

a nominal inlet water temperature of 140 °F (60 °C), and  
 $k$  = conversion factor from lb to g = 453.6 g/lb.

**Main Wash Detergent Dosing.** Determine the quantity of dry main wash detergent,  $D_{mw}$ , in grams (g) that results in 0.25 percent concentration by mass in the main wash fill water as:

$$D_{mw} = V_{mw} \times \rho \times k \times 0.25/100$$

where,

$V_{mw}$  = the main wash fill volume of water in gallons, and

$\rho$  and  $k$  are as defined above.

For dishwashers that do not have a direct water line,  $V_{mw}$  is equal to the manufacturer reported water capacity used in the main wash stage of the test cycle.

2.5.2.1.2 *Dosage based on number of place settings.* Determine detergent dosage as specified in sections 2.10 and 2.10.1 of AHAM DW-1-2020.

2.5.2.2 *Dosage for water re-use system dishwashers.* Determine detergent dosage as specified in section 2.10.2 of AHAM DW-1-2020.

#### 2.5.3 *Detergent Placement.*

Prewash and main wash detergent must be placed as specified in sections 2.10 and 2.10.1 of AHAM DW-1-2020. For any dishwasher that does not have a main wash detergent compartment and the manufacturer does not recommend a location to place the main wash detergent, place the main wash detergent directly into the dishwasher chamber.

### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA-2022-0197; Airspace Docket No. 21-AAL-17]

RIN 2120-AA66

#### Amendment of United States Area Navigation (RNAV) Route T-226; Central, AK

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action amends United States Area Navigation (RNAV) route T-226 in the vicinity of Central, AK, in support of a large and comprehensive T-route modernization project for the state of Alaska.

**DATES:** Effective date 0901 UTC, October 5, 2023. The Director of the Federal

Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

**ADDRESSES:** A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at [www.regulations.gov](http://www.regulations.gov) using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at [www.faa.gov/air\\_traffic/publications/](http://www.faa.gov/air_traffic/publications/). You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

**FOR FURTHER INFORMATION CONTACT:** Steven Roff, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

#### SUPPLEMENTARY INFORMATION:

##### Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it expands the availability of RNAV in Alaska and improves the efficient flow of air traffic within the National Airspace System (NAS) by lessening the dependency on ground-based navigation.

##### History

The FAA published an NPRM for Docket No. FAA-2022-0197 in the **Federal Register** (87 FR 13666; March 10, 2022), amending RNAV route T-226 in the vicinity of Central, AK, in support of a large and comprehensive T-route modernization project for the state of

Alaska. Interested parties were invited to participate in this rulemaking effort by submitting comments on the proposal. One positive comment was received.

The commenter supported the FAA's Next Generation Transportation System (NextGen) NAS transition efforts and the proposal to remove the waypoints (WP) not required for T-226 in the affected areas in the State of Alaska. The commenter offered that the FAA's actions were beneficial to improving compliance results, creating a better safety culture, and preventing accidents along the air routes. The commenter closed with support for the FAA's approval of the proposed action.

##### Incorporation by Reference

United States Area Navigation Routes are published in paragraph 6011 of FAA Order JO 7400.11 Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

##### The Rule

This action amends 14 CFR part 71 by amending RNAV route T-226 in the vicinity of Central, AK, in support of a large comprehensive T-route modernization project for the state of Alaska. The amendment is described below.

T-226: T-226 extends between the Johnstone Point, AK, Very High Frequency (VHF) Omnidirectional Range/Distance Measuring Equipment (VOR/DME) and the Fort Yukon, AK, VHF Omnidirectional Range/Tactical Air Navigation (VORTAC) navigational aid. This action removes the FIDAL, AK; ROBES, AK; KLUNG, AK; DOZEY, AK; PAXON, AK; and DONEL, AK, Fixes and the HEXAX, AK, WP from the route description since they are not required to retain the route's structure. The Fixes and WP will remain in the National Airspace System Resource database and continue to be depicted on IFR En Route charts.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**

The FAA has determined that this airspace action of amending RNAV route T-226 in the vicinity of Central, AK, qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5-6.5a, which categorically excludes from

further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points), and paragraph 5-6.5i, which categorically excludes from further environmental review the establishment of new or revised air traffic control procedures conducted at 3,000 feet or more above ground level (AGL); procedures conducted below 3,000 feet AGL that do not cause traffic to be routinely routed over noise sensitive areas; modifications to currently approved procedures conducted below 3,000 feet AGL that do not significantly increase noise over noise sensitive areas; and increases in minimum altitudes and landing minima. As such, this action is not expected to result in any potentially significant environmental impacts. In accordance with FAA Order 1050.1F, paragraph 5-2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. Accordingly, the FAA has determined that no extraordinary circumstances exist that warrant

preparation of an environmental assessment or environmental impact study.

**List of Subjects in 14 CFR Part 71**

Airspace, Incorporation by reference, Navigation (air).

**The Amendment**

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

**PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS**

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

**§71.1 [Amended]**

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

*Paragraph 6011 United States Area Navigation Routes.*

\* \* \* \* \*

**T-226 Johnstone Point, AK (JOH) to Fort Yukon, AK (FYU) [Amended]**

Johnstone Point, AK (JOH)	VOR/DME	(Lat. 60°28'51.43" N, long. 146°35'57.61" W)
Gulkana, AK (GKN)	VOR/DME	(Lat. 62°09'13.51" N, long. 145°26'50.51" W)
Big Delta, AK (BIG)	VORTAC	(Lat. 64°00'16.06" N, long. 145°43'02.09" W)
Fort Yukon, AK (FYU)	VORTAC	(Lat. 66°34'27.31" N, long. 145°16'35.97" W)

\* \* \* \* \*

Issued in Washington, DC, on July 24, 2023.
