[Docket No. FR-7068-N-01]

60-Day Notice of Proposed Information; Labor Standards Deposit Account Voucher; OMB Control No.: 2501-0021

AGENCY: Field Policy and Management, Office of Davis-Bacon and Labor Standards, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.

DATES: *Comments Due Date:* October 3, 2023.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Written comments and recommendations for the proposed information collection can be submitted within 60 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 60-day Review—Open for Public Comments” or by using the search function. Interested persons are

also invited to submit comments regarding this proposal by name and/or OMB Control Number and can be sent to: Anna Guido, Reports Management Officer, REE, Department of Housing and Urban Development, 451 7th Street SW, Room 8210, Washington, DC 20410-5000 or email at PaperworkReductionActOffice@hud.gov.

FOR FURTHER INFORMATION CONTACT: Jennifer A. Dupont, Program Analyst, Field Policy and Management, Department of Housing and Urban Development, 40 Marietta Street, 10th Floor, Atlanta, GA 30303 or the number (678-732-2034) this is not a toll-free number or email at Jennifer.A.Dupont@hud.gov or a copy of the proposed forms or other available information. SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Proposal: Labor Standards Deposit Account Voucher.

OMB Control Number, if applicable: 2501-0021.

Description of the need for the information and proposed use: HUD, State, local and Tribal housing agencies administering HUD-assisted programs must enforce Federal Labor Standards requirements, including the payment of prevailing wage rates to laborers and mechanics employed on HUD-assisted construction and maintenance work that is covered by these requirements. Enforcement activities include securing funds to ensure the payment of wage restitution that has been or may be found due to laborers and mechanics who were employed on HUD-assisted projects. Also, funds are collected for the payment to the U.S. Treasury of liquidated damages that were assessed for violations of Contract Work Hours and Safety Standards Act (CWHSSA). If the labor standards discrepancies are resolved, HUD refunds associated amounts to the depositor. As underpaid laborers and mechanics are located, HUD sends wage restitution payments to the workers.

Agency form numbers, if applicable: HUD FORM 4734.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
HUD 4734 DBLS Deposit Voucher	15	1	15	.10	1.5	\$47.20	\$70.80
Total	15	15	.10	1.5	47.20	70.80

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated

collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comments in response to these questions.

A. Overview of Information Collection

Title of Information Collection: Youth Homeless Systems Improvement (YHSI).

OMB Approval Number: 2506–0219.

Type of Request: Revision.

Form Number: HUD 2880, SF–LLL, SF–424, SF–424B, HUD–424–CBW.

Description of the need for the information and proposed use: Congress appropriated funds to the Department of Housing and Urban Development in FY2022 and in FY2023 to competitively

award funds to selected communities to develop projects that implement systems infrastructure to better address youth homelessness. The YHSI projects will focus on systems change to create and build capacity for Youth Action Boards; collect and use data from different systems to improve the youth homeless response system; develop strong leaders within a community; and improve the coordination, communication, operation, and administration of homeless assistance projects, including prevention and diversion strategies. This information collection revision is to competitively award YHSI funds to communities and monitor the progress of the funded project. This revision is to include two additional forms in the approved PRA for this program—the HUD–2880, Applicant/Recipient Disclosure/Update Report, and the 424–CBW Grant Application Detailed Budget Worksheet.

Respondents: Not-for-profit institutions; State, Local or Tribal Governments.

Estimated Number of Respondents: 150.

Estimated Number of Responses: 190.

Frequency of Response: Biannual.

Average Hours per Response: 27.

Total Estimated Burdens: 2,670.

Salt River Project Roosevelt Habitat Conservation Plan Amendment and Draft Environmental Assessment; Maricopa and Gila Counties, Arizona

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, as the lead Federal agency, in conjunction with the U.S. Army Corps of Engineers, as a cooperating agency, announce the availability of a draft environmental assessment (EA) for the proposed Salt River Project Roosevelt Habitat Conservation Plan (RHCP) Amendment which includes a proposed planned deviation to the Corps' Water Control Manual (WCM) in Gila and Maricopa Counties, Arizona. Salt River Project (applicant) submitted the RHCP amendment, also available for public review, in support of an application for an amended incidental take permit (permit) under the Endangered Species Act. Prepared in accordance with the requirements of the National Environmental Policy Act, the draft EA evaluates the impacts of, and alternatives to, amending the existing permit for the operation of the Modified Roosevelt Dam and Lake. If approved, the requested permit amendment would authorize incidental take of the northern Mexican gartersnake and expand the permit area for existing authorized incidental take for the yellow-billed cuckoo, southwestern willow flycatcher, and bald eagle. We invite comments from the public and Federal, Tribal, State, and local governments.

DATES: We will accept comments received on or before September 5, 2023.

ADDRESSES:

Obtaining documents: You may obtain copies of the RHCP amendment and draft EA on the internet at <https://www.fws.gov/office/arizona-ecological-services>.

Submitting comments: You may submit written comments by email to incomingazcorr@fws.gov. Please note which document(s) your comment references. For more information, see Public Availability of Comments.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), as the lead Federal agency, in conjunction with the U.S. Army Corps of Engineers (Corps), as a cooperating agency, announce the availability of a draft environmental assessment (EA) for the proposed Salt River Project Roosevelt Habitat Conservation Plan (RHCP) Amendment in Gila and Maricopa Counties, Arizona. Salt River Project (SRP; applicant) submitted the proposed RHCP amendment in support of an application for an amended incidental take permit (permit) under section 10(a)(1)(B) of the Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*). The draft EA evaluates the impacts of, and alternatives to, amending the existing permit for the operation of the Modified Roosevelt Dam and Lake, and addresses both the Service and Corps' responsibilities under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). The proposed RHCP amendment is a combined ESA section 10(a)(1)(B) and ESA section 7 approach to ESA compliance for implementation of covered activities for non-Federal (section 10) and Federal (section 7) participants. The RHCP amendment addresses effects from SRP's Modified Roosevelt Dam conservation storage actions to newly listed species, and adds SRP's flood control operations, which includes a proposed planned deviation to the Corps' Water Control Manual (WCM). The planned deviation to the Corps' WCM, guiding Roosevelt Lake's flood control space (FCS)

operations, is a Federal action, as is the Service's approval of an amended permit. The planned deviation, if approved, could extend water's occurrence in the FCS for 100 days (120 days total) in 3 out of 5 consecutive years. SRP's current permit is for 50 years, expiring in 2053, and the amendment does not change the permit duration. If the amendment is approved, the permit would have a remaining duration of 30 years.

If the Service approves the amended RHCP and the Corps approves the planned deviation, the requested permit amendment would authorize incidental take of the northern Mexican gartersnake (*Thamnophis eques megalops*; gartersnake) and expand the permit area for existing authorized incidental take for the federally listed threatened yellow-billed cuckoo (*Coccyzus americanus*; cuckoo), endangered southwestern willow flycatcher (*Empidonax traillii eximius*; flycatcher), and unlisted bald eagle (*Haliaeetus leucocephalus*).

SRP and the Service evaluated and improved the incidental take exceedance language for the bald eagle for conservation storage and additional flood control activities, addressing the bald eagle's dynamic distribution and abundance. SRP is amending their existing RHCP under ESA for the bald eagle in case the Service lists the bald eagle as threatened or endangered in the future. We also included the bald eagle to address compliance during the remaining life of the permit under the Bald and Golden Eagle Protection Act (Eagle Act) (16 U.S.C. 668-668d, 54 Stat. 250, as amended) and its governing regulations at 50 CFR 22.80.

Authorized incidental take of the covered species would result from Modified Roosevelt Dam's conservation storage and flood control activities, including the proposed deviation to the Corps' WCM.

Background

Section 9 of the ESA and its implementing regulations at 50 CFR part 17.21 prohibit the "take" of fish or wildlife species listed as endangered. Additionally, per 50 CFR part 17.31, most of the provisions of 50 CFR part 17.21 for endangered species, including prohibition of "take", apply to species listed as threatened, provided the species was added to the List of Endangered and Threatened Wildlife on or prior to September 26, 2019. "Take" is defined under the ESA as to "harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect listed animal species, or to attempt to engage in such conduct" (16 U.S.C. 1532(19)).
