

change in the oversight of LDTs at this time, the DoD has determined that continuation of the LDT demonstration for an additional five years is necessary to provide TRICARE beneficiaries and their health care providers with seamless access to safe and effective, medically necessary tests, as determined by TRICARE, to support health care decisions and treatment.

Health care costs projected for the LDT demonstration over the five-year extension (Fiscal Year (FY) 2023–FY 2028) are \$198.8 million (M) and \$2.1M in administrative costs for all contracts combined. Because all managed care support contractors currently have systems in place for the LDT demonstration, no additional start-up costs are anticipated for this five-year extension.

During the next five years, the DHA will continue to evaluate the LDT examination and recommendation process to assess feasibility, resource requirements, and the cost-effectiveness of establishing an internal safety and efficacy review process to permit TRICARE cost-sharing for an ever-expanding pool of non-FDA-approved LDTs, including tests for cancer risk, diagnosis, and treatment; blood and clotting disorders; a variety of genetic diseases and syndromes; and neurological conditions. The results of the evaluation will provide an assessment of the potential improvement of the quality of health care services for beneficiaries who would not otherwise have access to tests that meet TRICARE requirements for safety and effectiveness. Based on the results of the demonstration evaluation, and status of the regulatory oversight of LDTs, a recommendation will be made on whether to modify 32 CFR 199.4(g)(15) to permit TRICARE cost-sharing of non-FDA approved LDTs that are found to meet TRICARE requirements for safety and effectiveness. Our intent is for the LDT demonstration to conclude at the end of this five-year extension. Should the FDA issue final guidance on LDTs and/or enforce the requirement for clearance or premarket approval for LDTs, the Director, DHA will modify or terminate the LDT demonstration, as appropriate, and the DoD will ensure compliance with applicable federal law and regulations.

The LDT demonstration continues to be authorized by 10 U.S.C. 1092.

Tests Determined To Be Suitable for Use in the National Reporting System for Adult Education

AGENCY: Office of Career, Technical, and Adult Education, Department of Education.

ACTION: Notice.

SUMMARY: The Secretary announces tests, test forms, and delivery formats that the Secretary determines to be suitable for use in the National Reporting System for Adult Education (NRS). This notice relates to the approved information collections under OMB control numbers 1830–0027 and 1830–0567.

FOR FURTHER INFORMATION CONTACT: John LeMaster, Department of Education, 400 Maryland Avenue SW, Room 10–223, Potomac Center Plaza, Washington, DC 20202–7240. Telephone: (202) 245–6218. Email: John.LeMaster@ed.gov.

SUPPLEMENTARY INFORMATION: On January 14, 2008, and as amended on August 19, 2016, we published in the **Federal Register** final regulations for 34 CFR part 462, Measuring Educational Gain in the National Reporting System for Adult Education (NRS regulations) (73 FR 2305, January 14, 2008, as amended at 81 FR 55552, August 19, 2016). The NRS regulations established the process the Secretary uses to determine the suitability of tests for use in the NRS by States and local eligible providers. We annually publish in the **Federal Register**, and post on the internet at www.nrsweb.org, a list of the names of tests and the educational functioning levels the tests are suitable to measure in the NRS as required by § 462.12(c)(2).

On August 7, 2020, the Secretary published in the **Federal Register** (85 FR 47952) an annual notice consolidating information from previous notices that announced tests determined to be suitable for use in the NRS, in accordance with § 462.13 (August 2020 notice). Also, in the August 2020 notice, the Secretary announced that ESL tests and test forms approved for an extended period through February 2, 2021, are approved for an additional extended period through February 2, 2023, and that an Adult Basic Education (ABE) test and test forms previously approved for a three-year period through March 7, 2021, are approved for an extended period through March 7, 2023.

On December 6, 2021, the Secretary published in the **Federal Register** (86 FR 69021), an annual notice with the same list of approved tests and test forms as was published in the August 2020 notice (December 2021 notice).

On September 23, 2022, the Secretary published in the **Federal Register** (87 FR 58078) an annual notice announcing that English as a Second Language (ESL) tests and test forms previously approved for an extended period through February 2, 2023, are approved for an additional extended period through February 2, 2024, and that an ABE test and test forms previously approved for an extended period through March 7, 2023, are approved for an additional extended period through March 7, 2024.

In this notice, the Secretary announces new tests that have been

determined to be suitable for use in the NRS, in accordance with § 462.13. Three tests measure the NRS educational functioning levels for ABE at the ABE levels specified in this notice, and four tests measure the new NRS educational functioning levels for ESL at the ESL levels specified in this notice. With the Secretary's approval of the new ESL tests in this notice, the new educational functioning levels for ESL described in Appendix A of Measures and Methods for the National Reporting System for Adult Education (OMB Control Number: 1830–0027) are now implemented.

The new tests announced in this notice have been determined to be suitable for use in the NRS for a period of either seven or three years. A seven-year approval requires no additional action on the part of the publisher, unless the Department later determines that the information the publisher submitted as a basis for the Secretary's review was inaccurate or that the test has been substantially revised. A three-year approval is issued with a set of conditions that must be met by the completion of the three-year time period. If these conditions are met, the test is approved for continued use in the NRS. If these conditions are not met, the test will not be approved for continued use in the NRS.

Under the transition rules in § 462.4, the Secretary also announces in this notice a list of tests with NRS approvals expiring on February 2, 2024, and March 7, 2024, which States and local eligible providers may continue to use during a sunset period ending on June 30, 2024. The ESL educational functioning level descriptors to which the ESL tests with expiring NRS approvals are aligned will be retired on June 30, 2024. Until that time, for the program year which begins on July 1, 2023, and ends on June 30, 2024, both the current ESL educational functioning level descriptors and the new ESL educational functioning level descriptors will be in effect. States must use an ESL assessment that is aligned to the appropriate ESL educational functioning level descriptors.

Adult education programs must use only the forms and computer-based delivery formats for the tests approved in this notice. If a particular test form or computer delivery format is not explicitly specified for a test in this notice, it is not approved to measure educational gain in the NRS.
