

reminders should be available in an online self-service portal and sent by email and/or by text message, according to user preferences.

Developing and Improving Online Processes

19. When designing and implementing online processes, especially before making them mandatory, agencies should consult potential users and relevant stakeholders, including parties, representatives, adjudicators and adjudicative staff, agency personnel who represent the government in adjudicative proceedings, and personnel who provide customer service or oversee customer experience functions for the agency. Agencies should also continuously solicit feedback from users on their online processes, for example through online surveys and listening sessions, and should use that feedback to identify and prioritize improvements.

20. When designing or working with a contractor to design their online processes, agencies should create systems that can be expanded to incorporate new technologies without requiring replacement.

21. Agencies should ensure that their online processes function on multiple platforms including, when practicable, mobile devices.

Guidance, Training, and Outreach

22. Agencies should update their rules of practice to permit or, when appropriate, require the use of online processes.

23. Agencies should develop self-help materials (e.g., instruction manuals, reference guides, instructional videos) and, if needed, hold training sessions to help agency personnel and the public understand how to use the agency's online processes. Materials intended for the public should be posted in an appropriate location on the agency's website and made accessible through any online self-help portal.

24. Agencies should conduct public outreach if needed to encourage parties and representatives to use their online processes, even prior to making an online process mandatory.

25. Agencies should make staff available to assist all users of the agency's online processes, including agency personnel, and should inform users when such assistance is available (e.g., during normal business hours).
