

public interest does not preclude issuance the requested LEO and CDOs. Smoore also sought a bond during the period of Presidential review in the amount of one hundred percent (100%) of the entered value of the infringing articles. With respect to the Commission's review of findings and orders as to Glo Extracts, OUII argued that Smoore was not properly served with the show cause order (Order No. 40) and therefore could not be found to be in default. In contrast, Smoore argued that the Commission should find Glo Extracts to be in default because Smoore had properly served Glo Extracts with the Amended Complaint, Notice of Investigation, Smoore's motion for summary determination, and Orders from this investigation. On May 15, 2023, Smoore filed a reply to OUII's response.

Having examined the record of this investigation, including the parties' submissions, the Commission has determined to find Glo Extracts in default. Specifically, the Commission finds that the conditions set forth in section 337(g)(1)(A)–(E) (19 U.S.C. 1337(g)(1)(A)–(E)) have been satisfied, and section 337(g)(1) directs the Commission, upon request, to issue an LEO or a CDO on both against a respondent found in default, based on the allegations regarding a violation of section 337 in the complaint, which are presumed to be true, unless after consideration of the public interest factors in section 337(g)(1), it finds that such relief should not issue. As discussed in the attached opinion, Smoore made multiple attempts to serve the show cause order on Glo Extracts. Assuming for the sake of argument that there was no service of the show cause order on Glo Extracts, the Commission waives Rule 201.16 requiring service in view of the particular circumstances here. See 19 CFR 201.4(b). Concurrent with this notice, the Commission is issuing an opinion with further explanation of its determination.

The Commission has further determined pursuant to subsection 337(g)(1) that the appropriate remedy in this investigation is: (1) an LEO prohibiting the unlicensed entry of certain oil-vaping cartridges, components thereof, and products containing the same that are imported by or on behalf of the Defaulting Respondents that infringe the '060 mark; and (2) CDOs against all of the Defaulting Respondents. The Commission has also determined that the public interest factors enumerated in subsection 337(g)(1) do not preclude the issuance of the LEO and CDOs. The Commission has further determined that

the bond during the period of Presidential review pursuant to section 337(j) (19 U.S.C. 1337(j)) shall be in the amount of one hundred percent (100%) of the entered value of the infringing articles. The investigation is terminated.

While temporary remote operating procedures are in place in response to COVID-19, the Office of the Secretary is not able to serve parties that have not retained counsel or otherwise provided a point of contact for electronic service. Accordingly, pursuant to Commission Rules 201.16(a) and 210.7(a)(1) (19 CFR 201.16(a), 210.7(a)(1)), the Commission orders that the Complainant(s) complete service for any party/parties without a method of electronic service noted on the attached Certificate of Service and shall file proof of service on the Electronic Document Information System (EDIS).

The Commission's vote for this determination took place on July 13, 2023.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.
