

Respondents/affected entities: Entities potentially affected by this ICR are school districts or entities that represent them. Entities potentially affected by this ICR are the following corresponding North American Industry Classification System (NAICS) Codes for respondents which include: 6111—Elementary and Secondary Schools, 6244—Child Day Care Services, 56172—Janitorial Services, 56173—Landscaping Services, 56171—Exterminating and Pest Control Services, and 5617—Services to Buildings and Dwellings.

Respondent's obligation to respond: Voluntary, required to retain a benefit.

Forms: EPA Form No. 9600–054.

Frequency of response: Occasional.

Total estimated number of potential respondents: 53.

Total estimated average number of responses for each respondent: 1.

Total estimated annual burden hours: 914 hours.

Total estimated annual costs: \$ 98,358. This includes an estimated burden cost of \$ 98,358 and an estimated cost of \$ 0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There are minor corrections to the burden from the last renewal for the Great Start, Sustained Excellence and the Connector Award which were miscalculated in error but still reflect no change in the actual burden. There were no changes in the number of respondents and the respondent and Agency burden hours over the previous renewal cycle. The only change from the last renewal cycle is that the cost estimates were updated using the latest May 2022 wage rates. This change is an adjustment.

In addition, OMB has requested that EPA move towards using the 18-question format for ICR Supporting Statements used by other federal agencies and departments and is based on the submission instructions established by OMB in 1995, replacing the alternate format developed by EPA and OMB prior to 1995. EPA intends to update this Supporting Statement during the comment period to reflect the 18-question format, and has included the questions in an attachment to this Supporting Statement. In doing so, the Agency does not expect the change in format to result in substantive changes to the information collection activities or related estimated burden and costs.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: July 30, 2023.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–11273–01–OAR]

Renewable Fuel Standard (RFS) Program Compliance; Notification of Webinar

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of webinar.

SUMMARY: The Environmental Protection Agency (EPA) is announcing a public webinar on the new regulatory provisions of the Renewable Fuel Standard (RFS) program.

DATES: The webinar will be held on September 7, 2023. Additional information regarding the workshop appears below under **SUPPLEMENTARY INFORMATION**.

ADDRESSES: All attendees must pre-register for the webinar by notifying the contact person listed under **FOR FURTHER INFORMATION CONTACT** by August 31, 2023. Additional information related to the webinar will be posted at: <https://www.epa.gov/renewable-fuel-standard-program/rfs-set-rule-implementation-webinar>. Interested parties should check the website for any updated information.

FOR FURTHER INFORMATION CONTACT: Nick Parsons, Office of Transportation and Air Quality, Assessment and Standards Division, Environmental Protection Agency; telephone number: (734) 214–4479; email address: RFS-Hearing@epa.gov.

SUPPLEMENTARY INFORMATION: EPA is hosting a public webinar to discuss the implementation of the new regulatory provisions promulgated as part of the Renewable Fuel Standard (RFS) final rule for 2023–2025 (the “Set Rule”).¹ These regulatory provisions include updated third-party engineering review requirements, new independence requirements for independent third-party auditors and professional engineers, an alternative recordkeeping requirement for parties using separated food waste, and updated regulatory provisions for the production, distribution, and use of biogas as a renewable fuel.

During the webinar, EPA intends to discuss the following:

- An overview of the regulatory amendments in the Set Rule.
- A detailed overview of the updated biogas regulatory provisions.
- A demonstration of the registration system updates for parties that want to use the alternative recordkeeping provisions for separated food waste.
- Changes to three-year engineering review updates and third-party engineer independence requirements.
- An overview of the new regulatory provisions for mixed digesters.
- A moderated question-and-answer period for stakeholders to ask additional questions related to these provisions.

EPA will post an agenda approximately one week before the webinar at: <https://www.epa.gov/renewable-fuel-standard-program/rfs-set-rule-implementation-webinar>.

Interested parties should check this website for any updated information.

If you require the services of an interpreter or special accommodations such as audio description, please pre-register for the webinar and describe your needs by August 24, 2023. EPA may not be able to arrange accommodations without advance notice.

Byron Bunker,

Director, Compliance Division, Office of Transportation and Air Quality.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0804; FR ID 161992]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

¹ 88 FR 44468 (July 12, 2023).

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before October 13, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060-0804.

Title: Universal Service—Rural Health Care Program.

Form Numbers: FCC Forms 460, 461, 462, 463, 465, 466, 467, and 469.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit; Not-for-profit institutions; Federal Government; and State, Local, or Tribal governments.

Number of Respondents and Responses: 12,854 unique respondents; 116,404 responses.

Estimated Time per Response: 0.30–17 hours.

Frequency of Response: On occasion, One-time, Annual, and Monthly reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in sections 1–4, 201–205, 214, 254, 303(r), and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 151–154, 201–205, 214, 254, 303(r), and 403, unless otherwise noted.

Total Annual Burden: 442,117 hours.

Total Annual Cost: No Cost.

Needs and Uses: The Commission seeks OMB approval of a revision of this information collection as a result of the 2023 Promoting Telehealth Order on Reconsideration, Second Report and Order, and Order, FCC 23–6, rel. January 27, 2023 (2023 Order) (88 FR 17379, March 23, 2023). This collection is utilized for the RHC support mechanism of the Commission's universal service fund (USF). The collection of this information is necessary so that the Commission and the Universal Service Administrative Company (USAC) will have sufficient information to determine if entities are eligible for funding pursuant to the RHC universal service support mechanism, to determine if entities are complying with the Commission's rules, and to promote program integrity. This information is also necessary in order to allow the Commission to evaluate the extent to which the RHC Program is meeting the statutory objectives specified in section 254(h) of the 1996 Act, and the Commission's performance goals for the RHC Program.

This information collection is being revised to: (1) extend some of the existing information collection requirements for the Healthcare Connect Fund and Telecom Programs; (2) revise some of the information collection requirements for the Telecom Programs as a result of the 2023 Order; and (3) add a new information collection requirement for the Telecom Program as a result of the 2023 Order. As part of this information collection, the Commission is also revising the FCC Form 466 Template, terminating the Telecommunications Program Invoice Template and the FCC Form 467 Template in the Telecom Program, and adding a FCC Form 469 Template which is the new invoice form in the Telecom Program adopted by the 2023 Order to ensure that healthcare providers have adequate, predictable support, to simplify the invoicing process, and to promote program integrity in the RHC

Program. These changes will be effective starting funding year 2024.

The Healthcare Connect Fund Program currently includes FCC Forms 460, 461, 462, and 463. Prior to funding year 2024, the Telecom Program includes FCC Forms 465, 466, and 467. Effective funding year 2024, the Telecom Program includes FCC Forms 465, 466, and 469. The information on the FCC Form templates is a representative description of the information to be collected via an online portal and is not intended to be a visual representation of what each applicant or service provider will see, the order in which they will see information, or the exact wording or directions used to collect the information. Where possible, information already provided by applicants from previous filing years or that was pre-filed in the system portal will be carried forward and auto-generated into the form to simplify the information collection for applicants.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer.
