On February 14, 2023, we published in the **Federal Register** (88 FR 9532) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on April 17, 2023. In an effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests (ICR), the Service also published the **Federal Register** notice on [Regulations.gov](https://www.regulations.gov) (Docket No. FWS–HQ–FAC–2023–0002) to provide the public with an additional method to submit comments (in addition to the typical Info_Coll@fws.gov email and U.S. mail submission methods). We received no comments in response to that notice.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also

helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Lacey Act (Act; 18 U.S.C. 42) prohibits the importation of any animal deemed to be and prescribed by regulation to be injurious to:

- Human beings;
- The interests of agriculture, horticulture, and forestry; or
- Wildlife or the wildlife resources of the United States.

Implementation and enforcement of the Lacey Act are the responsibility of the Department of the Interior. The implementing regulations at 50 CFR 16.13 allow for the importation of dead unviscerated salmonids (family Salmonidae), live salmonids, live fertilized eggs, or gametes of salmonid fish into the United States. To effectively carry out our responsibilities and protect the aquatic resources of the United States, we must collect information regarding the source, destination, and health status of salmonid fish and their reproductive parts. Moreover, in order to evaluate

import requests, we must be able to ascertain that the collected information is accurate. Individuals who provide the fish health data and sign the health certificates must demonstrate professional qualifications and be approved as Title 50 Certifiers by the Fish and Wildlife Service through an application process.

We use three forms to collect this Title 50 Certifier application information:

- FWS Form 3–2273 (Title 50 Certifying Official Form)—New applicants and those seeking recertification as a title 50 certifying official provide information so that we can assess their qualifications.
- FWS Form 3–2274 (Title 50 Certification Form)—Certifying officials use this form to affirm the health status of the fish or fish reproductive products to be imported.
- FWS Form 3–2275 (Title 50 Importation Request Form)—We use the information on this form to track and control importations and to ensure the safety of shipments.

Proposed Revisions

With this submission, we propose to modify Forms 3–2274 and 3–2275 to add fields to collect email addresses and contact phone numbers with each submission. We do not plan to revise Form 3–2273, which already collects this information. We also plan to begin publishing, with OMB approval, the results of this information collection for Form 3–2273 on a publicly accessible, Service-managed web page to inform importers of Certified Signing Officials by country of origin.

The public may request copies of any form or document contained in this information collection by sending a request to the Service Information Collection Clearance Officer in **ADDRESSES**, above.
