

company(ies) involved in the transaction.¹⁸

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for the company listed above will be equal to the weighted-average dumping margin established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously reviewed or investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recently-completed segment of this proceeding in which the company was reviewed; (3) if the exporter is not a firm covered in this review, a prior review, or the LTFV investigation, but the producer is, then the cash deposit rate will be the cash deposit rate established in the completed segment for the most recent period for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 16.27 percent, the all-others rate established in the LTFV investigation.¹⁹ These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in

Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: June 26, 2023.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Appendix

List of Topics Discussed in the Preliminary Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Order
- IV. Discussion of the Methodology
- V. Recommendation

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No.: 230612-0147]

Draft Plan for Providing Public Access to the Results of Federally Funded Research

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice; request for public comment.

SUMMARY: The National Institute of Standards and Technology seeks comments on the *Draft NIST Plan for Providing Public Access to the Results of Federally Funded Research*. NIST is taking steps to make its scientific data and publications more readily available and accessible by the public, as directed in an August 2022 memorandum from the Office of Science and Technology Policy. The NIST Public Access Plan applies to the results of research funded wholly or in part by NIST, presented in peer-reviewed scholarly publications and as research data. This document outlines NIST's plan for implementing new requirements to manage the public access of scientific data and publications. Public comments received on the NIST Public Access Plan will inform NIST as it revises its existing directives to implement the updated Plan.

DATES: Responses must be received by 11:59 p.m. Eastern Time on August 14, 2023 to be considered.

ADDRESSES: Comments may be submitted by either of the following methods:

- *Electronic submission:* Submit electronic public comments via the Federal eRulemaking Portal.

1. Go to www.regulations.gov and enter NIST-2023-0002 in the search field.

2. Click the "Comment Now!" icon, complete the required fields.

3. Enter or attach your comments.

- *By email:* Comments in electronic form may also be sent to public-access@nist.gov in any of the following formats: HTML, ASCII, Word, RTF, or PDF.

- *By post:* Comments may be sent by mail to Katherine Sharpless, NIST, 100 Bureau Drive, Stop 4701, Gaithersburg, MD 20899-4701.

Please submit comments only and include your name, organization's name (if any), and cite "NIST Public Access Plan" in all correspondence. Comments containing references, studies, research, and other empirical data that are not widely published should include copies of the referenced materials.

All comments responding to this document will be a matter of public record. Relevant comments will generally be available on the Federal eRulemaking Portal at <https://www.Regulations.gov> and, after the comment period closes, on NIST's website at <https://www.nist.gov/open>. NIST will not accept comments accompanied by a request that part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. Therefore, do not submit confidential business information or otherwise sensitive, protected, or personal information, such as account numbers, Social Security numbers, or names of other individuals.

FOR FURTHER INFORMATION CONTACT: For questions about this notice contact: Katherine Sharpless, Open Access Officer, email address katherine.sharpless@nist.gov, (301) 975-3121. Please direct media inquiries to NIST's Office of Public Affairs at (301) 975-2762.

SUPPLEMENTARY INFORMATION: The National Institute of Standards and Technology (NIST) is one of our Nation's oldest Federal laboratories (for more information, visit www.nist.gov). A bureau in the Department of Commerce, the NIST mission is to promote U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life. From early electrical

¹⁸ For a full discussion of this practice, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

¹⁹ See *Order*.

measurement research to today's quantum information science, NIST has long been, and continues to be, a center for high-impact research meeting the needs of academia, industry, and government. The NIST laboratories conduct world-class research, often in close collaboration with industry, which advances the nation's technology infrastructure and helps U.S. companies continually improve products and services.

NIST publishes this notice to seek comments on the *Draft NIST Plan for Providing Public Access to Results of Federally Funded Research*, posted at www.nist.gov/open. NIST developed a public access plan in response to the February 22, 2013, Office of Science and Technology Policy (OSTP) memorandum *Increasing Access to the Results of Federally Funded Scientific Research* and several White House memoranda (*i.e.*, Office of Management and Budget memoranda M–10–06 *Open Government Directive* and M–13–13 *Open Data Policy—Managing Information as an Asset*). NIST policy was developed from that original plan; NIST's public access policy has been operational since 2015. NIST's original plan and the resultant policy ensured that the integrity of NIST data are maintained throughout their life cycle and increased the visibility of NIST measurements, standards, technology, and research activities.

On August 25, 2022, OSTP issued a new public access memorandum, *Ensuring Free, Immediate, and Equitable Access to Federally Funded Research*. In response to OSTP's 2022 memo, NIST is taking new steps to make its scientific data and publications more readily available and accessible by the public.

The *Draft NIST Plan for Providing Public Access to the Results of Federally Funded Research* applies to the results of research funded wholly or in part by NIST, presented in peer-reviewed scholarly publications and as research data. The document outlines NIST's plan to manage public access to research data and publications in accordance with new recommendations of the 2022 OSTP memo, including the removal of embargo periods for access to publications resulting from NIST-funded work, requiring immediate release of data associated with narrative publications, inclusion of available persistent identifiers in publications, and emphasis on the need for accessibility to users who have disabilities through provision of machine-readable publications. The NIST Public Access Plan was reviewed by the Office of Science and Technology

Policy and the Office of Management and Budget, and those comments have been addressed in the plan being posted for comment.

NIST invites respondents to comment on the following questions that pertain to the implementation NIST's updated public access plan:

- How can NIST ensure equity in publication opportunities?
- How can NIST ensure public access and accessibility to outputs of NIST-funded research?
- How can NIST monitor impacts on affected communities—authors and readers alike?
- How can NIST improve the plan to provide greater public access to NIST-funded research results?

Comments relating to the text of the *Draft NIST Plan for Providing Public Access to the Results of Federally Funded Research* should reference the document by page and line number. All comments must be received in accordance with the **DATES** and **ADDRESSES** sections of the notice above.

Alicia Chambers,

NIST Executive Secretariat.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XD120]

Council Coordination Committee Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of a public meeting; information regarding the agenda.

SUMMARY: The National Marine Fisheries Service, Office of Sustainable Fisheries, will host an interim session of the Council Coordination Committee (CCC), consisting of the Regional Fishery Management Council chairs, vice chairs, and executive directors, on July 17, 2023. The intent of this virtual meeting is to discuss priorities and process for distributing funds provided under the Inflation Reduction Act (IRA) to the Councils for climate-ready fisheries and to describe the agencies planned investment in various scientific data collection, processing, and analysis efforts with IRA funds.

DATES: The meeting will begin at 4 p.m. Eastern Daylight Time (EDT) on Monday, July 17, adjourning at 5:30 p.m. EDT.

ADDRESSES: The meeting will be held online via WebEx. Webinar information to join the meeting can be found at <https://www.fisheries.noaa.gov/national/partners/council-coordination-committee>.

FOR FURTHER INFORMATION CONTACT:

Morgan Corey by email at Morgan.Corey@noaa.gov or at (301) 427–8500.

SUPPLEMENTARY INFORMATION: The IRA is a historic, Federal Government-wide investment that furthers efforts to build a Climate-Ready Nation. NMFS will receive an unprecedented investment to strengthen the agency's core mission to provide science-based management and conservation of the Nation's marine resources as we confront climate change.

During this interim CCC session, NMFS will outline the process for providing IRA funding to the Councils to advance climate-ready fisheries management. Actions funded under IRA for the Councils sub-component will contribute to the following goals: implementation of fishery management measures necessary to improve climate resiliency and responsiveness to climate impacts, and development and advancement of climate-related fisheries management planning and implementation efforts in support of underserved communities.

In addition, NMFS will provide an overview of how IRA funding will be used in the Data Acquisition and Management sub-component. Actions funded under this sub-component will use advanced technologies, including data management, to improve and expand observation and sampling capabilities of critical fish, protected species, ecosystem, and climate data in order to understand where climate-driven shifts in distribution of fish and other key living marine resources are occurring.

The 2007 reauthorization of the Magnuson-Stevens Fishery Conservation and Management Act established the CCC. The CCC consists of the chairs, vice chairs, and executive directors of each of the eight Regional Fishery Management Councils.

Proposed Agenda

Monday, July 17, 2023—4 p.m.–5:30 p.m. EDT

1. Data Acquisition and Management Funding Overview & Discussion
2. Regional Fishery Management Councils Funding Overview & Discussion
3. Public Comment
4. Close of Meeting
