Proposed Prospective Purchaser Agreement for the Delphi 1 Anderson Site in Anderson, Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with the Prospective Purchaser Agreement, notice is hereby given of a proposed administrative settlement concerning Delphi 1 Anderson Site in Anderson, Indiana with the following Settling Party: J. Jarvis Holdings, LLC. The settlement requires the Settling Party to, if necessary, execute and record a Declaration of Restrictive Covenant; provide access to the Site and exercise due care with respect to existing contamination. The settlement includes a covenant not to sue the Settling Party pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act or the Resource Conservation and Recovery Act with respect to the Existing Contamination. Existing Contamination is defined as any hazardous substances, pollutants, or contaminants or Waste Material present or existing on or under the Property as of the Effective Date of the Settlement Agreement; any hazardous substances, pollutants, or contaminants or Waste Material that migrated from the Property prior to the Effective Date; and any hazardous substances, pollutants, or contaminants or Waste Material presently at the Site that migrates onto, on, under, or from the Property after the Effective Date. For thirty (30) days following the date of publication of this notice, the Agency

will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The proposed settlement is available for public inspection at <https://www.regulations.gov>. The Agency's response to any comments received will be available for public inspection at the EPA, Region 5, Records Center, 77 W. Jackson Blvd., 7th Fl., Chicago, Illinois 60604. Commenters may request an opportunity for a public hearing in the affected area, in accordance with Section 7003(d) of RCRA.

[FRL-10978-01-R3]

Clean Water Act: Identification of Water Quality-Limited Segments To Be Added to West Virginia's Section 303(d) List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Public notice.

SUMMARY: The Clean Water Act (CWA) requires that states periodically submit, and the Environmental Protection Agency (EPA) approve or disapprove, lists of waters (called "Section 303(d) lists") for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards and for which total maximum daily loads (TMDLs) must be prepared. Waters identified on Section 303(d) lists are called "water quality-limited segments." This notice announces the EPA's identification of certain additional water quality-limited segments for West

Virginia's Combined 2018-2020-2022 Section 303(d) list and requests public comment on those additions.

DATES: Comments must be received on or before August 18, 2023.

ADDRESSES: You may send written comments to Mr. Gregory Voigt by the following methods:

- **Electronic mail:** voigt.gregory@epa.gov. Include 'FRL-10978-01-R3 comment' in the subject line of the message.

- **Mail:** Mr. Gregory Voigt, Mail Code 3WD42, U.S. Environmental Protection Agency Region 3 Water Division, Four Penn Center, 1600 John F. Kennedy Blvd., Philadelphia, PA 19103-2029.

FOR FURTHER INFORMATION CONTACT: Mr. Gregory Voigt, Water Division Standards and TMDL Section, 3WD42, Environmental Protection Agency at voigt.gregory@epa.gov or (215) 814-5737. Additional information regarding the basis for this EPA action is available at <https://www.epa.gov/tmdl/wv-303d-list-public-notice>.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act requires that each state identify those water quality-limited segments for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards and for which total maximum daily loads (TMDLs) must be prepared. For each water quality-limited segment on the list, the state identifies the pollutant causing the impairment, when known. In addition, the state assigns a priority ranking for development of TMDLs based on the severity of the pollution and the uses to be made of the waters, among other factors (40 CFR 130.7(b)(4)).

The EPA's Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require states to assemble and evaluate all existing and readily-available water quality data and to use that data to identify water quality-limited segments still requiring TMDLs every two years. Where a state does not use certain data, it must provide a rationale. The list of waters still needing TMDL development must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7).

The EPA received West Virginia's submittal of its listing decisions under Section 303(d)(2) on May 5, 2023. On June 1, 2023, the EPA partially approved and partially disapproved West Virginia's Combined 2018-2020-2022 Section 303(d) list of water
