

K. Steps Taken To Minimize the Significant Economic Impact on Small Entities and Significant Alternatives Considered

8. The RFA requires an agency to provide, “a description of the steps the agency has taken to minimize the significant economic impact on small entities . . . including a statement of the factual, policy, and legal reasons for selecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency that affect the impact on small entities was rejected.”

9. The 2023 Mandatory Data Collection is a one-time collection and does not impose a recurring obligation on providers. Because the Commission’s 2023 IPCS Order requires all IPCS providers to comply with the 2023 Mandatory Data Collection, the collection will affect smaller as well as larger IPCS providers. WCB and OEA have taken steps to ensure that the data collection template is competitively neutral and not unduly burdensome for any set of providers and have considered the economic impact on small entities in finalizing the instructions and the template for the 2023 Mandatory Data Collection. For example, the 2023 Mandatory Data Collection requires the collection of data for a single calendar year instead of three calendar years, as in previous data collection. In response to the comments, WCB and OEA have refined certain aspects of the data collection, including modifying the treatment of audio IPCS and safety and security measures, clarifying the reporting of costs related to site commissions, and revising certain proposed definitions. WCB and OEA have also revised instructions for cost reporting and cost allocation that will help the Commission understand the nature of the reported costs, without imposing significant additional burdens on providers. WCB and OEA reorganized instructions for our proposed seven-category framework for reporting safety and security measure costs to simply them and increase clarity. Further, the instructions for the data collection include relevant diagrams to facilitate providers’ responses and improve the accuracy and consistency of the data they report. The instructions allow, but do not require, providers to subdivide their audio and video IPCS costs into more discrete categories based on the type of audio or video service being provided, as some parties suggest, to give providers greater flexibility in reporting these costs.

10. WCB and OEA considered but rejected alternative proposals to allow

providers to use their own allocation methodologies because of the undue burden it would have on the interested parties and the Commission to analyze and correct inconsistent responses. The modifications adopted in the Order avoid unduly burdening small and other responding providers while ensuring that providers have sufficiently detailed and specific instructions to respond to the data collection. The data collection also makes certain questions optional to reduce reporting burdens, including the questions regarding correctional facility-specific total admissions, total releases, and weekly turnover rates.

L. Report to Congress

11. The Commission will send a copy of the Order, including this Supplemental FRFA, in a report to be sent to Congress pursuant to the Congressional Review Act. In addition, the Commission will send a copy of the Order, including this Supplemental FRFA, to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the Order, and Supplemental FRFA (or summaries thereof) will also be published in the **Federal Register**.

Federal Communications Commission.

Jodie May,

Chief, Competition Policy Division, Wireline Competition Bureau.

Note: The following appendix, 2023 Mandatory Data Collection Instructions and Template, will not appear in the Code of Federal Regulations.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 23–78; RM–11946; DA 23–618; FR ID 157371]

Television Broadcasting Services Elko, Nevada

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission’s Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by Reno Licensee, LLC (Petitioner), the licensee of KENV–TV (Station or KENV–TV), channel 10, Elko, Nevada, requesting the substitution of channel 20 for channel 10 at Elko in the Table of TV

Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends FCC regulations to substitute channel 20 for channel 10 at Elko.

DATES: Effective August 3, 2023.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 88 FR 16250 on March 16, 2023. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 20. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 20 for channel 10 at Elko, Nevada. The Commission has recognized that VHF poses challenges for stations providing digital television service on those channels due to propagation characteristics that allow undesired signals and noise to be receivable at relatively far distances and result in large variability in the performance of indoor antennas available to viewers, with most antennas performing very poorly on high VHF channels. According to the Petitioner, the Station “has received numerous complaints from local viewers who can receive signals from other local stations but are unable to receive the Station’s over-the-air signal on Channel 10.” Thus, the Petitioner asserts that its channel substitution proposal will serve the public by resolving the over-the-air reception problems and enhancing viewer reception in the Station’s service area. An analysis conducted using the Commission’s *TVStudy* software tool indicates that no persons within the Station’s current noise limited contour will lose service and an additional 1,367 persons are predicted to gain service from the Station.

This is a synopsis of the Commission’s *Report and Order*, MB Docket No. 23–78; RM–11946; DA 23–618, adopted July 19, 2023, and released July 19, 2023. The full text of this document is available for download at <https://www.fcc.gov/edocs>. To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202–418–0530 (voice), 202–418–0432 (tty).

This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104–13. In addition, therefore, it does not contain any proposed information collection burden

“for small business concerns with fewer than 25 employees,” pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, *see* 44 U.S.C. 3506(c)(4). Provisions of the Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, do not apply to this proceeding.

The Commission will send a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A).

Thomas Horan,
Chief of Staff, Media Bureau.

Final Rule

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICE

- 1. The authority citation for part 73 continues to read as follows:
Authority: 47 U.S.C. 154, 155, 301, 303, 307, 309, 310, 334, 336, 339.

- 2. In § 73.622(j), amend the Table of TV Allotments, under Nevada, by revising the entry for Elko to read as follows:

§ 73.622 digital television table of allotments.

[Docket No. 230508–0124; RTID 0648–XD128]

Fisheries Off West Coast States; Modification of the West Coast Salmon Fisheries; Inseason Actions #11–#16

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason modification of 2023 management measures.

SUMMARY: NMFS announces six inseason actions for the 2023–2024 ocean salmon fishing season. These inseason actions modify the commercial and recreational salmon fisheries in the area from the U.S./Canada border to the U.S./Mexico border.

DATES: The effective date for these inseason actions are set out in this document under the heading “Inseason Actions” and the actions remain in effect until superseded or modified.

FOR FURTHER INFORMATION CONTACT: Shannon Penna, 562–980–4239, *Shannon.Penna@noaa.gov*.

SUPPLEMENTARY INFORMATION:

Background

The annual management measures for the 2023 and early 2024 ocean salmon fisheries (88 FR 30235, May 11, 2023) govern the commercial and recreational fisheries in the area from the U.S./Canada border to the U.S./Mexico border, effective from 0001 hours Pacific Daylight Time (PDT), May 16, 2023, until the effective date of the 2024 management measures, as published in the **Federal Register**. NMFS is authorized to implement inseason management actions to modify fishing seasons and quotas as necessary to provide fishing opportunity while meeting management objectives for the affected species (50 CFR 660.409). Inseason actions in the salmon fishery may be taken directly by NMFS (50 CFR 660.409(a)—Fixed inseason management provisions) or upon consultation with the Chairman of the Pacific Fishery Management Council (Council), and the appropriate State Directors (50 CFR 660.409(b)—Flexible inseason management provisions).

Management of the salmon fisheries is divided into two geographic areas: north of Cape Falcon (NOF) (U.S./Canada border to Cape Falcon, OR), and south

of Cape Falcon (SOF) (Cape Falcon, OR, to the U.S./Mexico border). The actions described in this document affect the NOF and SOF commercial salmon troll fisheries, as set out under the heading “Inseason Actions” below.

Consultation with the Council Chairperson on these inseason actions occurred on June 21, 2023, June 24, 2023, June 30, 2023, July 6, 2023, and July 11, 2023. These consultations included representatives from NMFS, Washington Department of Fish and Wildlife, Oregon Department of Fish and Wildlife, and California Department of Fish and Wildlife. Representatives from the Salmon Advisory Subpanel and Salmon Technical Team were also present. A Council representative was present on June 21, 2023, June 24, 2023, and July 6, 2023.

These inseason actions were announced on NMFS’ telephone hotline and U.S. Coast Guard radio broadcast on the date of the consultations (50 CFR 660.411(a)(2)).

Inseason Actions

Inseason Action #11

Description of the action: Inseason action #11 modifies the NOF ocean salmon troll commercial fishery. The area between the U.S./Canada border and Cape Falcon is closed.

Effective dates: Inseason action #11 took effect on June 21, 2023, at 11:59 p.m. and remains in effect until June 30, 2023, at 11:59 p.m.

Reason and authorization for the action: Inseason action #11 was necessary to avoid exceeding the area of NOF quota for Chinook salmon. The NMFS West Coast Regional Administrator (RA) considered the 2023 abundance forecasts for Chinook salmon stocks, the timing of the action relative to the length of the season, and determined that this inseason action is necessary to meet management and conservation goals for the 2023–2024 management measures. This inseason action modified quotas and/or fishing seasons under 50 CFR 660.409(b)(1)(i).

Inseason Action #12

Description of the action: Inseason action #12 modifies the NOF ocean salmon troll commercial fishery in the area between the U.S./Canada border and Cape Falcon. The landing and possession limit is 11 Chinook salmon per vessel for the period June 24, 2023, through June 29, 2023.

Effective dates: Inseason action #12 took effect on June 24, 2023, at 12:01 a.m., and remains in effect until June 29, 2023, at 11:59 p.m.

Reason and authorization for the action: The total Chinook salmon
