

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0182, Privacy Training.

B. Need and Uses

This clearance covers the information that contractors must submit to comply with the following FAR requirements:

- 52.224–3(d). This clause requires contractors to:

(1) Maintain a record of initial and annual privacy training, for the contractor's employees that: (a) have access to a system of records; (b) create, collect, use, process, store, maintain, disseminate, disclose, dispose, or otherwise handle personally identifiable information on behalf of an agency; or (c) design, develop, maintain, or operate a system of records; and

(2) Provide documentation of completion of such privacy training to the contracting officer if requested.

The contracting officer will use the information in contract administration and to establish that all applicable contractor and subcontractor employees comply with the privacy training requirements.

C. Annual Burden

Respondents/Recordkeepers: 1,227/49,097.

Total Annual Responses: 1,227.

Total Burden Hours: 147,598. (307 reporting hours + 147,291 recordkeeping hours).

D. Public Comment

A 60-day notice was published in the **Federal Register** at 88 FR 39254, on June 15, 2023. No comments were received.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division, by calling 202–501–4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000–0182, Privacy Training.

Janet Fry,

Director, Federal Acquisition Policy Division, Office of Governmentwide Acquisition Policy, Office of Acquisition Policy, Office of Governmentwide Policy.

BILLING CODE 6820–EP–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Agency for Healthcare Research and Quality****Notice of Meetings**

AGENCY: Agency for Healthcare Research and Quality (AHRQ), Department of Health and Human Services (HHS).

ACTION: Notice of five AHRQ subcommittee meetings.

SUMMARY: The subcommittees listed below are part of AHRQ's Health Services Research Initial Review Group (IRG) Committee. Grant applications are to be reviewed and discussed at these meetings. Each subcommittee meeting will be closed to the public.

DATES: See below for dates of meetings:

1. *Healthcare Effectiveness and Outcomes Research (HEOR)*
Date: October 11–12, 2023
2. *Healthcare Safety and Quality Improvement Research (HSQR)*
Date: October 11–12, 2023
3. *Health System and Value Research (HSVR)*
Date: October 12–13, 2023
4. *Healthcare Research Training (HCRT)*
Date: October 19–20, 2023
5. *Healthcare Information Technology Research (HITR)*
Date: October 26–27, 2023

ADDRESSES: Hilton Washington DC/ Rockville Hotel & Executive Meeting Center, 1750 Rockville Pike, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT: (to obtain a roster of members, agenda or minutes of the non-confidential portions of the meetings.)

Jenny Griffith, Committee Management Officer, Office of Extramural Research Education and Priority Populations, Agency for Healthcare Research and Quality (AHRQ), 5600 Fishers Lane, Rockville, Maryland 20857, Telephone (301) 427–1557

SUPPLEMENTARY INFORMATION: In accordance with section 10 (a)(2) of the Federal Advisory Committee Act (5 U.S.C. app. 2), AHRQ announces meetings of the above-listed scientific peer review groups, which are subcommittees of AHRQ's Health Services Research Initial Review Group Committee. The subcommittee meetings will be closed to the public in accordance with the provisions set forth in 5 U.S.C. app. 2 section 10(d), 5 U.S.C. 552b(c)(4), and 5 U.S.C. 552b(c)(6). The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal

information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Agenda items for these meetings are subject to change as priorities dictate.

Dated: August 14, 2023.

Marquita Cullom,

Associate Director.

BILLING CODE 4160–90–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Centers for Disease Control and Prevention**

[60Day–23–0214; Docket No. CDC–2023–0070]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled National Health Interview Survey (NHIS). NHIS is a voluntary and confidential household-based survey that collects demographic and health-related information from a nationally representative sample of the U.S. population, and has been in the field continuously since 1957.

DATES: CDC must receive written comments on or before October 20, 2023.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2023–0070 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without

change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

National Health Interview Survey (NHIS) (OMB Control No. 0920-0214, Exp. 12/31/2023)—Revision — National Center for Health Statistics (NCHS),

Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C.), as amended, authorizes that the Secretary of Health and Human Services (HHS), acting through NCHS, shall collect statistics on the extent and nature of illness and disability of the population of the United States. The annual National Health Interview Survey (NHIS) is a major source of general statistics on the health of the U.S. population and has been in the field continuously since 1957. This voluntary and confidential household-based survey collects demographic and health-related information from a nationally representative sample of households and noninstitutionalized, civilian persons throughout the country. NHIS data have long been used by government, academic, and private researchers to evaluate both general health and specific issues, such as smoking, diabetes, health care coverage, and access to health care. The survey is also a leading source of data for the Congressionally-mandated "Health US" and related publications, as well as the single most important source of statistics to track progress toward HHS health objectives.

The NHIS sample adult and sample child questionnaires include annual core content that is scheduled to be fielded in the survey every year, rotating content that is fielded periodically, emerging content to address new topics of growing interest, and sponsored content that is fielded when external funding is available. Rotating sample adult and sample child core content on service utilization that was on the NHIS in 2023 will rotate off in 2024. Content on chronic pain and preventive services will also rotate off the sample adult core, and content on stressful life events will rotate off the sample child core. The 2024 sample adult rotating core will include items on health-related behaviors including smoking history and cessation, alcohol use, fatigue, physical activity, walking, doctor's advice to exercise, and sleep—content previously fielded on the 2022 NHIS. It will also include content on allergies and other health conditions and psychological distress, content that was previously fielded in 2021. The 2024 sample child rotating core will include questions on health-related behaviors including physical activity, neighborhood characteristics, sleep, screen time, and height and weight which were previously fielded in 2022. Sponsored content on vision and

hearing will be removed from both the sample adult and sample child questionnaires. Sponsored content on arthritis will be removed from the sample adult questionnaire. Sponsored content on social support and stressful life events will be removed from the sample child questionnaire. Sponsored content on cancer control and immunizations will remain, but the specific questions will change. Sponsored cancer control content on breast, prostate, and colorectal cancer screening, family history of cancers, and genetic testing for cancer risk will be removed from the sample adult questionnaire. Sponsored cancer control content in the 2024 NHIS sample adult questionnaire will focus on cigarette smoking history, lung cancer screening, environment for walking, and sun safety, using similar questions that were used in the 2020 NHIS. Sponsored content for the 2024 NHIS sample adult and sample child questionnaire will also include questions about taste and smell that are similar to content included in the 2021 NHIS. Sponsored content on social support and loneliness will also be added to the 2024 NHIS sample adult questionnaire.

Like in past years, and in accordance with the 1995 initiative to increase the integration of surveys within the DHHS, respondents to the 2021 NHIS will serve as the sampling frame for the Medical Expenditure Panel Survey conducted by the Agency for Healthcare Research and Quality. A subsample of NHIS respondents and/or members of commercial survey panels may be identified to participate in short, web-based methodological and cognitive testing activities to evaluate the questionnaire and/or inform the development of new rotating and sponsored content using web and/or mail survey tools. In addition, subsamples of NHIS respondents may be recontacted by web, phone, or mail to ask follow-up questions on topics that are already included in the NHIS. The NHIS-Teen is a follow-back survey of adolescents that was fielded from 2021 to 2023 and may be fielded again between 2024 and 2026 if funding is available. The NHIS also includes content that is used to benchmark estimates and calibrate survey weights from probability-based online commercial survey panels as part of the NCHS Rapid Surveys System.

CDC requests OMB approval for an estimated 39,608 annual burden hours to collect from 2024–2026. There is no cost to the respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Adult Household Member	Household Roster	36,000	1	4/60	2,400
Sample Adult	Adult Questionnaire	33,000	1	50/60	27,500
Adult Family Member	Child Questionnaire	10,000	1	22/60	4,000
Adult Family Member	Methodological Projects	15,000	1	20/60	5,000
Sample Child	NHIS-Teen	1,000	1	15/60	250
Adult Family Member	Reinterview Survey	5,500	1	5/60	458
Total	39,608

Jeffrey M. Zirger,

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-23-22DI]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Noise Exposures and Hearing Loss in the Oil and Gas Extraction Industry” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on May 12, 2023 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Noise Exposures and Hearing Loss in the Oil and Gas Extraction Industry—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Oil and gas extraction (OGE) workers play an important role in supporting the United States economy and help fulfill the energy needs of Americans and American businesses. OGE workers have significant risks for a variety of exposures at oil and gas well sites. There has been no significant occupational noise exposure research in the United States onshore upstream OGE sector. This proposed project will characterize relationships between noise exposure, chemical exposures, hearing loss, and hearing loss prevention practices within the onshore OGE industry. Primary data will be collected using three approaches. First, researchers will collect direct measurements of noise and ototoxic chemicals on job sites, including personal exposure assessments of OGE workers. Second, researchers will use a questionnaire to collect information on noise and chemical exposures, hearing loss, and associated factors among OGE workers. Third, audiometry tests performed by NIOSH will be offered to industry partners to further understand extent of hearing loss amongst OGE workers.

CDC requests OMB approval for an estimated 106 annual burden hours. There is no cost to respondents other than their time to participate.
