SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Survey of Foreign Direct Investment in the United States (BE-15) obtains sample data on the financial structure and operations of foreign-owned U.S. business enterprises. The data are needed to provide reliable, useful, and timely measures of foreign direct investment in the United States to assess its impact on the U.S. economy. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-12 benchmark survey, which is conducted every five years. The data collected include balance sheets; income statements; property, plant, and equipment; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity for the U.S. operations. In addition to these national data, several data items are collected by state, including employment and property, plant, and equipment.

The survey, as proposed, incorporates the following change that was made to the 2022 BE-12, Benchmark Survey of Foreign Direct Investment in the United States:

(a) The expensed petroleum and mining expenditures item will be removed from the BE-15A form. The item is not a good fit conceptually as a component of property, plant, and equipment (capital) expenditures.

II. Method of Collection

BEA contacts potential respondents by mail in March of each year; responses covering a reporting company's fiscal year ending during the previous calendar year are due by May 31 (or by June 30 for respondents that file using BEA's eFile system). Reports are required from each U.S. business enterprise in which a foreign person has at least 10 percent of the voting stock in an incorporated business enterprise, or an equivalent interest in an unincorporated business enterprise, and that meets the additional conditions detailed in the BE-15 forms and instructions. Entities required to report will be contacted individually by BEA.

Entities not contacted by BEA have no reporting responsibilities.

BEA offers electronic filing through its eFile system for use in reporting on the BE-15 annual survey forms. In addition, BEA posts its survey forms and reporting instructions on its website (www.bea.gov/fdi). These may be downloaded, completed, printed, and submitted via fax or mail.

Potential respondents of the BE-15 are selected from those U.S. business enterprises that were required to report on the 2022 BE-12, Benchmark Survey of Foreign Direct Investment in the United States, along with those U.S. business enterprises that subsequently entered the direct investment universe. The BE-15 is a sample survey; universe estimates are developed from the reported sample data.

III. Data

OMB Control Number: 0608-0034.

Form Number: BE-15.

Type of Review: Revision.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 6,550 annually, of which approximately 3,350 file A forms, 1,700 file B forms, 1,000 file C forms, and 500 file Claim for Exemption forms.

Total annual burden is calculated by multiplying the estimated number of submissions of each form by the average hourly burden per form, which is 44.75 hours for the A form, 3.75 hours for the B form, 2.25 hours for the C form, and 1 hour for the Claim for Exemption form.

Estimated Time per Respondent: 24.3 hours per respondent (159,038 hours/6,550 respondents) is the average but may vary considerably among respondents because of differences in company size and complexity.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Mandatory.

Legal Authority: International Investment and Trade in Services Survey Act (Pub. L. 94-472, 22 U.S.C. 3101-3108, as amended).
