SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the

information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Mortgage Insurance Termination Application for Premium Refund, Tracer Claimant Refund Case Request.

OMB Approval Number: OMB–2502–0414.

OMB Expiration Date: 12/31/2023.

Type of Request: Revision of currently approved OMB collection.

Form Number: Mortgage Insurance Termination HUD–27050–A is submitted electronically; Application for Premium Refund HUD–27050–B.

Description of the need for the information and proposed use: Mortgage Insurance Termination information is used by servicing mortgagees to comply with HUD requirements for reporting termination of FHA mortgage insurance. This information is used whenever FHA mortgage insurance is terminated and no claim for insurance benefits will be filed. This information is submitted on the internet or via EDI and is used to issue mortgage insurance premium (MIP) refunds directly to eligible

claimants. This condition occurs when the form passes the criteria of certain system edits. As a result, the system generates a disbursement to the eligible claimant for the refund consisting of the unused portion of the paid premium. The information collected is used to update HUD’s Single Family Insurance System. The billing of mortgage insurance premiums is discontinued as a result of the transaction. Without this information, the premium collection/monitoring function would be severely impeded and program data would be unreliable. Currently when the form is processed but does not pass the criteria in the series of system edits, the system generates the HUD 27050–B Application for Premium Refund for the claimant to complete and return to HUD for further processing of the refund. In general, a Premium Refund is the difference between the amount of prepaid premium and the amount of the premium that has been earned by HUD up to the time the mortgage is terminated. The Tracer Claimant Refund Case Request is used to collect information on the claimant from the tracer.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Disclosure of Adjustable Rate Mortgage (ARM) Rates.

OMB Approval Number: 2502–0322.

OMB Expiration Date: 8–31–2023.

Type of Request: Extension.

Form Number: None.

Description of the need for the information and proposed use: Mortgage lenders must provide loan applicants wishing to obtain an FHA-insured Adjustable Rate Mortgage (ARM) with a pre-loan disclosure that includes a written explanation of the ARM loan features. Loan servicers must also provide mortgagors with adjustable rate mortgages an annual ARM Disclosure Notice at least 25 days before any adjustment to a mortgagor’s monthly payment may occur, advising the

borrower of the new interest rate, the new monthly payment, index value and how the adjustment was calculated. Lenders generate the ARM Disclosures electronically and generally provide these disclosures on paper to their borrowers or in electronic formats. HUD collects the pre-loan ARM disclosure as part of the origination case binder. HUD may collect post-closing ARM disclosures as part of HUD’s program monitoring and enforcement activities, e.g., when a loan is selected for HUD’s post-endorsement quality review, or the lender sends the file to HUD for claim. HUD may review collected disclosures to ensure compliance with the ARM disclosure requirements.

Respondents: Lenders.

Estimated Number of Respondents: 2,250.

Estimated Number of Responses: 60,401.

Frequency of Response: One per FHA-insured adjustable rate loan.

Average Hours per Response: .05.

Total Estimated Burden: 3,020.

DEPARTMENT OF JUSTICE

Notice of Proposed Modification of Consent Decree Under the Clean Water Act

On June 29, 2023, the Department of Justice lodged a proposed First Modification of Consent Decree (“Modification”) in the United States District Court for the District of Puerto Rico in the lawsuit entitled *United States v. Puerto Rico Aqueduct and Sewer Authority*, No. 3:15–CV–02283. In this action, filed on September 15, 2015, the United States alleged that the Puerto Rico Aqueduct and Sewer Authority (“PRASA”) had violated the Clean Water Act (“CWA”), 33 U.S.C. 1251, *et seq.*, with regard to 52 PRASA wastewater treatment plants (“WWTPs”) and their associated wastewater collection systems, 768 wastewater pump stations, 119 water treatment plants (“WTPs”), and PRASA’s Puerto Nuevo Regional WWTP Sewer System (“Puerto Nuevo Sewer System”), the sewer system that services San Juan. On May 23, 2016, the United States District Court for the District of Puerto Rico entered a Consent Decree (“Decree”) that required extensive injunctive relief. The Modification makes certain changes to the requirements of the Decree, including granting extensions of time for PRASA to complete certain projects. The most significant revisions of the Decree are as follows:

The Decree required PRASA to implement six projects to address washwater discharges from drinking water treatment plants by various deadlines from December 2017 to December 2020. PRASA has not completed one of these projects. The deadline for this project has been extended to May 31, 2027.

The Decree required PRASA to implement 17 projects to address various problems in its sanitary wastewater system by various dates from December 2015 to December 2020. PRASA has completed ten of these projects. The Modification provides an extension of time for seven of the projects with new deadlines ranging from December 31, 2023, to December 31, 2028.

The Decree required that PRASA implement a Sewer System Reconnaissance involving the inspection and cleaning of the sewers located in the Puerto Nuevo Sewer System. The Modification extends certain of the deadlines for these projects and establishes deadlines for other aspects of these projects.
