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the above findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue the requested ITP to the applicant.

Request for Public Comments

The Service invites comments and suggestions from all interested parties during a 30-day public comment period (see **DATES**). Information and comments regarding the following topics are requested:

1. The environmental effects that implementation of any alternative could have on the human environment;
2. Whether or not the significance of the impact on various aspects of the human environment has been adequately analyzed;
3. Any threats to the covered species that may influence their populations over the life of the ITP that are not addressed in the proposed HCP or environmental assessment; and
4. Any other information pertinent to evaluating the effects of the proposed action on the human environment.

Availability of Public Comments

You may submit comments by one of the methods shown under **ADDRESSES**. We will post on <https://www.regulations.gov> all public comments and information received electronically or via hardcopy. All comments received, including names and addresses, will become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from

individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and the National Environmental Policy Act (42 U.S.C. 4371 *et seq.*) and its implementing regulations (40 CFR 1506.6; 43 CFR part 46).

Lori Nordstrom,

Assistant Regional Director, Ecological Services.

Notice of Inventory Completion: California State University, Chico, Chico, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the California State University Chico (CSU Chico) has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice. The human remains and associated funerary objects were removed from Tehama County, CA.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after July 27, 2023.

ADDRESSES: Dawn Rewolinski, California State University, Chico, 400 W 1st Street, Chico, CA 95929, telephone (530) 898–3090, email drewolinski@csuchico.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of CSU Chico. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including

the results of consultation, can be found in the inventory or related records held by CSU Chico.

Description

Accession 51

Human remains representing, at minimum, one individual were removed from site CA–TEH–750 in Tehama County, CA. In 1971, this site was recorded by M. Boynton after it was unknowingly trenched while testing farm equipment. Upon the discovery, the landowner collected cultural items and human remains from the site and donated them to CSU Chico. Around the same time, Chico State surveyed the site once again, during which no additional individuals were identified. The 79 associated funerary objects are one debitage, eight modified stones, eight modified shells, 61 glass beads, and one copper bell.

Accession 77

Human remains representing, at minimum, two individuals were removed from the Bambauer site (CA–TEH–247) in Tehama County, CA. In 1965, Keith Johnson recorded the site, and in 1965 and 1966, the University of California, Los Angeles conducted excavations there. In 1974, excavation at the site was resumed by a CSU Chico field class under the direction of Keith Johnson. Currently, CSU Chico houses the records from the 1965–66 excavations and the human remains and artifacts from the 1974 excavation. The 1,949 associated funerary objects are one modified shell, one soil sample, one float sample, 12 charcoal samples, 14 projectile points, 15 organics, 25 unmodified shells, 30 modified faunal elements, 91 modified stones, 94 faunal remains, 303 lots consisting of debitage, and 1,362 unmodified faunal elements.

Accession 83

Human remains representing, at minimum, 12 individuals were removed from the Rumiano Ranch site (CA–TEH–676) in Tehama County, CA. In 1974, the Tehama County Sheriff's Department collected human remains and associated funerary objects that had been exposed by farm equipment. Collections records state that the University of California, Davis donated this collection to CSU Chico in November of 1974, suggesting that the Sheriff's Department transferred control of the human remains and associated funerary objects to the University of California, Davis shortly after they were collected. The 10 associated funerary objects are three lots consisting of debitage, four modified

stone tools, one projectile point, and two modified shells.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, historical, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, CSU Chico has determined that:

- The human remains described in this notice represent the physical remains of 15 individuals of Native American ancestry.
- The 2,038 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Paskenta Band of Nomlaki Indians of California.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after July 27, 2023. If competing requests for repatriation are received, CSU Chico must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and

associated funerary objects are considered a single request and not competing requests. CSU Chico is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: June 14, 2023.

Melanie O'Brien,

Manager, National NAGPRA Program.

Description

Accession 1

Human remains representing, at minimum, one individual were removed from five sites in the city of Chico, in Butte County, CA (CA-BUT-0168, CA-BUT-0186, CA-BUT-0226, CA-BUT-0284, and CA-BUT-0286). In 1940, these sites were visited by Meigs (who was affiliated with Chico State), and in 1955, they were visited by Burchard. Both men collected cultural items from the sites. The sites were formally recorded in the spring of 1964 by Dorothy Hill and Professor Keith Johnson, who led a Chico State Anthropology Department Archaeological Survey class. During this survey, additional items were collected. Items removed during the three collection events were accessioned by the Chico State Department of Anthropology in March of 1964. The 33 associated funerary objects are one cordage sample, one lot consisting of debitage, five modified faunal elements, nine modified stones, 14 projectile points, and three modified shells.

Accession 80

Human remains representing, at minimum, six individuals were removed by workers at Butte Farms, in Butte County, CA. In 1974, the property donated the burial collection to CSU Chico. The one associated funerary object is an edge modified flake.

Accession 253

Accession 253 consists of humans remains representing, at minimum, four individuals. These human remains derive from archeological recoveries, public donations, and forensic cases. No associated funerary objects are present.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, historical, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian
