

contractors listed in this notice, where this system of records is maintained, is controlled and monitored by security personnel who check each individual entering the building for his or her employee or visitor badge.

In accordance with the Department's Administrative Communications System Directive ACSD-OFO-013 entitled "Contractor Employee Personnel Security Screenings," all contract personnel who have facility access and system access are required to undergo a security clearance investigation.

Individuals requiring access to Privacy Act records are required to hold, at a minimum, a moderate-risk security clearance level. These individuals are required to undergo periodic screening at five-year intervals.

In addition to conducting security clearances, contract and Department employees are required to complete security awareness training on an annual basis. Annual security awareness training is required to ensure that contract and Department users are appropriately trained in safeguarding Privacy Act records.

The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need-to-know" basis and controls individual users' ability to access and alter records within the system. All users of this system of records are given a unique user identification and password. The Department's Information Technology (IT) Identification and Authentication (IA) Standard requires the enforcement of a complex password policy. In addition to the enforcement of a complex password policy, users are required to change their password at least every 90 days or based on the Zero Trust Strategy/Plan in accordance with the Department's IT IA standards.

In accordance with the Federal Information Security Management Act of 2002 (FISMA), as amended by the Federal Information Security Modernization Act of 2014, every Department system must receive a signed Authorization to Operate (ATO) from a designated Department official. The ATO process includes a rigorous assessment of security and privacy controls, a plan of actions and milestones to remediate any identified deficiencies, and a continuous monitoring program.

FISMA controls implemented comprise a combination of management, operational, and technical controls, and include the following control families: access control, awareness and training,

audit and accountability, assessment, authorization, and monitoring, configuration management, contingency planning, identification and authentication, incident response, maintenance, media protection, physical and environmental protection, planning, program management, personnel security, personally identifiable information processing and transparency, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and supply chain risk management.

All of the Federal Loan Servicers, NFP Federal Loan Servicers, the Federal Perkins Loan Servicer, PCAs, and other contractors, as listed in "SYSTEM LOCATION," undergo FISMA security authorizations. In addition, access is monitored 24 hours per day, 7 days a week.

### Federal Energy Regulatory Commission

[Docket No. CP23-518-000]

#### NFEnergía LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on July 18, 2023, NFEnergía LLC (NFEnergía), 111 W 19th Street, New York, New York 10011, filed a request under section 3 of the Natural Gas Act (NGA), and part 153 of the Commission's regulations requesting authorization to permit construction and interconnection of a new pipeline at its MFH Facility located at the Port of San Juan, Puerto Rico (Project). NFEnergía states that the U.S. Army Corps of Engineers' (USACE) emergency temporary generation project, located adjacent to the Puerto Rico Electric Power Authority's San Juan Power Plant, must interconnect to an existing, available blind flange MFH Facility in order for that project to meet its objectives timely. Thus, NFEnergía seeks authorization to construct an interconnection of approximately 220 feet of 10-inch-diameter pipeline to an existing, available blind flange at the MFH Facility in order to deliver natural gas to USACE's project. NFEnergía avers that the existing capacity at the MFH Facility is adequate to make available the fuel necessary to support the temporary power generation, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page ([www.ferc.gov](http://www.ferc.gov)) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room. For assistance, contact the Federal Energy Regulatory Commission at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or call toll-free, (886) 208-3676 or TTY (202) 502-8659.

Any questions regarding the proposed project should be directed to Cameron MacDougall, General Counsel, NFEnergía LLC, 111 W 19th Street, New York, New York 10011, by phone at (212) 479-1522, or by email at [cmacdougall@fortress.com](mailto:cmacdougall@fortress.com).

Pursuant to section 157.9 of the Commission's Rules of Practice and

Procedure,<sup>1</sup> within 90 days of this Notice the Commission staff will either: complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

### Public Participation

There are three ways to become involved in the Commission's review of this project: you can file comments on the project, you can protest the filing, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on July 25, 2023. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

### Comments

Any person wishing to comment on the project may do so. Comments may include statements of support or objections, to the project as a whole or specific aspects of the project. The more specific your comments, the more useful they will be.

### Protests

Pursuant to sections 157.10(a)(4)<sup>2</sup> and 385.211<sup>3</sup> of the Commission's regulations under the NGA, any person<sup>4</sup> may file a protest to the application. Protests must comply with the requirements specified in section 385.2001<sup>5</sup> of the Commission's regulations. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

To ensure that your comments or protests are timely and properly recorded, please submit your comments on or before July 25, 2023.

There are three methods you can use to submit your comments or protests to the Commission. In all instances, please reference the Project docket number CP23-518-000 in your submission.

The Commission considers all comments received about the project in determining the appropriate action to be taken. However, the filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding. For instructions on how to intervene, see below.

### Interventions

Any person, which includes individuals, organizations, businesses, municipalities, and other entities,<sup>6</sup> has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure<sup>7</sup> and the regulations under the NGA<sup>8</sup> by the intervention deadline for the project, which is July 25, 2023. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as the your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP23-518-000 in your submission.

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov).

Protests and motions to intervene must be served on the applicant either by mail or email at: Cameron MacDougall, General Counsel, NFEnergia LLC, 111 W 19th Street, New York, New York 10011, or at email at [cmacdougall@fortress.com](mailto:cmacdougall@fortress.com). Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed<sup>9</sup> motions to intervene are automatically granted by operation of Rule 214(c)(1).<sup>10</sup> Motions to intervene that are filed after the intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission’s Rules and Regulations.<sup>11</sup> A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.
