SUPPLEMENTARY INFORMATION:**Full Text of Announcement****I. Funding Opportunity Description**

Purpose of Program: The purpose of the PIM grant program is to identify, support, and rigorously evaluate evidence-based and innovative strategies and activities to improve and modernize career and technical education (CTE) and ensure workforce skills taught in CTE programs funded under the Carl D. Perkins Career and Technical Education Act of 2006, as amended by the Strengthening Career and Technical Education for the 21st Century Act (Perkins V), align with labor market needs.

Background: The PIM grant program, authorized under section 114(e) of Perkins V, supports evidence-based educational programs and practices to improve and modernize CTE. *Raise the Bar: Lead the World*¹ is the Department's call to action to transform prekindergarten through grade 12 education through evidence-based practices and strategies that advance educational equity and excellence. Within this call to action is *Raise the Bar: Unlocking Career Success*, an interagency initiative across the U.S. Departments of Education, Labor, and Commerce, that reimagines how our

nation's high schools prepare all students to thrive in their future careers by providing students with accelerated and innovative opportunities to earn college credits and gain career experiences. This Fiscal Year (FY) 2023 PIM grant program competition advances the goals of *Raise the Bar: Unlocking Career Success* through priorities that seek to prepare all young people more equitably and effectively for further learning and economic advancement in rewarding careers.

With this competition, the Department seeks to support applicants that will build capacity among secondary education, postsecondary education, and workforce development systems to expand access to career-connected high school programs for more students. As described below, the four strategies, or "keys," to career-connected high schools are evidence-based strategies that support students in the connections and transition between high school, postsecondary education, and careers. Under Absolute Priority 1, applicants will be required to describe the extent to which they are currently implementing career-connected learning and provide a plan for how they will increase the proportion of students who graduate from high school with these four keys to unlock their career success:

- *Postsecondary Education and Career Navigation System.* Participation in a comprehensive postsecondary education and career navigation system that supports career exploration and education planning, provides information and assistance in pursuing further learning after high school, and includes the development and regular updating of a personalized postsecondary education and career plan (as defined in this notice) throughout high school;

- *Dual or Concurrent Enrollment.* Postsecondary credits earned from dual or concurrent enrollment programs (as defined in this notice) within a clearly defined program of study (as defined in this notice) to give students a head start in earning a postsecondary credential;

- *Work-Based Learning.* Participation in work-based learning opportunities (as defined in this notice) for which students receive wages or academic credit, or both; and

- *Industry-Recognized Credential.* Attainment of an in-demand and high-value industry-recognized credential (as defined in this notice) so that every young person can earn a living wage after high school, open more doors to pursue further education, and live independently.

¹ U.S. Secretary of Education Miguel Cardona laid out his vision for the direction the Department will follow in fiscal year 2023 to promote academic excellence, improve learning conditions, and prepare students for a world where global engagement is critical to our Nation's standing.
