SUPPLEMENTARY INFORMATION:

Title: U.S. DOT Intersection Safety Challenge—System Assessment and Virtual Testing Competition.

Background: Improving the safety of pedestrians, bicyclists, and other vulnerable road users is of critical importance to achieving the objectives of the U.S. Department of Transportation (DOT) National Roadway Safety Strategy (NRSS) and DOT's vision of zero fatalities and serious injuries across our transportation system. According to data from the National Highway Traffic Safety Administration (NHTSA), in 2020 there were 10,626 traffic fatalities in the United States at roadway intersections, including 1,674 pedestrian and 355 bicyclist fatalities. These fatalities at intersections represent 27% of the total of 38,824 road traffic deaths recorded in 2020.

In response to these growing concerns and as part of the NRSS Call to Action, the DOT Intersection Safety Challenge (hereafter, "the Challenge") incentivizes the development of new, cost-effective, real-time roadway Intersection Safety System (ISS) concepts that apply emerging technologies to identify and mitigate unsafe roadway intersection conditions involving vehicles and vulnerable road users. Innovative ISS concepts may utilize emerging technologies, e.g., machine sensing and perception, data fusion, artificial intelligence (AI) and machine learning (ML), trajectory and path prediction, vehicle-to-everything (V2X) communications, and real-time

decision-making to generate anticipatory warning systems and other safety-countermeasures.

In the U.S. DOT Intersection Safety Challenge—System Assessment and Virtual Testing Competition, participants will develop and improve algorithms for the detection, localization, and classification of vulnerable road users and vehicles using government-supplied sensor data. These government-supplied data include contemporaneous feeds from diverse sensor technology deployed at the roadside in a controlled test intersection. Participants will use these data and their resulting algorithms to predict future intersection conditions and identify potentially unsafe conditions (current or predicted). The accuracy of these predictions will be measured against observed ground truth conditions as part of a broader set of judging criteria. To be eligible for a prize, submissions must include a structured description of identified and predicted intersection conditions as well as the executable computer programming code required to support independent validation. Participants may submit an optional Concept Paper describing their ISS concept and the potential of this concept to address the vision and objectives of the Challenge. The government anticipates awarding multiple prizes. Detailed rules and judging criteria will be provided when the prize competition is formally announced.

Respondents: Approximately 40 participants (or participant teams) are expected to respond to the prize competition.

Frequency: Participants may submit the structured description and supporting computer programming code (for validation) up to three times during the duration of the U.S. DOT Intersection Safety Challenge—System Assessment and Virtual Testing Competition. Participants may submit an optional Concept Paper at any time prior to the close of the prize competition.

Estimated Average Burden per Response: Approximately 2,000 total staff-hours is estimated for a participant to complete up to 3 submissions with all required elements for the U.S. DOT Intersection Safety Challenge—System Assessment and Virtual Testing Competition. Further, the completion of the optional Concept Paper is estimated at 170 staff-hours.

Estimated Total Annual Burden Hours: 40 respondents × 2,170 hours = 86,800 hours.

Public Comments Invited: You are asked to comment on any aspect of this

information collection, including: (1) Whether the proposed collection is necessary for DOT's performance; (2) the accuracy of the estimated burdens; (3) ways for DOT to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Proposed Extension of Information Collection Request Submitted for Public Comment; Withholding of Tax and Information Reporting With Respect to Interests in Partnerships Engaged in a U.S. Trade or Business

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Internal Revenue Service (IRS), as part of its continuing effort to reduce paperwork and respondent burden, invites the public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. The IRS is soliciting comments concerning withholdings of tax and information reporting with respect to certain dispositions of interests in partnerships engaged in a trade or business within the United States.

DATES: Written comments should be received on or before October 10, 2023 to be assured of consideration.

ADDRESSES: Direct all written comments to Andres Garcia, Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224 or by email to pra.comments@irs.gov.

Please reference the information collection's "OMB number 1545-2292" in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or

copies of the regulations should be directed to Sara Covington, at (202) 317-5744, or Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224, or through the internet, at sara.l.covington@irs.gov.

SUPPLEMENTARY INFORMATION:

Title: Withholding of Tax and Information Reporting With Respect to Interests in Partnerships Engaged in a U. S. Trade or Business.

OMB Control Number: 1545-2292.

Regulation Project Number: TD 9926.

Abstract: These final regulations under section 1446(f) provide guidance related to the withholding of tax and information reporting with respect to certain dispositions of interests in partnerships engaged in a trade or business within the United States. The final regulations affect certain foreign persons that recognize gain or loss from the sale or exchange of an interest in a partnership that is engaged in a trade or business within the United States, and persons that acquire those interests. The final regulations also affect partnerships that, directly or indirectly, have foreign persons as partners.

Current Actions: There is no change to existing regulation.

Type of Review: Extension without change of a currently approved collection.

Affected Public: Business or other for-profit organizations and individuals.

Estimated Number of Respondents: 76,000.

Estimated Time per Respondent: 40 minutes.

Estimated Total Annual Burden Hours: 50,920.

The following paragraph applies to all of the collections of information covered by this notice.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;

(b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: August 7, 2023.
