SUPPLEMENTARY INFORMATION:

Description: As part of the BASE project, OPRE is evaluating the implementation, impacts, and costs of two initiatives designed to improve the wages and economic well-being of the CCEE workforce in Colorado. Colorado Department of Early Childhood (CDEC) is implementing two initiatives to improve the compensation and economic well-being of the CCEE workforce: (1) eligible CCEE center-based settings are randomly selected through a lottery process, and (2) eligible home-based CCEE settings receive additional funding and supports. OPRE proposes to collect survey, interview, and cost data to understand: (a) the implementation and costs of the initiatives, (b) the effects of the initiative for teachers in center-based CCEE settings, and (c) the experiences of directors and teachers in center-based CCEE settings and owners and caregivers in home-based CCEE settings with the initiatives. The study will include CCEE workers who are offered the initiatives and those who are not, as assigned through CDEC's lottery, and key informants who are involved in the design and implementation of CDEC's initiatives. The effectiveness of the initiative will be determined by differences between members of the intervention and control groups for hypothesized outcomes in center-based CCEE settings. The experiences of directors/owners, teachers, and caregivers in center-based and home-based CCEE settings with the initiatives will be explored with qualitative and descriptive analyses. OPRE and Colorado are collaborating to evaluate the two initiatives. Colorado will collect baseline survey data and share it with OPRE. OPRE will collect follow-up surveys and interviews. Study participants will complete follow-up surveys approximately 9 and 18 months after the initiatives begin to understand how strategies that aim to improve compensation might improve outcomes such as workforce recruitment, retention, and economic and psychological well-being, as well as to capture contextual information about CCEE settings' working conditions and job demands and supports. Interviews will be conducted approximately 6 to 9 months after the initiatives began with center-based teachers/home-based caregivers and center-based directors/home-based owners to capture their experiences with the initiatives, perceptions, attitudes, beliefs about the initiatives, and how these experiences may shape the viability and implementation of the initiatives.
