# Extension of Segregation for the Proposed Lava Ridge Wind Project in Jerome, Lincoln, and Minidoka Counties, ID

**AGENCY:** Bureau of Land Management, Interior.

## ACTION: Notice.

**SUMMARY:** The Bureau of Land Management (BLM) Shoshone Field Office announces the extension of the segregation of 106,555.88 acres of public lands for the Lava Ridge Wind Project (project) for an additional two years, subject to valid existing rights. The public land involved will be segregated from appropriation under the public land laws, including the Mining Law of 1872, but not the mineral leasing or material sale laws. This segregation extension is necessary to allow for the orderly administration of the public lands and to facilitate the completion of the BLM's review and decision regarding the project.

**DATES:** This segregation extension for the lands identified in this notice is effective on August 18, 2023.

**ADDRESSES:** Submit comments related to the project by any of the following methods:

• Email: BLM\_ID\_LavaRidge@ blm.gov.

• *Mail:* Lava Ridge Wind Energy EIS, BLM Shoshone Field Office, Attn: Kasey Prestwich, 400 West F Street, Shoshone, ID 83352.

#### FOR FURTHER INFORMATION CONTACT:

Kasey Prestwich, Project Manager, telephone: 208-732-7204; address: BLM Shoshone Field Office, 400 West F Street, Shoshone, ID 83352; email: kprestwich@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Mr. Prestwich. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** Magic Valley Energy, LLC has applied for a right-of-way (ROW) grant to construct, operate, maintain, and decommission the project, a wind energy facility and ancillary facilities primarily on BLM-administered public lands in Jerome, Lincoln, and Minidoka Counties, Idaho.

The BLM published a notice of intent to prepare an environmental impact statement for the project on August 20, 2021 (86 FR 46867). The BLM published a notice of availability for the draft environmental impact statement for the project on January 20, 2023 (88 FR 3759).

Segregation of the Public Lands: On April 30, 2013, the BLM published a Final Rule, Segregation of Lands-Renewable Energy (78 FR 25204), that amended the regulations found in 43 CFR 2090 and 2800. The provisions of the Final Rule allow the BLM to temporarily segregate public lands within a solar or wind application area from the operation of the public land laws, including the Mining Law of 1872, by publication of a Federal Register notice. The BLM uses this temporary segregation authority to preserve its ability to approve, approve with modifications, or deny proposed ROWs, and to facilitate the orderly administration of the public lands, subject to valid existing rights. Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that would not impact lands identified in this notice may be allowed with the approval of an authorized officer of the BLM during the segregation period.

The Final Rule allows a State Director to extend the project-specific segregation if that segregation would expire before a decision can be made. In 2021, the BLM temporarily segregated the lands for two years (86 FR 46867). The two-year segregation expires on August 20, 2023.

The lands segregated under this notice are legally described as follows:

#### Boise Meridian, Idaho
