3. Title and purpose of information collection: Vocational Report; OMB 3220-0141.

Under section 2 of the Railroad Retirement Act (RRA) (45 U.S.C. 231a) provides for payment of disability annuities to qualified employees and widow(er)s. The establishment of permanent disability for work in the applicant's "regular occupation" or for work in any regular employment is

prescribed in 20 CFR 220.12 and 220.13, respectively.

To enable the Railroad Retirement Board (RRB) to determine the effect of a disability on an applicant's ability to work, the RRB needs the applicant's work history. The RRB utilizes Form G-251, Vocational Report, to obtain this information.

Form G-251 is provided to all applicants for employee disability

annuities and to those applicants for a widow(er)'s disability annuity who indicate that they have been employed at some time. Form G-251 is designed for use with the RRB's disability benefit application forms. Form G-251 is similar to Form SSA-3369-BK, OMB 0960-0578. The RRB proposes the no changes to the Form G-251.

4. Title and purpose of information collection: Designation of Contact Officials; 3220-0200

Under section 7(b)(6) of the Railroad Retirement Act (RRA) (45 U.S.C. 231) gives the Railroad Retirement Board (RRB) the authority to require railroad employers to furnish information and records that are necessary for the administration of the Act. Coordination between railroad employers and the RRB is essential to properly administer the payment of benefits under the

Railroad Retirement Act (RRA) and the Railroad Unemployment Insurance Act (RUIA). In order to enhance timely coordination activity, the RRB utilizes Form G-117a, *Designation of Contact Officials*. Form G-117a is used by railroad employers to designate employees who are to act as point of contact with the RRB on a variety of RRA and RUIA-related matters.

Completion is voluntary. One response is requested from each respondent. The RRB proposes to

change the Form G-117a (Paper) by adding updated language in Section 12, Signature line. The language proposed is, "The above officials of this employer are authorized to serve in the capacities indicated and to act as trusted referees for the RRB in accordance with the National Institute of Standards and Technology (NIST) Special Publication 800-63A guidelines for online reporting access."

The RRB proposes no changes to Form G-117a (internet).

State of Georgia’s Criminal Justice Coordinating Council’s (CJCC) Evaluation of the Implementation of the Supplemental Security Income (SSI)/ Social Security Disability Insurance (SSDI) Outreach, Access, and Recovery (SOAR) Model in County Jails—0960–NEW

Background

SSA is requesting clearance to collect data necessary to evaluate an intervention under the Interventional Cooperative Agreement Program (ICAP) with the State of Georgia’s Criminal Justice Coordinating Council (CJCC). ICAP allows SSA to partner with various non-federal groups and organizations to advance interventional research connected to the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. SSA awarded CJCC a cooperative agreement to conduct an intervention and evaluation of Supplemental Security Income (SSI)/ Social Security Disability Insurance (SSDI) Outreach, Access, and Recovery (SOAR) model in county jails with inmates with serious and persistent mental illness (SPMI) across the state. In addition to SSA, CJCC has partnered with the following: (1) Applied Research Services (ARS); (2) the Georgia Department of Behavioral Health and Developmental Disabilities (DBHDD); and (3) four county jails to implement the program.

ICAP CJCC Project Description

Investigators hypothesize that untreated mental illness and repeated psychiatric crises may be a factor in jail recidivism. Connection to SSI/SSDI and attendant insurance benefits may help a person with SPMI obtain treatment and interrupt criminogenic behavior. The intervention will connect respondents in four county jails identified as having

SPMI to Medicaid Eligibility Specialists (MES) hired and trained by the Georgia DBHDD, who will help them apply for SSI and SSDI. Respondents in two of the four counties (Fulton County Jail and Cobb County Jail) will also have the option of working with a Forensic Peer Mentor (FPM), a formerly incarcerated individual who is familiar with resources that may help participants increase their quality-of-life post incarceration and avoid recidivism. SSA anticipates the two DBHDD MESs will each serve 45 participants per year, for a total of 90 participants per year.

To maximize the likelihood of the SSI/SSDI application approval, the MES will employ the SOAR method, which uses in-depth medical and personal summaries of disability to facilitate the SSI/SSDI application process. Researchers will collect data from participant surveys to evaluate and study the impact of the intervention. Through the data collected through these surveys, along with administrative data from SSA, the State of Georgia, participating counties, and DBHDD, SSA hopes to address the following research questions:

- Does connection to a SOAR-trained specialist increase the likelihood that a person with SPMI in jail will be approved for SSI/SSDI benefits?
- If a person with SPMI receives SSI/SSDI benefits, are they able to connect to treatment resources that they may not have been able to obtain before?
- If a person with SPMI connects to treatment resources and successfully engages with them, are they able to achieve mental health recovery and stay out of jail?

The respondents are individuals with serious and persistent mental illness incarcerated in county jails in the state of Georgia.

The responsibility of the Department to track and monitor the programmatic and financial performance necessitates a database that can help facilitate this in a consistent and standardized manner. The SAMS Domestic Results Monitoring Module enables enhanced monitoring and evaluation of grants through standardized collection and storage of relevant award elements, such as quarterly progress reports, workplans, results monitoring plans, grant agreements, and other business information related to implementers. The SAMS Domestic Results Monitoring Module streamlines communication with implementers and allows for rapid identification of information gaps for specific projects.
