

**Abstract:** The STOP Violence Against Women Formula Grants Program was authorized through the Violence Against Women Act of 1994 (VAWA) and amended and reauthorized in 2000, 2005, 2013 and 2022. The STOP (Services, Training, Officers, and Prosecutors) Violence Against Women Formula Grant Program funding is awarded to States and Territories. It enhances the capacity of local communities to develop and strengthen effective law enforcement and prosecution strategies to combat domestic violence, dating violence, sexual assault and stalking and to develop and strengthen comprehensive, holistic victim services. The grant funds must be distributed by STOP State administrators to subgrantees according to a statutory formula. The Department of Justice's Office on Violence Against Women administers the STOP Formula Grant Program funds which are awarded to States and territories to enhance the capacity of local communities to develop and strengthen effective law enforcement and prosecution strategies to combat violent crimes against women and to develop and strengthen victim services in cases involving violent crimes against women. Each State and territory must allocate 25 percent for law enforcement, 25 percent for prosecutors, 30 percent for victim services (of which at least 10 percent must be distributed to culturally

specific community-based organizations), 5 percent to State and local courts, and 15 percent for discretionary distribution. VAWA provides for a 25 percent match requirement imposed on grant funds under the STOP Formula Grant Program. Thus, a grant made under this program may not cover more than 75 percent of the total costs of the project being funded. Under VAWA 2005, the State cannot require matching funds for a grant or subgrant for any Tribe, Territory, or victim service provider, regardless of funding allocation category. The State is exempted from matching the portion of the State award that goes to a victim service provider for victim services or that goes to Tribes. Territories are also exempted in full. States can receive additional waiver of match based on a petition to OVW and a demonstration of financial need. OVW will look at the time of closeout at the entities and purposes of funds and base the required match. The purpose of this information collection is to provide a worksheet for documenting the amount of matching funds required at the closeout of a specific fiscal year award under the STOP Formula Grant Program. The type of questions on the worksheet will include award number, award amount, amount of funds sub-awarded to victim service providers for victim services or to Tribes.

**Abstract:** The Controlled Substances Act (CSA) (21 U.S.C. 801–971) establishes a closed system of distribution for controlled substances. To this end, controlled substances are closely monitored and tightly regulated as they are distributed through the supply chain. One tool that helps to maintain the closed system of distribution is the CSA provision that states it “shall be unlawful for any person to distribute a controlled substance in schedules I or II to another except in pursuance of a written order of the person to whom such substance is distributed, made on a form to be issued by the Attorney General in blank in accordance with subsection (d) of this section.” 21 U.S.C. 828(a).
