

the project and how the proposed performance measure would be consistent with the performance measures established for the program funding the competition.

(2) Baseline (as defined in this notice) data. (i) Why each proposed baseline is valid; or (ii) if the applicant has determined that there are no established baseline data for a particular performance measure, an explanation of why there is no established baseline and of how and when, during the project period, the applicant would establish a valid baseline for the performance measure.

(3) Performance targets. Why each proposed performance target is ambitious yet achievable compared to the baseline for the performance measure and when, during the project period, the applicant would meet the performance target(s).

Applications must also provide the following information as directed under 34 CFR 75.110(c):

(1) Data collection and reporting. (i) The data collection and reporting methods the applicant would use and why those methods are likely to yield reliable, valid, and meaningful performance data; and (ii) the applicant's capacity to collect and report reliable, valid, and meaningful performance data, as evidenced by high-quality data collection, analysis, and reporting in other projects or research.

Depending on the nature of the intervention proposed in the application, common metrics may include the following: college-level math and English course completion in the first year (developmental education); unmet financial need (financial aid); program of study selection in the first year (advising); post-transfer completion (transfer); and re-enrollment (degree reclamation).

These measures constitute the Department's indicators of success for this program. Consequently, we advise an applicant for an award under this program to consider the operationalization of the measures in conceptualizing the approach and evaluation for its proposed project.

If funded, you will be required to collect and report data in your project's annual performance report (34 CFR 75.590).

SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the Technical Assistance on State Data Collection program is to improve the capacity of States to meet the Individuals with Disabilities Education Act (IDEA) data collection and reporting requirements. Funding for the program is authorized under section 611(c)(1) of IDEA, which gives the Secretary authority to reserve not more than 1/2 of 1 percent of the amounts appropriated under Part B for each fiscal year to provide technical assistance (TA) activities, where needed, to improve the capacity of States to meet the data collection and reporting requirements under Parts B and C of IDEA. The maximum amount the Secretary may reserve under this set-aside for any fiscal year is \$25,000,000, cumulatively adjusted by the rate of inflation. Section 616(i) of IDEA requires the Secretary to review the data collection and analysis capacity of States to ensure that data and information determined necessary for implementation of section 616 of IDEA are collected, analyzed, and accurately reported to the Secretary. It also requires the Secretary to provide TA, where needed, to improve the capacity of States to meet the data collection requirements, which include the data collection and reporting requirements in sections 616 and 618 of IDEA. In addition, the Consolidated Appropriations Act, 2023, Public Law 117-328, gives the Secretary authority to use funds reserved under section 611(c) of IDEA to “administer and carry out other services and activities to improve data collection, coordination, quality, and use under Parts B and C of the IDEA.” Consolidated Appropriations Act, 2023, Public Law 117-328, Div. H, Title III, 136 Stat. 4459, 4891 (2022).

Priority: This competition includes one absolute priority. This priority is from the notice of final priority and

requirements (NFP) for this program published elsewhere in this issue of the **Federal Register**.

Absolute Priority: For FY 2023 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

National Technical Assistance Center To Improve State Capacity To Collect, Report, Analyze, and Use Accurate IDEA Data To Address Significant Disproportionality

Background:

Under sections 616 and 618 of IDEA, States are required to collect, report, analyze, and use data regarding students with disabilities. These activities are intended to support improved educational results and functional outcomes for all children with disabilities, and to ensure that States meet IDEA requirements, with an emphasis on those requirements most closely related to improving educational results for children with disabilities. Additionally, IDEA section 618(d) requires States and the Department of the Interior to collect and examine data to determine if significant disproportionality on the basis of race and ethnicity is occurring in the State and the local educational agencies (LEAs) of the State with respect to (1) identification of children as children with disabilities, including by disability category; (2) placement of children with disabilities by educational settings; and (3) the incidence, duration, and type of disciplinary actions, including suspensions and expulsions. There are 98 separate factors for determining whether significant disproportionality exists in an LEA (*i.e.*, 14 categories of analysis with respect to identification, placement, and disciplinary removal, cross-tabulated with seven racial and ethnic groups).

In December 2016, the Department published a final rule¹ on significant disproportionality in special education to further clarify the statute. The final rule established a standard methodology that State educational agencies (SEAs) must use to determine whether significant disproportionality on the
