Backup copies of imaged records are stored at remote locations, including but not limited to the FAA's government cloud.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records of registered and cancelled aircraft in the digital image system may

be retrieved by registration number, the manufacturer's name, model, and serial number, and by the name of the current registered owner. TIS-B/FIS-B records may be retrieved by the aircraft registration number. Part 89 NOI records may be retrieved by COI number, unmanned aircraft serial number, or operator's (or authorized representative's) name.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Aircraft registration records will be maintained as permanent records in accordance with the National Archives and Records Administration (NARA) Schedule N1-237-04-03. In accordance with that schedule, paper copies of registration submissions are destroyed once the original is scanned into the system and the digital image is determined to be an adequate substitute for paper records. Copies of the Aircraft Registration system are transferred to NARA on an annual basis. The FAA will maintain GA ADS-B Rebate Program payment records for at least six years after the program has ended (until at least 2027), the timeframe specified in NARA General Records Schedule 1.1, item 10. For records related to Part 89 NOI, the FAA has submitted a new records retention and disposition schedule DAA-0237-2023-0007-0003 to NARA and is proposing to maintain the records for 3 years after the COI has either expired or been cancelled. The FAA will retain Part 89 NOI records until it receives approval of the record disposition authority from NARA. The FAA will retain APM records (which includes the Privacy ICAO Address program) for three years, in accordance with NARA Schedule DAA-0237-2020-0002-0001.
