

Foods are inadvertently issued to a household and are rejected or returned by the household because the USDA Foods were unsound at the time of issuance and not because the household failed to provide proper storage, care or handling, the State agency shall replace the damaged or out-of-condition USDA Foods with the same or similar kind of USDA Foods which are sound and in good condition. The State agency shall account for such replacements on its monthly inventory report.

■ 39. Add § 253.12 to read as follows:

253.12 Administrative Waivers.

(a) The Administrator of the Food and Nutrition Service may waive or modify specific regulatory provisions contained in this part for one or more State agencies. Waivers may be issued following a State agency request or at the discretion of FNS. Waivers may be approved only in the following situations:

(1) The specific regulatory provision cannot be implemented due to extraordinary temporary situations;

(2) FNS determines that the waiver would result in a more effective and efficient administration of the program; or

(3) Unique geographic conditions within the geographic area served by the administering agency preclude effective implementation of the specific regulatory provision and require an alternate procedure.

(b) FNS shall not approve waivers when:

(1) The waiver would be inconsistent with the provisions of the Food and Nutrition Act of 2008; or

(2) The waiver would result in material impairment of any statutory or regulatory rights of participants or potential participants.

(c) FNS shall approve waivers for a period not to exceed one year unless the waiver is for an on-going situation. If the waiver is requested for longer than a year, appropriate justification shall be required and FNS will determine if a longer period is warranted and if so, the duration of the waiver. Extensions may be granted provided that State agencies submit appropriate justification to FNS.

(d) When submitting requests for waivers, State agencies shall provide compelling justification for the waiver in terms of how the waiver will meet the conditions of paragraphs (a)(1), (a)(2), and/or (a)(3) of this section. At a minimum, requests for waivers shall include but not necessarily be limited to:

(1) Reasons why the waiver is needed;

(2) Anticipated impact on service to participants or potential participants who would be affected;

(3) Anticipated time period for which the waiver is needed; and

(4) Thorough explanation of the proposed alternative provision to be used in lieu of the waived or modified regulatory provision.

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under **ADDRESSES**. Include “Docket No. FAA-2023-1502; Project Identifier MCAI-2023-00380-T” at the beginning of your comments. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend this proposal because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to regulations.gov, including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this NPRM.

Confidential Business Information

Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this NPRM contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this NPRM, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as “PROPIN.” The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this NPRM. Submissions containing CBI should be sent to Tom Rodriguez, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone: 206-231-3226; email tom.rodriguez@faa.gov. Any commentary that the FAA receives that

Background

The FAA issued an NPRM (88 FR 47086, July 21, 2023) that would apply to all Dassault Aviation Model MYSTERE-FALCON 900 airplanes. The NPRM proposed to supersede AD 2023-04-10, Amendment 39-22357 (88 FR 20743, April 7, 2023) (AD 2023-04-10), for all Dassault Aviation Model MYSTERE-FALCON 900 airplanes. AD 2023-04-10 requires revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations.

The NPRM proposed to continue to require the actions in AD 2023-04-10 and would require revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations, as specified in a European Union Aviation Safety Agency (EASA) AD 2023-0046, dated March 2, 2023. The NPRM was prompted by a determination that new or more restrictive airworthiness limitations are necessary. The FAA is proposing this AD to address reduced structural integrity of the airplane.

Related Service Information Under 14 CFR Part 51

The FAA reviewed EASA AD 2023-0046. This service information specifies new or more restrictive airworthiness limitations for airplane structures and safe life limits.

This proposed AD would also require EASA AD 2022-0137, which the Director of the Federal Register approved for incorporation by reference as of May 12, 2023 (88 FR 20743, April 7, 2023).

This material is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Need for the Correction

As published, the docket number referenced throughout the NPRM is incorrect. The NPRM incorrectly references “Docket No. FAA-2023-1501.” The correct docket number is “Docket No. FAA-2023-1502.”

Although no other part of the preamble or regulatory information has been corrected, for clarity the FAA is publishing the entire proposed rule in the **Federal Register**.

The comment due date of the NPRM remains September 5, 2023.

Airworthiness Directives; Dassault Aviation Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to supersede Airworthiness Directive (AD) 2020–23–10, which applies to certain Dassault Aviation Model FAN JET FALCON and FAN JET FALCON SERIES C, D, E, F, and G airplanes. AD 2020–23–10 requires revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. Since the FAA issued AD 2020–23–10, the FAA has determined that new or more restrictive airworthiness limitations are necessary. This proposed AD would continue to require the actions in AD 2020–23–10
